Title: 7 CFR 1902-A, Supervised Bank Accounts.

OMB Number: 0575-0158.

Expiration Date of Approval: February 28, 2021.

Type of Request: Extension of a Currently Approved Information Collection.

Abstract: The Agency extends financial assistance to applicants that do not qualify for loans under commercial rates and terms. The Agency use SBAs as a mechanism to (1) ensure correct disbursement and expenditure of all funds designated for a project; (2) help a borrower properly manage its financial affairs; (3) ensure that the Government's security is protected adequately from fraud, waste and abuse. SBAs are mandatory for Multi-Family Housing (MFH) reserve accounts. The MFH funds must be kept in the SBA for the full term of a loan. Any funds withdrawn for disbursement for an authorized purpose require a countersignature from an Agency official. This regulation prescribes the policies and responsibilities for the use of SBAs. In carrying out the mission as a supervised credit Agency, this regulation authorizes the use of supervised accounts for the disbursement of funds. The use may be necessitated to disburse Government funds consistent with the various stages of any development (construction) work actually achieved. On limited occasions, a supervised account is used to provide temporary credit counseling and oversight of those being assisted who demonstrate an inability to handle their financial affairs responsibly. Another use is for depositing MFH reserve account funds in a manner requiring Agency co-signature for withdrawals. MFH reserve account funds are held in a reserve account for the future capital improvement needs for apartment properties. Supervised accounts are established to ensure Government security is adequately protected against fraud, waste and abuse. The legislative authority for requiring the use of

supervised accounts is contained in section 510 of the Housing Act of 1949, as amended (42 U.S.C. 1480). These provisions authorize the Secretary of Agriculture to make such rules and regulations as deemed necessary to carry out the responsibilities and duties the Government is charged with administering.

SUPPLEMENTARY INFORMATION:

I. Abstract

The School District Review Program (SDRP) is one of many voluntary geographic partnership programs. The SDRP collects school district information and boundaries to update the U.S. Census Bureau's geographic database of addresses, streets, and boundaries. The Census Bureau uses its geographic database to tie demographic data from surveys and the decennial census to locations and areas, such as cities, school districts, and counties. To tabulate statistics by localities, the Census Bureau must have accurate addresses and boundaries.

While the geographic programs differ in requirements, timeframe, and participants, SDRP and the other geographic programs all follow the same basic process:

- The Census Bureau invites eligible participants to the program. For SDRP, the sponsor, the National Center for Education Statistics invites the state departments of education/state Title I
