SUPPLEMENTARY INFORMATION: In accordance with the Privacy Act, 5

U.S.C. 552a, MSPB proposes to establish a new system of records titled "Surveys for Special Studies of the Civil Service." This system of records is being established in order to develop and administer the Merit Principles Survey (MPS), along with other surveys for special studies of the civil service and to evaluate and distribute the results of such surveys. This system of records contains information that MSPB collects, maintains, and uses regarding individuals who are potential or actual survey respondents.

MSPB was instituted under the Civil Service Reform Act of 1978 and administers surveys under its general authorities to conduct studies and research on matters relevant to the MSPs and Prohibited Personnel Practices (PPPs). The statute (5 U.S.C. 1204(a)(3)) also authorizes a "special studies" function, under which MSPB has the authority to conduct studies when it deems appropriate on the topics it deems appropriate, so long as the studies relate to "the civil service and to other merit systems in the executive branch[.]" This function enables MSPB to independently conduct research and present the subsequent findings to the President, Congress, and other Federal human capital stakeholders so that they can have access to information to aid in their decision-making processes.

MSPB established the MPS in support of its statutory responsibility to assess the health of Federal merit systems. MSPB has conducted the MPS since 1983 as part of its statutory oversight responsibilities (5 U.S.C. 1204(a)(3) and 5 U.S.C. 1204(e)(3)). The survey tracks a variety of Federal workforce issues related to the MSPs and PPPs, with results reported to the President and Congress and shared with Federal policy-makers and decision-makers. This survey differs from the Federal Employee Viewpoint Survey administered by the Office of Personnel Management (OPM) in several respects, such as: A focus on MSPs and PPPs and human resources policy and practice; administration every few years instead of annually; and a smaller sample, and use of non-recurring questions to delve into discrete topics of interest. MSPB conducted Government-wide MPS administrations as part of its program of survey research in 1983, 1986, 1989, 1992, 1996, 2000, 2005, 2007, 2010, and 2016. In addition, MSPB has administered and collected data from other surveys, such as the 2007 Career Advancement Survey, 2009 MSPB Federal Telework Survey, and the 2011 Fair and Open Competition Survey.

The MPS and other surveys conducted by MSPB are tools that
