SUPPLEMENTARY INFORMATION:

I. Background

The CPS has been the principal source of official Government statistics on employment and unemployment since 1940 (75 years). Collection of labor force data through the CPS is necessary to meet the requirements in Title 29, United States Code, Sections 1 and 2. The Veterans Supplement provides information on the labor force status of veterans with a service-connected disability, combat veterans, past or present National Guard and Reserve members, and recently discharged veterans. Also, Afghanistan, Iraq, and Vietnam veterans are identified by location of service. Data are provided by period of service and a range of demographic characteristics. The supplement also provides information on veterans' participation in various transition and employment and training programs. The data collected through this supplement will be used by the U.S. Department of Labor's Veterans Employment and Training Service (VETS) and the U.S. Department of Veterans Affairs (VA) to determine policies that better meet the needs of our Nation's veteran population.

In order to make the information for the supplement more relevant, twenty-four questions are proposed for addition starting with the 2021 Veterans Supplement. New questions include items about veterans' transition from Active Duty to civilian employment, details about working with service-connected disabilities, awareness of VA benefits, and work duties while in the Armed forces. In addition, many questions were revised; most of these changes were made to streamline or clarify language or to update questions to use more current terms. Finally, ten

questions are proposed for elimination; these little-used questions include detailed questions about veterans' experiences with Transition Assistance Program workshops, strategies for obtaining employment (networking, etc.), and whether veterans receive a monthly check from the VA for a service-connected disability. The revised questionnaire underwent cognitive testing and expert review.

II. Current Action

Office of Management and Budget clearance is being sought for the Veterans Supplement to the CPS.

A revision of a currently approved collection is needed to continue to provide the Nation with timely information about the labor force status of veterans with a service-connected disability, combat veterans, past or present National Guard and Reserve members, recently discharged veterans, and veterans who have served in Afghanistan, Iraq, or Vietnam. In addition, the Veterans Supplement will provide information to assist VA and VETS to develop programs and policies that smooth veterans' transition into civilian employment, including for veterans with service-connected disabilities.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Name of Information Collection: NASA New Technology Reporting System

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Notice of information collection—Renewal of existing approved collection.

SUMMARY: The National Aeronautics and Space Administration has submitted for OMB review a request regarding this information collection under the provisions of the Paperwork Reduction Act.

DATES: Comments are due by March 30, 2021.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review-Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection

instrument(s) and instructions should be directed to Claire Little, NASA Clearance Officer, claire.a.little@nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

Contractors performing research and development are required by statutes, NASA implementing regulations, and OMB policy to submit reports of inventions, patents, data, and copyrights, including the utilization and disposition of same. The NASA New Technology Summary Report reporting form is being used for this purpose.

II. Methods of Collection

NASA FAR Supplement clauses for patent rights and new technology encourage the contractor to use an electronic form and provide a hyperlink to the electronic New Technology Reporting System (e-NTR) site <http://invention.nasa.gov>. This website has been set up to help NASA employees and parties under NASA funding agreements (*i.e.*, contracts, grants, cooperative agreements, and subcontracts) to report new technology information directly to NASA via a secure internet connection.

III. Data

Title: NASA New Technology Reporting System.
