

stipulation filed on October 18, 2019 and entered by the court on October 22, 2019, in *Center for Biological Diversity et al. v. EPA et al.* (N.D. Ca) (3:11-cv-00293). EPA stated in this settlement that it would also include propazine in this group of effects determinations. EPA is hereby extending the public comment period, which was set to end on January 5, 2021, to February 19, 2021.

After considering a number of requests to extend the comment period received from various stakeholders, EPA is extending the comment period for the following reasons: (1) The length, complexity, and highly technical nature of the draft biological evaluations; (2) the need for some stakeholders to engage experts familiar with the subject matter to assist them with providing comments; (3) the large number of stakeholders potentially impacted by the draft biological evaluations; (4) the importance of soliciting feedback from stakeholders who may be affected; and (5) the stakeholders' need for additional time to review and develop constructive comments for these complex and lengthy documents.

To submit comments, or access the docket, please follow the detailed instructions provided under **ADDRESSES** in the **Federal Register** document of November 6, 2020. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

**Product Cancellation Order for Certain Pesticide Registrations of Tetrachlorvinphos**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces EPA's order for the cancellations, voluntarily requested by the registrant and accepted by the Agency, of the products listed in Table 1 of Unit II., pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). This cancellation order follows an August 6, 2020 **Federal Register** Notice of Receipt of Request from the registrant listed in Table 2 of Unit II. to voluntarily cancel these product registrations. In the August 6, 2020 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30-day comment period that would merit its further review of these requests, or unless the registrant withdrew their request. The Agency did not receive any comments on the notice. Further, the registrant did not withdraw their request. Accordingly, EPA hereby issues in this notice a cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stocks provisions.

**DATES:** The cancellations are effective December 30, 2020.

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*A. Does this action apply to me?*

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

*B. How can I get copies of this document and other related information?*

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2009-0308, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC 20460-0001.

Due to public health concerns related to COVID-19, the EPA Docket Center (EPA/DC) and Reading Room is closed to visitors with limited exceptions. The staff continues to provide remote customer service via email, phone, and webform. For the latest status information on EPA/DC services and docket access, visit <http://www.epa.gov/dockets>.

**II. What action is the Agency taking?**

This notice announces the cancellation, as requested by the registrant, of products registered under FIFRA section 3 (7 U.S.C. 136a). These registrations are listed in sequence by registration number in Table 1 of this unit.

### III. Summary of Public Comments Received and Agency Response to Comments

During the 30-day public comment period provided, EPA received no comments in response to the August 6, 2020 **Federal Register** notice announcing the Agency's receipt of the request for voluntary cancellation of the products listed in Table 1 of Unit II.

### IV. Cancellation Order

Pursuant to FIFRA section 6(f) (7 U.S.C. 136d(f)), EPA hereby approves the requested cancellation of the registrations identified in Table 1 of Unit II. Accordingly, the Agency hereby orders that the product registrations identified in Table 1 of Unit II. are canceled. The effective date of the cancellations that are the subject of this notice is December 30, 2020. Any distribution, sale, or use of existing stocks of the products identified in Table 1 of Unit II. in a manner inconsistent with any of the provisions for disposition of existing stocks set forth in Unit VI. will be a violation of FIFRA.

### V. What is the Agency's authority for taking this action?

Section 6(f)(1) of FIFRA (7 U.S.C. 136d(f)(1)) provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the EPA Administrator may approve such a request. The notice of receipt for this action was published for comment in the **Federal Register** of August 6, 2020 ((volume 85 number 152) (FRL-10012-80)). The comment period closed on September 8, 2020.

### VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products that are currently in the United States and that were packaged, labeled, and released for shipment prior to the effective date of the cancellation action. The existing stocks provisions for the products subject to this order are as follows.

Hartz may not "release for shipment," as that term is defined by 40 CFR 152.3, any product under EPA Reg. Nos. 2596-78 and 2596-79 (dust products) as of December 30, 2020 and may not sell or distribute existing stocks of its dust products after March 31, 2021, except for export consistent with FIFRA section 17 (7 U.S.C. 136o) or for proper disposal. Hartz may sell or distribute existing stocks of EPA Reg. No. 2596-63 (cat collar) until exhausted.

Persons other than the registrants may sell, distribute, or use existing stocks of canceled products until supplies are exhausted, provided that such sale, distribution, or use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled products.

### n-Methylpyrrolidone (NMP); Final Toxic Substances Control Act (TSCA) Risk Evaluation; Notice of Availability

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is announcing the availability of the final Toxic Substances Control Act (TSCA) risk evaluation of n-Methylpyrrolidone (NMP). The purpose of conducting risk evaluations under TSCA is to determine whether a chemical substance presents an unreasonable risk of injury to health or the environment under the conditions of use, including an unreasonable risk to a relevant potentially exposed or susceptible subpopulation, without consideration of costs or other nonrisk factors. EPA has determined that specific conditions of use of NMP present an unreasonable risk of injury to health. For those conditions of use for which EPA has

found an unreasonable risk, EPA must take regulatory action to address that unreasonable risk through risk management measures enumerated in TSCA. EPA has also determined that specific conditions of use do not present unreasonable risk of injury to health or the environment. For those conditions of use for which EPA has found no unreasonable risk to health or the environment, the Agency's determination is a final Agency action and is issued via order in the risk evaluation.

**ADDRESSES:** The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2019-0236, is available online at <http://www.regulations.gov> or in-person at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC.
