SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR calculates the burden and costs associated with reporting and record-keeping activities required under the Final Effluent Limitations Guidelines (ELG) and Standards for the Dental Category. For purposes of this estimate, EPA assumed all existing dentists affected by the original rulemaking would have complied with the One-Time Compliance Reporting by the time of this ICR renewal. This estimate includes the effort for One-Time Compliance Reporting for new dental offices which open during the ICR period and those which transfer ownership and conduct annual recordkeeping. This estimate is based on average total compensation labor rates from the Bureau of Labor Statistics for the dental office personnel involved in collecting and reporting the information required. This estimate also includes the effort for control authorities to review the information submitted by dentists that certify they meet the requirements of the final rule. EPA estimates that there will be no start-up or capital costs associated with the information described above. Respondent reports may contain confidential business information. If a respondent does consider this information to be of a confidential nature, the respondent may request that such information be treated as confidential. All confidential data will be handled in accordance with 40 CFR 122.7, 40 CFR part 2, and EPA's Security Manual part III, chapter 9, dated August 9, 1976.

Form Numbers: None.

Respondents/affected entities: Dentists, Control Authorities.

Respondent's obligation to respond: Mandatory (40 CFR 403 & 441).

Estimated number of respondents: 124,378 annual average (122,741 permittees and 1,637 Publicly Owned Treatment Works and States/Tribes/Territories).

Frequency of response: One time.

Total estimated burden: 392,646 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$11,065,904 (per year), includes \$9,671 in non-labor costs (i.e., postage and file storage).

Changes in the Estimates: There is a decrease of 39,467 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The burden decrease is based on the assumption that all existing dental offices which place or remove amalgam submitted the required One-Time Compliance Report during the prior ICR period. EPA is assuming a one percent growth rate in dental offices and that only new dental offices and dental offices transferring ownership will be doing the One-Time Compliance Reporting.
