

Form Number(s): NSCH–S1 (English Screener), NSCH–T1 (English Topical for 0- to 5-year-old children), NSCH–T2 (English Topical for 6- to 11-year-old children), NSCH–T3 (English Topical for 12- to 17-year-old children), NSCH–S–S1 (Spanish Screener), NSCH–S–T1 (Spanish Topical for 0- to 5-year-old children), NSCH–S–T2 (Spanish Topical for 6- to 11-year-old children), and NSCH–S–T3 (Spanish Topical for 12- to 17-year-old children).

Type of Request: Regular submission, Request for a Revision of a Currently Approved Collection.

Number of Respondents: 64,160 for the screener only and 50,658 for the combined screener and topical, for a total of 114,818 respondents.

Average Hours per Response: 5 minutes per screener response and 35–36 minutes per topical response, which in total is approximately 40–41 minutes for households with eligible children.

Burden Hours: 39,400.

Needs and Uses: The National Survey of Children's Health (NSCH) enables the Maternal and Child Health Bureau (MCHB) of the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) along with supplemental sponsoring agencies, states, and other data users to produce national and state-based estimates on the health and well-being of children, their families, and their communities as well as estimates of the prevalence and impact of children with special health care needs.

Data will be collected using one of two modes. The first mode is a web instrument (Centurion) survey that contains the screener and topical instruments. The web instrument first will take the respondent through the screener questions. If the household screens into the study, the respondent will be taken directly into one of the three age-based topical sets of questions. The second mode is a mailout/mailback of a self-administered paper-and-pencil interviewing (PAPI) screener instrument followed by a separate mailout/mailback of a PAPI age-based topical instrument.

The National Survey of Children's Health (NSCH) is a large-scale (sample size is up to 300,000 addresses) national survey with up to 186,000 addresses included in the base production survey and approximately 114,000 addresses included as part of eight separate age-based, state-based, or region-based oversamples. The 2021 NSCH will include a topical incentive test. Prior cycles of the survey have included a \$5 unconditional cash incentive with the initial mailing of the paper topical questionnaire. The incentive has proven to be a cost-effective intervention for

increasing survey response and reducing nonresponse bias. The 2021 NSCH will test a \$10 cash incentive, with a focus on lower responding households.

As in prior cycles of the NSCH, there remain two key, non-experimental design elements. The first additional non-experimental design element is a \$5 screener cash incentive mailed to 90% of sampled addresses; the remaining 10% (the control) will receive no incentive to monitor the effectiveness of the cash incentive. This incentive is designed to increase response and reduce nonresponse bias. The incentive amount was chosen based on the results of the 2020 NSCH as well as funding availability. The second additional non-experimental design element is a data collection procedure based on the block group-level paper-only response probability used to identify households (30% of the sample) that would be more likely to respond by paper and send them a paper questionnaire in either the initial mailing or first nonresponse follow-up.

Affected Public: Individuals or households.

Frequency: The 2021 collection is the sixth administration of the NSCH. It is an annual survey, with a new sample drawn for each administration.

Respondent's Obligation: Voluntary.

Foreign-Trade Zones Board

[B-05-2021]

Foreign-Trade Zone (FTZ) 265— Conroe, Texas; Notification of Proposed Production Activity; Bauer Manufacturing LLC, d/b/a NEORig (Water Well Drilling Rigs), Conroe, Texas

The City of Conroe, grantee of FTZ 265, submitted a notification of proposed production activity to the FTZ Board on behalf of Bauer Manufacturing LLC, d/b/a/NEORig (Bauer), located in Conroe, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR

400.22) was received on February 1, 2021.

Bauer already has authority to produce pile drivers and leads, boring machinery, foundation construction equipment, stationary oil/gas drilling rigs, and related parts and assemblies within FTZ 265. The current request would add two finished products to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Bauer from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components in the existing scope of authority, Bauer would be able to choose the duty rates during customs entry procedures that apply to water well drilling rigs, and self-propelled water well drilling rigs (duty-free). Bauer would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is March 22, 2021.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.

For further information, contact Juanita Chen at juanita.chen@trade.gov or 202-482-1378.

Dated: February 2, 2021.

Foreign-Trade Zones Board

[S-217-2020]

Approval of Subzone Expansion; Abbott Laboratories, Itasca, Illinois

On December 8, 2020, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the Illinois International Port District, grantee of FTZ 22, requesting an expansion of Subzone 22F

subject to the existing activation limit of FTZ 22, on behalf of Abbott Laboratories, in Itasca, Illinois.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the **Federal Register** inviting public comment (85 FR 80770-80771, December 14, 2020). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval. Pursuant to the authority delegated to the FTZ Board Executive Secretary (15 CFR Sec. 400.36(f)), the application to expand Subzone 22F was approved on February 1, 2021, subject to the FTZ Act and the Board's regulations, including Section 400.13, and further subject to FTZ 22's 2,000-acre activation limit.

Dated: February 1, 2021.
