DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 13-039]

Green Island Power Authority and Albany Engineering Corporation; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed an application submitted by Green Island Power Authority and Albany Engineering Corporation to amend its Green Island Hydroelectric Project license (FERC No. 13) and has prepared an environmental assessment (EA) for the project. The Green Island Project is located at the U.S. Army Corps of Engineers (Corps) Green Island-Troy Lock and Dam on the Hudson River in Albany County, New York. The project occupies federal land under the jurisdiction of the Corps.

The EA contains staff's analysis of the potential environmental effects of the proposed action and concludes that approval of the amendment application, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA may be viewed on the Commission's website at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

Any comments should be filed within 30 days from the date of this notice.

The Commission strongly encourages electronic filing. Please file comments using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit

brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. In lieu of electronic filing, you may submit a paper copy. Submissions sent via the U.S. Postal Service must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P-13-039.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OAR-2020-0322; FRL-10011-04-OAR]

Notice of Receipt of Petitions for a Waiver of the 2019 and 2020 Renewable Fuel Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for comment on petitions received.

SUMMARY: EPA has received a number of petitions last year for a waiver of the Renewable Fuel Standard (RFS) obligations that apply in 2019 and 2020. These petitions argue that recent events warrant EPA exercising its general waiver authority on the basis of severe economic harm. In late March, a group of small refineries requested a waiver of the 2019 and 2020 obligations of their individual small refineries. In April and May, the Governors of several states submitted three separate petitions for waivers of the nationwide volumes. The Clean Air Act grants EPA the discretion to waive the requirements of the RFS program in whole or in part if the Administrator determines, after notice and comment, that implementation of the applicable annual volume requirements would severely harm the economy or environment of a State,
