SUPPLEMENTARY INFORMATION: The OCC is requesting comment on the following revision to an approved information collection:

Title: Company-Run Annual Stress Test Reporting Template and Documentation for Covered Institutions with Total Consolidated Assets of \$250 Billion or More under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

OMB Control No.: 1557-0319.

Description: Section 165(i)(2) of the Dodd-Frank Wall Street Reform and Consumer Protection Act² (Dodd-Frank Act) requires certain financial companies, including national banks and federal savings associations, to conduct annual stress tests³ and requires the primary financial regulatory agency⁴ of those financial companies to issue regulations implementing the stress test requirements.⁵ Under section 165(i)(2), a covered institution is required to submit to the Board of Governors of the Federal Reserve System (Board) and to its primary financial regulatory agency a report at such time, in such form, and containing such information as the primary financial regulatory agency may require.⁶

On October 9, 2012, the OCC published in the **Federal Register** a final rule implementing the section 165(i)(2) annual stress test requirement.⁷ This rule describes the reports and information collections required to meet the reporting requirements under section 165(i)(2). These information collections will be given confidential treatment (5 U.S.C. 552(b)(4)) to the extent permitted by law.

In 2012, the OCC first implemented the reporting templates referenced in the final rule. See 77 FR 49485 (August 16, 2012) and 77 FR 66663 (November 6, 2012). The OCC uses the data collected to assess the reasonableness of the stress test results of covered institutions and to provide forward-looking information to the OCC regarding a covered institution's capital adequacy. The OCC also may use the

results of the stress tests to determine whether additional analytical techniques and exercises could be appropriate to identify, measure, and monitor risks at the covered institution. The stress test results are expected to support ongoing improvement in a covered institution's stress testing practices with respect to its internal assessments of capital adequacy and overall capital planning.

The OCC recognizes that many covered institutions with total consolidated assets of \$250 billion or more are required to submit reports using Comprehensive Capital Analysis and Review (CCAR) reporting form FR Y-14A.⁸ The OCC also recognizes the Board has proposed and implemented modifications to the FR Y-14A and, to the extent practical, the OCC will keep its reporting requirements consistent with the Board's FR Y-14A in order to minimize burden on covered institutions.⁹ Therefore, the OCC is proposing to revise its reporting requirements to mirror the Board's FR Y-14A for covered institutions with total consolidated assets of \$250 billion or more.

The OCC's proposed changes include updates to various schedules to reflect the adoption of the tailoring framework used to determine the applicability of regulatory capital requirements to large U.S. banking organizations.¹⁰ Other changes include removing the worksheet for reporting advanced approaches risk-weighted assets and the worksheet for reporting pre-provision net revenue (PPNR) metrics, as well as technical changes to various individual data items. The proposed changes to the OCC's reporting templates do not include data items in the FR Y-14A associated with several capital buffers related ratios, such as the Board's stress capital buffer requirement adopted in 2020.¹¹ The proposal would remove the OCC Supplemental Schedule, which collects information not collected by the FR Y-14A.

Type of Review: Revision.

Affected Public: Businesses or other for-profit.

Estimated Number of Respondents: 8.

Estimated Total Annual Burden: 4,212 hours.

The OCC believes that the systems covered institutions use to prepare the FR Y-14 reporting templates to submit to the Board will also be used to prepare the reporting templates described in this

notice. Comments submitted in response to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Comments are invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the burden of the collection of information;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Bao Nguyen,

Principal Deputy Chief Counsel, Office of the Comptroller of the Currency.
