

landscapes and collaborative participants.

Need and Use of the Information: The information collection methods used will be:

1. *Mail and Electronic Monitoring Survey:* Respondents will be given the option of completing an online version of the monitoring instrument; those choosing not to respond online will be given the option of completing a paper version.

2. *Non-Response Checks:* Data will be analyzed for non-response bias and a small subset of respondents will be sampled via phone and asked a small number of monitoring questions (<5 minutes each).

This is an extension renewal without revisions of an information collection that will be conducted by the University of Montana's Bureau of Business and Economic Research (BBER) in conjunction with UM's College of Forestry and Conservation. The purpose is twofold: (1) To meet our obligations under the CFLRP to monitor social impacts, and (2) to provide feedback to Forest Service managers about the activities, including the decision making processes, conducted under the CFLRP. Through an adaptive management process recommended by the authors of the FLRA, this information can be used to improve processes and actions on future restoration projects. The results will be analyzed and published in a final report available for use by federal and state policy makers and by the general public.

Description of Respondents: Individuals or households.

Estimated Number of Respondents: 2,330.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 320 hours.

Submission for OMB Review; Comment Request

January 22, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by February 26, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Risk Management Agency

Title: General Administrative Regulations; Subpart V—Submission of Policies, Provisions of Policies, Rates of Premium, and Non-Reinsured Supplemental Policies.

OMB Control Number: 0563-0064.

Summary of Collections: The Federal Crop Insurance Corporation (FCIC) amends the procedures for the submission of policies, plans of insurance, or other rates or premium by insurance companies, entities or other persons. Public Law 96-365 provided for nationwide expansion of a comprehensive crop insurance program. The Federal Crop Insurance Act, as amended, expanded the role of the crop insurance to be the principal tool for risk management by producers of farm products and required that the crop insurance program operate on an actuarially sound basis. It provides for independent reviews of insurance products by persons experienced as actuaries and in underwriting. The Act was further amended in 2008 to provide the opportunity for the submission of a concept proposal to the FCIC Board of

Directors (Board) for approval for advance payment of estimated research and development expenses.

Need and Use of the Information: An applicant has the option to submit a concept proposal or a submission package for a crop insurance product and have it presented to the Board. The Board will review an applicant's submissions to determine, if the interests of agricultural producers and taxpayers are protected; the submission is actuarially appropriate; appropriate insurance principles are followed; the requirements of the Act are met; and that sound, reasonable and appropriate underwriting principals are followed. If the information is incomplete, the submission will be disapproved.

Description of Respondents: Business or other-for-profit.

Number of Respondents: 190.

Frequency of Responses: Recordkeeping; Reporting; Other.

Total Burden Hours: 44,631.

Ruth Brown,

Departmental Information Clearance Officer.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to revise the Annual Survey of State Tax Collections (F-5). This survey is collected as part of the larger State and Local Government Finance Collections, and Public Employment and Payroll Collections. We plan to add the collection of cannabis sales and license taxes, and sports betting sales taxes to the Annual Survey of State Tax Collections. Sports betting will include pari-mutuels, which were previously shown separately. This will modernize the survey's content to maintain the relevancy and sustainability of these data. Additionally, cognitive testing showed the addition and removal of questions did not impact overall response time.

The data are released as part of the State and Local Government Finance and Public Employment & Payroll statistical series. The collections also produce individual data products that focus on state governments, local governments, and public pensions in greater detail than the combined financial and employment series as a by-product of their collections for the combined data series. The Census Bureau provides these data to the Bureau of Economic Analysis to develop the public sector components of the National Income and Product Accounts and for constructing the functional payrolls in the public sector of the Gross Domestic Product, payroll being the single largest component of current operations. The Census Bureau also provides these data to the Federal Reserve Board for use in the Flow of Funds Accounts. Other Federal agencies
