An electronically filed document must be received successfully in its entirety by Commerce's electronic records system, ACCESS, by 5:00 p.m. Eastern Time within 30 days after the date of publication of this notice.¹³ Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues parties intend to discuss. Issues raised in the hearing will be limited to those raised in the respective case and rebuttal briefs.¹³ If a request for a hearing is made, Commerce intends to hold the hearing at a time and date to be determined. Parties should confirm

by telephone the date, time, and location of the hearing two days before the scheduled date.

Assessment Rates

Upon completion of the administrative review, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review.¹⁴ The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.¹⁵

For any individually examined respondent whose weighted-average dumping margin is above *de minimis* (i.e., 0.50 percent) in the final results of this review, we intend to calculate importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of antidumping duties calculated for the importer's examined sales to the total entered value of those same sales in accordance with 19 CFR 351.212(b)(1).¹⁶ We intend to instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific assessment rate calculated in the final results of this review is not zero or *de minimis*. If a respondent's weighted-average dumping margin is zero or *de minimis* within the meaning of 19 CFR 351.106(c)(1), or an importer-specific rate is zero or *de minimis*, we intend to instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For entries of subject merchandise during the POR for which a respondent did not know that its merchandise was destined for the United States, we intend to instruct CBP to liquidate such entries at the all-others rate if there is no rate for the intermediate company (or companies) involved in the transaction.

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for the companies listed above, will be the rate established in the final results of the review (except, if the rate is zero or *de minimis*, no cash deposit will be required); (2) for previously investigated companies not participating in this review, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the manufacturer of the subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 84.94 percent, the all-others rate established in the LTFV investigation.¹⁷

These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

SUPPLEMENTARY INFORMATION:

I. Abstract

This submission is a renewal of an existing collection. In January 2011, the National Oceanic and Atmospheric Administration's (NOAA) National Marine Fisheries Service (NMFS) implemented a trawl rationalization program, a catch share program, for the Pacific coast groundfish fishery's trawl fleet. The program was developed through Amendment 20 to the Groundfish Fishery Management Plan (FMP), under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) and consists of an individual fishing quota (IFQ) program for the shorebased trawl fleet (including whiting and non-whiting fisheries); and cooperative (coop) programs for the at-sea mothership (MS) and catcher/processor (C/P) trawl fleets (whiting only). As part of its fishery management responsibilities, the National Marine Fisheries Service (NMFS) collects information to determine the amount and type of catch taken by fishing vessels. This collection supports monitoring requirements including scale test requirements for first receivers in the Pacific Coast groundfish fishery's shorebased individual fishery quota (IFQ) program; and mothership and catcher/processors in the at-sea whiting fisheries. The collection also supports permits for businesses that provide certified observer and certified catch monitor services. The respondents are principally shore-based first receivers, catch monitor and observer service providers, mothership processors, and catcher/processors which are companies/partnerships.

II. Method of Collection

This collection utilizes both electronic and paper forms, depending on the specific item. Methods of submittal include email of electronic forms, and mail and facsimile transmission of paper forms. Additionally, this collection utilizes interviews for some information collection and phone calls for transmission of other information.
