SUPPLEMENTARY INFORMATION:

Abstract of Patent Application(s)

Devices and methods for guided endodontic micro-surgery using trephine burs. The device includes a surgical guide comprising a dentate guard and a port extending from the dentate guard. The dentate guard is configured to conform to dentition of a patient proximate to a surgical site. The port has a bore extending therethrough such that a distal end of the bore terminates at the surgical site. The port, and its bore, are configured to receive a trephine bur for the EMS procedure at the surgical site.

Intellectual Property

U.S. Application Publication No. 2019/0328486, published October 31, 2019, and entitled *Guided endodontic micro-surgery (EMS) with trephine burs*.

The Department of the Air Force may grant the prospective license unless a timely objection is received that sufficiently shows the grant of the license would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be

considered as an alternative to the proposed license.

Adriane Paris,

Acting Air Force Federal Register Liaison Officer.

SUPPLEMENTARY INFORMATION:

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purpose of the ANE program is to support innovative projects that recognize and address the unique educational needs of Alaska Natives. These projects must include the activities authorized under section 6304(a)(2) of the Elementary and Secondary Education Act of 1965, as amended (ESEA), and may include one or more of the activities authorized under section 6304(a)(3) of the ESEA, including, but not limited to, curriculum development, training and professional development, early childhood and parent outreach, and enrichment programs, as well as construction.

Background: The ANE program serves the unique educational needs of Alaska Natives and recognizes the roles of Alaska Native languages and cultures in

the educational success and long-term well-being of Alaska Native students. In light of the disparities in remote learning infrastructure exposed by the widespread school closures caused by the novel coronavirus 2019 (COVID-19), the need for students across the country, and low-income students in particular, to have access to high-quality remote learning is particularly acute. Thus, for this competition, the ANE program gives competitive preference to applicants whose proposals address remote learning and target certain subgroups for remote learning. Specifically, the competitive preference priority solicits applications that propose to provide reliable high-speed internet, devices, and software applications to learners who previously did not have access to such technologies. In addition, the competitive preference priority encourages applications that include providing high-quality remote learning for Native American (as defined in this notice) students.

Priorities: This notice contains one absolute priority and one competitive preference priority. In accordance with 34 CFR 75.105(b)(2)(v), the absolute priority is from section 6304(a)(2)(A) and (B) of the ESEA. In accordance with 34 CFR 75.105(b)(2)(ii), the competitive preference priority is from the notice of final administrative priority and definitions for discretionary grants programs published in the **Federal Register** on December 30, 2020 (85 FR 86545) (NFP).

Absolute Priority: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

An applicant must address both parts of the absolute priority. An applicant must clearly identify in its application where the absolute priority is addressed.

This priority is:

Eligible applicants must design a project that—

1. Develops and implements plans, methods, strategies, and activities to improve the educational outcomes of Alaska Natives; and

2. Collects data to assist in the evaluation of the programs carried out under the ANE program.

Competitive Preference Priority: For FY 2021, and any subsequent year in which we make awards from the list of unfunded applications from this competition, this priority is a competitive preference priority. Under 34 CFR 75.105(c)(2)(i), we award up to an additional 10 points to an
