

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the FBI, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether, and if so, how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses).

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a currently approved collection.
2. *The Title of the Form/Collection:* Hate Crime Incident Report.
3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is 1–700. The applicable component within the DOJ is the CJIS Division of the FBI.
4. Affected public who will be asked or required to respond, as well as a brief abstract:
 - Primary: Federal, state, local, and tribal law enforcement agencies (LEAs).
 - Abstract: Under Title 28, United States Code (U.S.C.), Section (§) 534; the Hate Crime Statistics Act, 34 U.S.C., § 41305, modified by the Matthew Shepard and James Byrd, Jr., Hate Crimes Prevention Act (2009), Public Law, § 4708; and the Uniform Federal Crime Reporting Act of 1988, 34 U.S.C.,

§ 41303, this information collection requests hate crime data from LEAs in order for the FBI UCR Program to serve as the national clearinghouse for the collection and dissemination of hate crime data and to publish these statistics annually in *Hate Crime Statistics* and the *National Incident-Based Reporting System*. The hate crime data provide information about the bias motivation, offenses, victims, offenders, and locations of hate crime incidents.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* The estimated number of LEAs submitting monthly data to the FBI UCR Program is 15,588. Annually, those LEAs submit a total of 187,056 responses (15,588 LEAs × 12 months = 187,056 annual responses). The estimated time it takes for an average respondent to respond is seven minutes. Therefore, the estimated annual public burden associated with the Hate Crime Data Collection is 21,823 hours [(187,056 annual responses × 7 minutes per response)/60 minutes per hour = 21,823.2 total annual hours]. Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), the Clean Water Act (CWA), and the Oil Pollution Act (OPA) and Notice of Availability of Draft Restoration Plan/Environmental Assessment of Restoration Project Incorporated Into Proposed Consent Decree

On January 14, 2021, the Department of Justice lodged a proposed Consent Decree with the United States District Court for the Western District of Washington in the lawsuit entitled *United States of America, State of Washington, Suquamish Tribe, and Muckleshoot Indian Tribe v. Vigor Industrial, LLC and Exxon Mobil Corp.*, Civil Action No. 21–44 (W.D. Wash.).

The complaint asserts claims against Vigor Industrial, LLC and Exxon Mobil Corp. (Defendants) for natural resource damages by the United States on behalf of the National Oceanic and Atmospheric Administration and the Department of the Interior; the State of Washington; the Suquamish Tribe; and the Muckleshoot Indian Tribe (collectively, the Natural Resource Trustees) pursuant to the section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. 9607(a); section 311 of the Clean Water Act (CWA), 33 U.S.C. 1321; section 1002(b) of the Oil Pollution Act (OPA), 33 U.S.C. 2702(b); and the Washington Model Toxics Control Act (MTCA), RCW 70.105D.

The proposed Consent Decree resolves claims alleged against the Defendants for natural resource damages caused by releases and discharges of hazardous substances and oil from the Vigor Shipyards facility, currently owned and operated by Vigor Industrial, LLC, and formerly owned and operated by Exxon Mobil Corp., to the Lower Duwamish River in and near Seattle, Washington. The settlement requires Defendants to construct, monitor, and maintain in perpetuity two habitat restoration projects at the Vigor Shipyards facility, creating more than three acres of off-channel habitat for injured natural resources. The settlement also requires Defendants to pay their equitable share of assessment costs incurred by the Natural Resource Trustees, totaling \$815,816.59. The Defendants will receive covenants not to sue under the statutes listed in the complaint and proposed Consent Decree for specified natural resource damages.

The Natural Resource Trustees have developed a Draft Restoration Plan and Environmental Assessment (“RP/EA”) for the Vigor Shipyards habitat restoration projects, the two restoration projects incorporated into the Consent Decree. The Draft RP/EA proposes to select the Vigor Shipyards habitat restoration projects as two of the projects to address injuries to natural resources in the Lower Duwamish River.

The publication of this notice opens a period for public comment on the proposed Consent Decree and the Draft RP/EA. Comments on the proposed Consent Decree should be addressed to the Assistant Attorney General, Environmental and Natural Resources Division, and should refer to *United States of America, State of Washington, Suquamish Tribe, and Muckleshoot Indian Tribe v. DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Modification Under the Comprehensive Environmental Response, Compensation, and Liability Act

On January 16, 2021, the Department of Justice lodged a proposed consent decree modification with the United States District Court for the District of New Jersey in the lawsuit entitled *United States v. The Sherwin-Williams Company*, Civil Action No. 1:19–cv–01907–JHR–KMW, an action brought under the Comprehensive Environmental Response, Compensation, and Liability Act (“CERCLA”), 42 U.S.C. 9601 *et seq.* On April 16, 2019, the Court entered a consent decree in this action which resolved the United States’ claim against The Sherwin-Williams Company (“Sherwin-Williams”) for certain past costs incurred by the United States relating to the Sherwin-Williams/Hilliards Creek Site, Route 561 Dump Site, and United States Avenue Burn Site (the “Sites”). The Sites are located in Gibbsboro and Voorhees, New Jersey.

The consent decree entered in this action also provides for Sherwin-Williams’ performance of the soils and sediments operable unit remedy selected by the U.S. Environmental Protection Agency (“EPA”) for the United States Avenue Burn Site. In addition, the consent decree provides that, after EPA selects a remedy in a Record of Decision (“ROD”) for an additional operable unit at the Sites, the decree may be modified to add Sherwin-Williams’ performance of the additional operable unit remedy to the work required under the decree. On August 4, 2020, EPA issued a ROD selecting the remedy for the soils, sediments, and light non-aqueous phase liquid (“LNAPL”) operable unit at the Sherwin-Williams/Hilliards Creek Site (“SW/HC OU2”). The selected remedy includes contaminated soil and sediment removal, cap installation, and bioremediation work. The SW/HC OU2 ROD is accessible at <https://semspub.epa.gov/work/02/598791.pdf>.

The proposed consent decree modification lodged with the Court on January 16, 2021, provides for Sherwin-Williams’ performance of the remedy selected in the SW/HC OU2 ROD in accordance with the decree and the statement of work attached to the proposed consent decree modification.

The publication of this notice opens a period for public comment on the consent decree modification. Comments should be addressed to the Assistant

Attorney General, Environment and Natural Resources Division, and should refer to *United States v. The Sherwin-Williams Company*, D.J. Ref. No. 90–11–3–09023/2. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:
