

and enforce EPA's NSPS, NESHAP, and MACT standards have been updated, as provided for under the terms of EPA's previous delegation of authority actions, to allow Virginia to implement and enforce the federal NSPS, NESHAP and MACT standards which Virginia has adopted by reference as specified in Virginia's revised regulations 9 VAC 5-50 and 9 VAC 5-60, both effective on March 4, 2020.

Please note that on December 19, 2008, in *Sierra Club v. EPA*,¹ the United States Court of Appeals for the District of Columbia Circuit vacated certain provisions of the General Provisions of 40 CFR part 63 relating to exemptions for startup, shutdown, and malfunction (SSM). On October 16, 2009, the Court issued a mandate vacating these SSM exemption provisions, which are found at 40 CFR 63.6(f)(1) and (h)(1).

Accordingly, EPA no longer allows sources the SSM exemption as provided for in the vacated provisions at 40 CFR 63.6(f)(1) and (h)(1), even though EPA has not yet formally removed these SSM exemption provisions from the General Provisions of 40 CFR part 63. Because Virginia incorporated 40 CFR part 63 by reference, Virginia should also no longer allow sources to use the former SSM exemption from the General Provisions of 40 CFR part 63 due to the Court's ruling in *Sierra Club vs. EPA*.

EPA appreciates Virginia's continuing NSPS, NESHAP and MACT standards enforcement efforts, and also Virginia's decision to take automatic delegation of additional or updated NSPS, NESHAP and MACT standards by adopting them by reference.

Sincerely,
Cristina Fernandez,
Director Air and Radiation Division"

This notice acknowledges the update of Virginia's delegation of authority to implement and enforce NESHAP, NSPS, and MACT standards.

Dated: November 17, 2020.

Cristina Fernandez,
Director, Air and Radiation Division, Region III.

Abstract: This ICR covers the collection of information from those organizations that receive cooperative agreements from EPA under the authority of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) as amended by the Brownfields Utilization, Investment, and Local Development (BUILD) Act (Pub. L. 115-141). CERCLA, as amended, authorizes EPA to award grants or cooperative agreements to states, tribes, local governments, and other eligible entities to support the assessment and cleanup of brownfields sites. Under the Brownfields Amendments, a brownfields site means real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. For funding purposes, EPA uses the term "brownfields property(ies)" synonymously with the term "brownfields sites." The Brownfields Amendments authorize EPA to award several types of cooperative agreements to eligible entities on a competitive basis.

Under subtitle A of the Small Business Liability Relief and Brownfields Revitalization Act, states, tribes, local governments, and other eligible entities can receive assessment cooperative agreements to inventory, characterize, assess, and conduct planning and community involvement related to brownfields properties; cleanup cooperative agreements to carry out cleanup activities at brownfields properties; multipurpose cooperative agreements to conduct activities

¹ *Sierra Club v. EPA*, 551 F.3d 1019 (D.C. Cir. 2008).

allowed under both assessment and cleanup cooperative agreements; cooperative agreements to capitalize revolving loan funds and provide subgrants for cleanup activities; area-wide planning cooperative agreements to develop revitalization plans for brownfields; and environmental workforce and development job training and placement programs. Under subtitle C of the Small Business Liability Relief and Brownfields Revitalization Act, states and tribes can receive cooperative agreements to establish and enhance their response programs through the four elements and meet the public record requirements under the statute. Cooperative agreement recipients (“recipients”) have general reporting and record keeping requirements as a condition of their cooperative agreement that result in burden. A portion of this reporting and record keeping burden is authorized under 2 CFR part 1500 and identified in the EPA’s general grants ICR (OMB Control Number 2030–0020). EPA requires Brownfields program recipients to maintain and report additional information to EPA on the uses and accomplishments associated with funded brownfields activities. EPA uses several forms to assist recipients in reporting the information and to ensure consistency of the information collected. EPA uses this information to meet Federal stewardship responsibilities to manage and track how program funds are being spent, to evaluate the performance of the Brownfields Cleanup and Land Revitalization Program, to meet the Agency’s reporting requirements under the Government Performance Results Act, and to report to Congress and other program stakeholders on the status and accomplishments of the program.

Respondents/affected entities: State/local/tribal governments; Non-Profits.

Respondent’s obligation to respond: Required to obtain or Retain Benefits (2 CFR part 1500).

Estimated number of respondents: 2969 (total).

Frequency of response: Bi-annual for subtitle C recipients; quarterly for subtitle A recipients. *Total estimated burden:* 6,144 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$712,108 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the Estimates: The overall burden has increased slightly by 379 hours since the last ICR submittal. This is the result of an increased response total of 123 additional responses. Respondents indicated that improvements in the ACRES reporting system and increased familiarity with

the program lead to a lower burden per individual entry.

Director, Regulatory Support Division.
