

B. How can I get copies of these documents and other related information?

Docket. EPA has established an official public docket for these actions under Docket ID No. EPA-HQ-OW-2018-0618. The official public docket is the collection of materials that are available for public viewing at the Water Docket in EPA Docket Center, (EPA/DC) EPA West, Room 3334, 1301 Constitution Ave. NW, Washington, DC 20460.

Electronic Access. You can access this **Federal Register** document electronically through the United States Government online source for federal regulations at <http://www.regulations.gov>.

Internet access. Copies of the supporting documents are available at <http://www.epa.gov/eg/effluent-guidelines-plan>.

II. Notice of Availability

A. Legal Authority.

This notice is published under the authority of the CWA, 33 U.S.C. 1251, *et seq.*, and in particular Sections 301(d), 304(b), 304(g), 304(m), 306, 307(b) and 308 of the Act, 33 U.S.C. 1311(d), 1314(b), 1314(g), 1314(m), 1316, 1317(b), and 1318.

B. Summary of Preliminary Effluent Guidelines Program Plan 14

EPA prepared Plan 14 pursuant to CWA Section 304(m). Effluent guidelines plans provide a summary of EPA's annual review of effluent guidelines and pretreatment standards, consistent with CWA Sections 301(d), 304(b), 304(g), 304(m), and 307(b). From these reviews, the plans identify any new or existing industrial categories selected for effluent guidelines or pretreatment standards rulemakings and provide a schedule for such rulemakings. In addition, the plans present any new or existing categories of industry selected for further review and analysis. Plan 14 provides updates on activities discussed in Preliminary Effluent Guidelines Program Plan 14 (Preliminary Plan 14) and discusses comments that were received during the public comment period.

EPA received 17 unique comment letters on Preliminary Plan 14. Commenters generally provided suggestions for improving certain analyses as well as comments for EPA to consider as it continues work on the detailed studies discussed in the Plan. EPA considered public comments and made revisions to clarify the final document, but did not change course on

any substantive areas of ELG work as a result of public comments.

Plan 14 presents preliminary results from some new analyses and provides updates on EPA's reviews of industrial wastewater discharges and treatment technologies discussed in Preliminary Plan 14 including analyses of industrial sources and discharges of nutrients, proposed treatment technology reviews, and the effluent limitations guidelines database.

Plan 14 also provides updates on ongoing point source category studies, including EPA's decision to conclude the Petroleum Refining Category and planned next steps for the detailed study on the Electrical and Electronic Components Category. Plan 14 provides an update on the Pre- and Polyfluoroalkyl Substances (PFAS) Multi-Industry study, the scope of which includes organic chemical manufacturers, airports, rug and textile manufacturers, pulp and paper manufacturers, and the metal finishing point source category (added to the scope of the study after the Preliminary Plan 14 was published). Plan 14 discusses the types of information regarding PFAS that has been received to date, that EPA primarily received this information through outreach to stakeholders, and that EPA continues to evaluate this information to inform decisions about how best to address industrial PFAS discharges.

Finally, Plan 14 discusses several actions that are included in EPA's Fall Regulatory Agenda, including initiating an effort to evaluate the best available technology economically available limitations for two waste streams (landfill leachate and legacy wastewater) for the steam electric power generating point source category that were vacated in an April 2019 decision in U.S. Court of Appeals for the Fifth Circuit; and an advance notice of proposed rulemaking for the Organic Chemicals, Plastics, and Synthetic Fibers point source category to solicit additional information or data about PFAS manufacturers and formulators.

Plan 14 can be found at <http://www.epa.gov/eg/effluent-guidelines-plan>.

David P. Ross,

Assistant Administrator, Office of Water.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2013-0326; FRL-10018-80-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NSPS for Asphalt Processing and Roofing Manufacture (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NSPS for Asphalt Processing and Roofing Manufacture (EPA ICR Number 0661.13, OMB Control Number 2060-0002), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through February 28, 2021. Public comments were previously requested via the **Federal Register** on May 12, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before February 10, 2021.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0326, to EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information

collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA’s public docket, visit: <http://www.epa.gov/dockets>.

Abstract: Owners and operators of affected facilities are required to comply with reporting and recordkeeping requirements for the General Provisions (40 CFR part 60, subpart A), as well as for the applicable standards at 40 CFR part 60, subpart UU. This includes submitting initial notifications, performance tests and periodic reports and results, and maintaining records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These reports are used by EPA to determine compliance with these standards.

Form Numbers: None.

Respondents/affected entities: Asphalt processing and roofing manufacture facilities.

Respondent’s obligation to respond: Mandatory (40 CFR part 60, subpart UU).

Estimated number of respondents: 144 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 34,100 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$9,240,000 (per year), which includes \$5,240,000 in annualized capital and/or operation & maintenance costs.

Changes in the Estimates: There is no change in burden from the most-recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to two considerations. First, the regulations

have not changed over the past three years and are not anticipated to change over the next three years. Second, the growth rate for this industry is very low or non-existent, so there is no significant change in the overall burden. Since there are no changes in the regulatory requirements and there is no significant industry growth, there are also no changes in the capital/startup or operation and maintenance (O&M) costs.

Courtney Kerwin,

Director, Regulatory Support Division.
