Call Report. The financial and statistical information is essential to NCUA in carrying out its responsibility for supervising corporate credit unions. The Federal Credit Union Act, 12 U.S.C. 1762, specifically requires federal credit unions to report the identity of credit union officials. Section 741.6(a) requires federally-insured credit unions to submit a Report of Officials annually to NCUA containing the annual certification of compliance with security requirements. To implement this statutory requirement, a final rule was promulgated to amend 12 CFR part 1026, Regulation Z.

The recordkeeping and disclosure requirements prescribed under § 1026.35 are necessary to protect consumers, and promote the safety and soundness of creditors making higher-risk mortgage loans.

#### SUPPLEMENTARY INFORMATION:

*OMB Number:* 3133–0165.

*Title:* Fair Credit Reporting (FCRA).

*Type of Review:* Extension of a currently approved collection.

*Abstract:* The Fair Credit Reporting Act (FCRA) (15 U.S.C. 1681 *et seq.*) sets standards for the collection, communication, and use of information bearing on a consumer's creditworthiness, credit standing, credit capacity, character, general reputation, personal characteristics, or mode of living. FCRA has been revised numerous times since it took effect, notably by passage of the Consumer Credit Reporting Reform Act of 1996, the Gramm-Leach-Bliley Act of 1999, and the Fair and Accurate Credit Transactions Act of 2003.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (DFA) amended a number of consumer financial protection laws, including most provisions of FCRA. In addition to substantive amendments, the DFA transferred rulemaking authority for

most provisions of FCRA to the Consumer Financial Protection Bureau (CFPB). Pursuant to the DFA and FCRA, as amended, CFPB promulgated Regulation V, 12 CFR 1022, to implement those provisions of FCRA for which CFPB has rulemaking authority. Regulation V contains several requirements that impose information collection requirements on federal credit unions (FCUs).

The DFA did not transfer certain rulemaking authority under FCRA. Specifically, the DFA did not transfer to CFPB the authority to promulgate the requirement to properly dispose of consumer information; rules on identity theft red flags and corresponding interagency guidelines on identity theft detection, prevention, and mitigation, and rules on the duties of card issuers regarding changes of address. These provisions are promulgated in NCUA's Fair Credit Reporting regulation, 12 CFR 717, which applies to federal credit unions.

The collection of information pursuant to Parts 1022 and 717 is triggered by specific events and disclosures and must be provided to consumers within the time periods established under the regulation.

**Affected Public:** Private Sector: Not-for-profit institutions; Individuals or Households.

**Estimated Number of Respondents:** FCU: 3,232; Consumer: 143,300.

**Estimated Frequency of Response:** Upon occurrence of triggering action.

**Estimated Burden Hours per Response:** FCU: 5.07; Consumer: 0.08.

**Estimated Total Annual Burden Hours:** 272,686 (FCU: 248,827; Consumer: 23,859).

**Request for Comments:** Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record. The public is invited to submit comments concerning: (a) Whether the collection of information is necessary for the proper execution of the function of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

respond to the collection of information unless it displays a currently valid OMB control number.

**Title of Collection:** Business Systems Review Guide.

**OMB Number:** 3145-NEW.

**Type of Request:** Request for approval to establish an information collection.

**Proposed Project:** The National Science Foundation Act of 1950 (Pub. L. 81-507) set forth NSF's mission and purpose:

"To promote the progress of science; to advance the national health, prosperity, and welfare; to secure the national defense.\* \* \*

The Act authorized and directed NSF to initiate and support:

☐ Basic scientific research and research fundamental to the engineering process;

☐ Programs to strengthen scientific and engineering research potential;

☐ Science and engineering education programs at all levels and in all the various fields of science and engineering;

☐ Programs that provide a source of information for policy formulation; and

☐ Other activities to promote these ends.

Among Federal agencies, NSF is a leader in providing the academic community with advanced instrumentation needed to conduct state-of-the-art research and to educate the next generation of scientists, engineers and technical workers. The knowledge generated by these tools sustains U.S. leadership in science and engineering (S&E) to drive the U.S. economy and secure the future. NSF's responsibility is to ensure that the research and education communities have access to these resources, and to provide the support needed to utilize them optimally, and implement timely upgrades.

The scale of advanced instrumentation ranges from small research instruments to shared resources or facilities that can be used by entire communities. The demand for such instrumentation is very high, and is growing rapidly, along with the pace of discovery. For major facilities and shared infrastructure, the need is particularly high. This trend is expected to accelerate in the future as increasing numbers of researchers and educators rely on such large facilities, instruments, and databases to provide the reach to make the next intellectual leaps. NSF currently provides support for facility construction from two accounts: The Major Research Equipment and Facility Construction (MREFC) account, and the Research and Related Activities (R&RA) account.
