POLICY JUSTIFICATION

Republic of Korea—MK 15 MOD 25 Phalanx Close-In Weapons System (CIWS) Block 1B Baseline 2 (1B2) System

The Republic of Korea has requested to buy two (2) MK 15 MOD 25 Phalanx Close-In Weapons System (CIWS) Block 1B Baseline 2 (1B2) systems; and four thousand (4,000) rounds, 20MM cartridge API linked. Also included are spare parts; other support equipment; ammunition; books and other publications; software; training; engineering technical assistance and other technical assistance; and other related elements of program and logistical support. The estimated total cost is \$39 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a Major Non-NATO Ally that is a force for political stability and economic progress in the Pacific region.

The proposed sale will improve the Republic of Korea's capability to meet current and future threats. Korea will use the systems aboard its first KDX III Batch II Class ship to provide it with effective means of detecting and defending itself against incoming airborne threats. The Republic of Korea will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missile and Defense, Louisville, KY. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Republic of Korea. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis in conjunction with program technical oversight and support requirements, including multiple trips by U.S. Government and contractor representatives to participate in program and technical reviews, as well as to provide training and maintenance support in country, as required.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20–86

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The MK 15 MOD 25 Phalanx Close-In Weapon System (CIWS) consists of a rapid-fire computer-controlled radar and gun system mounted on a turret designed to defeat anti-ship missiles; small surface craft; low, slow aircraft; rockets and mortars. The weapons system carries out search, detection, target threat evaluation, tracking, firing and kill loop fire control that uses advanced radar and computer technology to locate, identify and direct a system of armor piercing projectiles to the target. The Phalanx Block 1B Baseline 2 (1B2) Radar Upgrade Kits converted the system's radar from an analog to digital suite, and in doing so addressed significant hardware obsolescence.

2. The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used

to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Republic of Korea can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Republic of Korea.

The Honorable Nancy Pelosi
Speaker of the House
U.S. House of Representatives
H-209, The Capitol
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No. 20-87 concerning the Army's proposed Letter(s) of Offer and Acceptance to the Taipei Economic and Cultural Representative Office in the United States (TECRO) for defense articles and services estimated to cost \$280 million. After this letter is delivered to your office, we plan to issue a news release to notify the public of this proposed sale.

Sincerely,

Heidi H. Grant
Director

POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office in the United States (TECRO)—Field Information Communications System (FICS)

TECRO has requested to buy a Field Information Communications System (FICS), consisting of one hundred fifty-four (154) Communications Nodes (CN) with S-788 Type III shelter; twenty-four (24) Communication Relays with S-788 Type III shelter; eight (8) Network Management Systems (NMS) with S-788 Type III shelter; Basic Issue Items (BII); program management support; verification testing; system technical support; transportation; spare and repair parts; communication support equipment; communication equipment integration; tools and test equipment; personnel training and training equipment; initial repair and return program; Additional Authorized List (AAL); technical manuals; Quality Assurance Team (QAT); U.S. Government and contractor engineering; technical and logistics support services; contractor provided training; Field Service Representatives (FSR); and other related elements of logistics and program support. The total estimated program cost is \$280 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security

interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, economic and progress in the region.

This proposed sale is designed to provide mobile and secure communications. It will contribute to the recipient's goal to modernize its military communication's capability in support of their mission and operational needs. The recipient will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is currently unknown due to a pending open competition for selection. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor(s).

Implementation of this proposed sale will not require the permanent assignment of any additional U.S. Government or contractor representatives to the recipient. Contractor representative and U.S. Government support teams may be required to travel to the country on a temporary basis.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 20-87

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Field Information Communications System (FICS) is made up of commercially available, non-program of record components. The FICS system (also referred to as "Syun Lien") is an area-switched communications system which is designed to provide mobile and secure communications in a wide range of battle situations. The FICS system provides mobile and secure voice and data communications on an automatic, discrete addressed, fixed-directory basis to the military Tactical Operations Center (TOC)-level command posts (CPs), and remote (mobile) users employing technological improvements in radio transmissions, data networking and packetized voice, while minimizing system footprint (power, size, personnel and logistics train). The system supports

both mobile and wire subscribers with a means to exchange command, control, communications, and intelligence information in a dynamic tactical environment.

2. The highest level of classification of defense articles, components, and services included in this potential sale is UNCLASSIFIED.

3. If a technologically advanced adversary were to obtain knowledge of the hardware and software elements, the information could be used to develop countermeasures or equivalent systems, which might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the recipient can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the recipient.
