

program. Non-governmental data users are diverse and include universities, financial analysts, unions, trade associations, public libraries, banking institutions, and U.S. and foreign corporations.

Title 13 of the United States Code, Section 91 requires that financial statistics of business operations be collected and published quarterly. Public Law 114–72 extended the authority of the Secretary of Commerce to conduct the QFR Program under Section 91 through September 30, 2030.

II. Method of Collection

The Census Bureau uses two forms of data collection: Mail out/mail back paper survey forms and a secure encrypted internet data collection system called Centurion. Centurion has automatic data checks and is context-sensitive to assist respondents in identifying potential reporting problems before submission, thus reducing the need for follow-up from Census Bureau staff. Data collection through Centurion is completed via the internet, eliminating the need for downloading software and ensuring the integrity and confidentiality of the data.

Companies are asked to respond to the survey within 25 days of the end of the quarter for which the data are being requested. Census Bureau staff contact companies that have not responded by the designated time through letters, telephone calls, and/or email to encourage participation.
