### Foreign-Trade Zones Board

[B-05-2021]

#### Foreign-Trade Zone (FTZ) 265— Conroe, Texas; Notification of Proposed Production Activity; Bauer Manufacturing LLC, d/b/a NEORig (Water Well Drilling Rigs), Conroe, Texas

The City of Conroe, grantee of FTZ 265, submitted a notification of proposed production activity to the FTZ Board on behalf of Bauer Manufacturing LLC, d/b/a/NEORig (Bauer), located in Conroe, Texas. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR

400.22) was received on February 1, 2021.

Bauer already has authority to produce pile drivers and leads, boring machinery, foundation construction equipment, stationary oil/gas drilling rigs, and related parts and assemblies within FTZ 265. The current request would add two finished products to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Bauer from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components in the existing scope of authority, Bauer would be able to choose the duty rates during customs entry procedures that apply to water well drilling rigs, and self-propelled water well drilling rigs (duty-free). Bauer would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: [ftz@trade.gov](mailto:ftz@trade.gov). The closing period for their receipt is March 22, 2021.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via [www.trade.gov/ftz](http://www.trade.gov/ftz).

#### Approval of Subzone Expansion; Abbott Laboratories, Itasca, Illinois

On December 8, 2020, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the Illinois International Port District, grantee of FTZ 22, requesting an expansion of Subzone 22F

subject to the existing activation limit of FTZ 22, on behalf of Abbott Laboratories, in Itasca, Illinois.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the **Federal Register** inviting public comment (85 FR 80770-80771, December 14, 2020). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval. Pursuant to the authority delegated to the FTZ Board Executive Secretary (15 CFR Sec. 400.36(f)), the application to expand Subzone 22F was approved on February 1, 2021, subject to the FTZ Act and the Board's regulations, including Section 400.13, and further subject to FTZ 22's 2,000-acre activation limit.

#### Pentafluoroethane (R-125) From the People's Republic of China: Initiation of Less-Than-Fair-Value Investigation

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**DATES:** Applicable February 1, 2021.

**FOR FURTHER INFORMATION CONTACT:** Benjamin A. Luberda or Alex Wood, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-2185 or (202) 482-1959, respectively.

#### **SUPPLEMENTARY INFORMATION:**

##### **The Petition**

On January 12, 2021, the U.S. Department of Commerce (Commerce) received an antidumping duty (AD) petition concerning imports of pentafluoroethane (R-125) from the People's Republic of China (China) filed in proper form on behalf of Honeywell International, Inc. (the petitioner), the sole domestic producer of R-125.<sup>1</sup> The Petition was accompanied by a countervailing duty (CVD) petition

<sup>1</sup> See Petitioner's Letter, "Petitions for the Imposition of Antidumping and Countervailing Duties: R-125 (Pentafluoroethane) from the People's Republic of China," dated January 12, 2021 (the Petition) at Volume I and Exhibit I-1.

concerning imports of R-125 from China.<sup>2</sup>

On January 14, 22, and 27, 2021, Commerce requested supplemental information pertaining to certain aspects of the Petition in separate supplemental questionnaires and a phone call with the petitioner.<sup>3</sup> On January 19, 25, and 28, 2021, the petitioner filed timely responses to these requests for additional information.<sup>4</sup>

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioner alleges that imports of R-125 from China are being, or are likely to be, sold in the United States at less than fair value (LTFV) within the meaning of section 731 of the Act and that imports of such products are materially injuring, or threatening material injury to, the domestic R-125 industry in the United States. Consistent with section 732(b)(1) of the Act, the Petition is accompanied by information reasonably available to the petitioner supporting the allegation.

Commerce finds that the petitioner filed the Petition on behalf of the domestic industry because the petitioner is an interested party, as defined in section 771(9)(C) of the Act. Commerce also finds that the petitioner demonstrated sufficient industry support for the initiation of the requested AD investigation.<sup>5</sup>

### Period of Investigation

Because China is a non-market economy (NME) country, pursuant to 19 CFR 351.204(b)(1), the period of investigation (POI) is July 1, 2020, through December 31, 2020.

### Scope of the Investigation

The product covered by this investigation is R-125 from China. For a full description of the scope of this investigation, see the appendix to this notice.

### Comments on the Scope of the Investigation

On January 14, 22, and 27, 2021, Commerce requested further information from the petitioner regarding the proposed scope to ensure that the scope language in the Petition is an accurate reflection of the products for which the domestic industry is seeking relief.<sup>6</sup> On January 19 and 28, 2021, the petitioner revised the scope.<sup>7</sup> The description of the merchandise covered by this investigation, as described in the appendix to this notice, reflects these clarifications.

As discussed in the *Preamble* to Commerce's regulations, we are setting aside a period for interested parties to raise issues regarding product coverage (*i.e.*, scope).<sup>8</sup> Commerce will consider all comments received from interested parties and, if necessary, will consult with interested parties prior to the issuance of the preliminary determinations. If scope comments include factual information, all such factual information should be limited to public information.<sup>9</sup> To facilitate preparation of its questionnaires, Commerce requests that all interested parties submit such comments by 5:00 p.m. Eastern Time (ET) on February 22, 2021, which is the next business day after 20 calendar days from the signature date of this notice.<sup>10</sup> Any rebuttal comments, which may include factual information, must be filed by

<sup>10</sup> Commerce's practice dictates that where a deadline falls on a weekend or Federal holiday (in this instance, February 21, 2021), the appropriate deadline is the next business day. See *Notice of Clarification: Application of "Next Business Day" Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended*, 70 FR 24533 (May 10, 2005) (*Next Business Day Rule*).

5:00 p.m. ET on March 4, 2021, which is 10 calendar days from the initial comment deadline.<sup>11</sup>

Commerce requests that any factual information parties consider relevant to the scope of the investigation be submitted during this period. However, if a party subsequently finds that additional factual information pertaining to the scope of the investigation may be relevant, the party may contact Commerce and request permission to submit the additional information. All scope submissions must be filed on the records of the concurrent AD and CVD investigations.

### Filing Requirements

All submissions to Commerce must be filed electronically via Enforcement and Compliance's (E&C's) Antidumping Duty and Countervailing Duty Centralized Electronic Service System (ACCESS), unless an exception applies.<sup>12</sup> An electronically filed document must be received successfully in its entirety by the time and date it is due.

### Comments on Product Characteristics

Commerce is providing interested parties an opportunity to comment on the appropriate physical characteristics of R-125 to be reported in response to Commerce's AD questionnaires. This information will be used to identify the key physical characteristics of the subject merchandise in order to report the relevant factors of production (FOPs) accurately, as well as to develop appropriate product-comparison criteria.

Interested parties may provide any information or comments that they feel are relevant to the development of an accurate list of physical characteristics. In order to consider the suggestions of interested parties in developing and issuing the AD questionnaires, all product characteristics comments must be filed by 5:00 p.m. ET on February 22, 2021, which is the next business day after 20 calendar days from the signature date of this notice.<sup>13</sup> Any

rebuttal comments, which may include factual information, must be filed by 5:00 p.m. ET on March 4, 2021, which is ten calendar days after the initial comment deadline. All comments and submissions to Commerce must be filed electronically using ACCESS, as explained above, on the record of the AD investigation.

#### Determination of Industry Support for the Petition

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (i) At least 25 percent of the total production of the domestic like product; and (ii) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Moreover, section 732(c)(4)(D) of the Act provides that, if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, Commerce shall: (i) Poll the industry or rely on other information in order to determine if there is support for the petition, as required by subparagraph (A); or (ii) determine industry support using a statistically valid sampling method to poll the “industry.”

Section 771(4)(A) of the Act defines the “industry” as the producers as a whole of a domestic like product. Thus, to determine whether a petition has the requisite industry support, the statute directs Commerce to look to producers and workers who produce the domestic like product. The International Trade Commission (ITC), which is responsible for determining whether “the domestic industry” has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both Commerce and the ITC must apply the same statutory definition regarding the domestic like product,<sup>14</sup> they do so for different purposes and pursuant to a separate and distinct authority. In addition, Commerce’s determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not render the decision of either agency contrary to law.<sup>15</sup>

2021), the appropriate deadline is the next business day. See *Next Business Day Rule*, 70 FR at 24533.

<sup>14</sup> See section 771(10) of the Act.

<sup>15</sup> See *USEC, Inc. v. United States*, 132 F. Supp. 2d 1, 8 (CIT 2001) (citing *Algoma Steel Corp. v.*

Section 771(10) of the Act defines the domestic like product as “a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title.” Thus, the reference point from which the domestic like product analysis begins is “the article subject to an investigation” (*i.e.*, the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition).

With regard to the domestic like product, the petitioner does not offer a definition of the domestic like product distinct from the scope of the investigation.<sup>16</sup> Based on our analysis of the information submitted on the record, we have determined that R–125, as defined in the scope, constitutes a single domestic like product, and we have analyzed industry support in terms of that domestic like product.<sup>17</sup>

In determining whether the petitioner has standing under section 732(c)(4)(A) of the Act, we considered the industry support data contained in the Petition with reference to the domestic like product as defined in the “Scope of the Investigation,” in the appendix to this notice. To establish industry support, the petitioner provided its own production of the domestic like product in 2020.<sup>18</sup> The petitioner states that there are no other known U.S. producers of R–125; therefore, the Petition is supported by 100 percent of the U.S. industry.<sup>19</sup> We relied on data provided by the petitioner for purposes of measuring industry support.<sup>20</sup>

Our review of the data provided in the Petition, the Petitioner’s First Supplemental Questionnaire Response, and other information readily available to Commerce indicates that the

petitioner has established industry support for the Petition. First, the Petition established support from domestic producers (or workers) accounting for more than 50 percent of the total production of the domestic like product, and, as such, Commerce is not required to take further action in order to evaluate industry support (*e.g.*, polling).<sup>21</sup> Second, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(i) of the Act because the domestic producers (or workers) who support the Petition account for at least 25 percent of the total production of the domestic like product.<sup>22</sup> Finally, the domestic producers (or workers) have met the statutory criteria for industry support under section 732(c)(4)(A)(ii) of the Act because the domestic producers (or workers) who support the Petition account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the Petition.<sup>23</sup> Accordingly, Commerce determines that the Petition was filed on behalf of the domestic industry within the meaning of section 732(b)(1) of the Act.<sup>24</sup>

#### Allegations and Evidence of Material Injury and Causation

The petitioner alleges that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the imports of the subject merchandise sold at LTFV. In addition, the petitioner alleges that subject imports exceed the negligibility threshold provided for under section 771(24)(A) of the Act.<sup>25</sup>

The petitioner contends that the industry’s injured condition is illustrated by a significant and increasing volume of subject imports; reduced market share; underselling and price depression and suppression; lost sales and revenues; decline in employment variables; declining profitability; adverse impact on capital expenditures and capacity utilization; and the magnitude of the alleged dumping margins.<sup>26</sup> We assessed the allegations and supporting evidence regarding material injury, threat of

material injury, causation, as well as negligibility, and we have determined that these allegations are properly supported by adequate evidence, and meet the statutory requirements for initiation.<sup>27</sup>

#### Allegations of Sales at LTFV

The following is a description of the allegations of sales at LTFV upon which Commerce based its decision to initiate the AD investigation of imports of R-125 from China. The sources of data for the deductions and adjustments relating to U.S. price and normal value (NV) are discussed in greater detail in the AD Initiation Checklist.

#### U.S. Price

The petitioner based export price (EP) on two methodologies: (1) Information from a sale of R-125 produced in and exported from China by a Chinese producer; and (2) transaction-specific average unit values (AUVs) derived from publicly-available import data and tied to ship manifest data obtained from ImportGenius and Datamyne.<sup>28</sup> The petitioner made adjustment for movement and other expenses, where appropriate.<sup>29</sup>

#### Normal Value

Commerce considers China to be an NME country.<sup>30</sup> In accordance with section 771(18)(C)(i) of the Act, any determination that a foreign country is an NME country shall remain in effect until revoked by Commerce. Therefore, we continue to treat China as an NME country for purposes of the initiation of this investigation. Accordingly, NV in China is appropriately based on FOPs valued in a surrogate market economy country, in accordance with section 773(c) of the Act.

The petitioner states that the Russian Federation (Russia) is an appropriate surrogate country because Russia is a market economy country that is at a level of economic development comparable to that of China and is a

<sup>30</sup> See, e.g., *Antidumping Duty Investigation of Certain Aluminum Foil from the People's Republic of China: Affirmative Preliminary Determination of Sales at Less-Than-Fair Value and Postponement of Final Determination*, 82 FR 50858, 50861 (November 2, 2017), and accompanying Preliminary Decision Memorandum at "China's Status as a Non-Market Economy," unchanged in *Certain Aluminum Foil from the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 83 FR 9282 (March 5, 2018).

significant producer of comparable merchandise.<sup>31</sup> The petitioner submitted publicly-available information from Russia to value all FOPs.<sup>32</sup> Based on the information provided by the petitioner, we determine that it is appropriate to use Russia as a surrogate country for China for initiation purposes.

Interested parties will have the opportunity to submit comments regarding surrogate country selections and, pursuant to 19 CFR 351.301(c)(3)(i), will be provided an opportunity to submit publicly available information to value FOPs within 30 days before the scheduled date of the preliminary determination.

#### Factors of Production

The petitioner used its own product-specific consumption rates as a surrogate to value Chinese manufacturers' FOPs.<sup>33</sup> Additionally, the petitioner calculated factory overhead; selling, general and administrative expenses; and profit based on the experience of a Russian producer of R-125.<sup>34</sup>

#### Fair Value Comparisons

Based on the data provided by the petitioner, there is reason to believe that imports of R-125 from China are being, or are likely to be, sold in the United States at LTFV. Based on a comparison of EP to NV, in accordance with sections 772 and 773 of the Act, the estimated dumping margins for R-125 from China range from 149.09 percent to 238.83 percent.<sup>35</sup>

#### Initiation of LTFV Investigation

Based upon our examination of the Petition on R-125 from China and supplemental responses, we find that the Petition meets the requirements of section 732 of the Act. Therefore, we are initiating an AD investigation to determine whether imports of R-125 from China are being, or are likely to be, sold in the United States at LTFV. In accordance with section 733(b)(1)(A) of the Act and 19 CFR 351.205(b)(1), unless postponed, we will make our preliminary determination no later than 140 days after the date of this initiation.

<sup>31</sup> See Volume II of the Petition at 3 and Exhibits II-1, II-2.

<sup>32</sup> See Petitioner's First Supplemental Questionnaire Response at Exhibit Supp-II-11; see also Petitioner's Second Supplemental Questionnaire Response at Exhibit SS-II-11.

<sup>34</sup> See Volume II of the Petition at 3 and Exhibits II-3 and II-12.

<sup>35</sup> See Petitioner's Second Supplemental Questionnaire Response at Exhibit SS-II-19.

#### Respondent Selection

In the Petition, the petitioner named 11 companies in China as producers and/or exporters of R-125.<sup>36</sup>

In accordance with our standard practice for respondent selection in AD investigations involving NME countries, Commerce selects respondents based on quantity and value (Q&V) questionnaires in cases where it has determined that the number of companies is large and it cannot individually examine each company based upon its resources. Therefore, considering the number of producers and exporters identified in the Petition, Commerce will solicit Q&V information that can serve as a basis for selecting exporters for individual examination in the event that Commerce decides to limit the number of respondents individually examined pursuant to section 777A(c)(2) of the Act. Because there are 11 producers and/or exporters identified in the Petition, Commerce has determined that it will issue Q&V questionnaires to each potential respondent for which the petitioner has provided a complete address.

In addition, Commerce will post the Q&V questionnaire along with filing instructions on E&C's website at <https://enforcement.trade.gov/questionnaires/questionnaires-ad.html>. Producers/exporters of R-125 from China that do not receive Q&V questionnaires may still submit a response to the Q&V questionnaire and can obtain a copy of the Q&V questionnaire from E&C's website. In accordance with the standard practice for respondent selection in AD cases involving NME countries, in the event Commerce decides to limit the number of respondents individually investigated, Commerce intends to base respondent selection on the responses to the Q&V questionnaire that it receives.

Responses to the Q&V questionnaire must be submitted by the relevant Chinese producers/exporters no later than 5:00 p.m. ET on February 17, 2021. All Q&V questionnaire responses must be filed electronically via ACCESS. An electronically filed document must be received successfully, in its entirety, by ACCESS no later than 5:00 p.m. ET on the deadline noted above.

Interested parties must submit applications for disclosure under Administrative Protective Order (APO) in accordance with 19 CFR 351.305(b). Instructions for filing such applications may be found on E&C's website at <http://enforcement.trade.gov/apo>. Commerce intends to finalize its

<sup>36</sup> See Volume I of the Petition at 9 and Exhibit I-11.

decisions regarding respondent selection within 20 days of publication of this notice.

### Separate Rates

In order to obtain separate-rate status in an NME investigation, exporters and producers must submit a separate-rate application.<sup>37</sup> The specific requirements for submitting a separate-rate application in a China investigation are outlined in detail in the application itself, which is available on E&C's website at <http://enforcement.trade.gov/nme/nme-sep-rate.html>. The separate-rate application will be due 30 days after publication of this initiation notice.<sup>38</sup> Producers/exporters who submit a separate-rate application and have been selected as mandatory respondents will be eligible for consideration for separate-rate status only if they respond to all parts of Commerce's AD questionnaire as mandatory respondents. Commerce requires that respondents from China submit a response to both the Q&V questionnaire and the separate-rate application by the respective deadlines in order to receive consideration for separate-rate status. Companies not filing a timely Q&V questionnaire response will not receive separate rate consideration.

### Use of Combination Rates

Commerce will calculate combination rates for certain respondents that are eligible for a separate rate in an NME investigation. The Separate Rates and Combination Rates Bulletin states:

{w}hile continuing the practice of assigning separate rates only to exporters, all separate rates that the {Commerce} will now assign in its NME Investigation will be specific to those producers that supplied the exporter during the period of investigation. Note, however, that one rate is calculated for the exporter and all of the producers which supplied subject merchandise to it during the period of investigation. This practice applies both to mandatory respondents receiving an individually calculated separate rate as well as the pool of non-investigated firms receiving the weighted-average of the individually calculated rates. This practice is referred to as the application of "combination rates" because such rates apply to specific combinations of exporters and one or more producers. The cash-deposit rate assigned to

<sup>38</sup> Although in past investigations this deadline was 60 days, consistent with 19 CFR 351.301(a), which states that "the Secretary may request any person to submit factual information at any time during a proceeding," this deadline is now 30 days.

an exporter will apply only to merchandise both exported by the firm in question *and* produced by a firm that supplied the exporter during the period of investigation.<sup>39</sup>

### Distribution of Copies of the AD Petition

In accordance with section 732(b)(3)(A) of the Act and 19 CFR 351.202(f), a copy of the public version of the Petition has been provided to the Government of China via ACCESS. Furthermore, to the extent practicable, Commerce will attempt to provide a copy of the public version of the Petition to each exporter named in the Petition, as provided under 19 CFR 351.203(c)(2).

### ITC Notification

Commerce will notify the ITC of our initiation, as required by section 732(d) of the Act.

### Preliminary Determination by the ITC

The ITC will preliminarily determine, within 45 days after the date on which the Petition was filed, whether there is a reasonable indication that imports of R-125 from China are materially injuring, or threatening material injury to, a U.S. industry.<sup>40</sup> A negative ITC determination will result in the investigation being terminated.<sup>41</sup> Otherwise, the investigation will proceed according to statutory and regulatory time limits.

### Submission of Factual Information

Factual information is defined in 19 CFR 351.102(b)(21) as: (i) Evidence submitted in response to questionnaires; (ii) evidence submitted in support of allegations; (iii) publicly available information to value factors under 19 CFR 351.408(c) or to measure the adequacy of remuneration under 19 CFR 351.511(a)(2); (iv) evidence placed on the record by Commerce; and (v) evidence other than factual information described in (i)–(iv). Section 351.301(b) of Commerce's regulations requires any party, when submitting factual information, to specify under which subsection of 19 CFR 351.102(b)(21) the information is being submitted<sup>42</sup> and, if the information is submitted to rebut, clarify, or correct factual information already on the record, to provide an explanation identifying the information already on the record that the factual information seeks to rebut, clarify, or correct.<sup>43</sup> Time limits for the submission of factual information are

addressed in 19 CFR 351.301, which provides specific time limits based on the type of factual information being submitted. Interested parties should review the regulations prior to submitting factual information in this investigation.

### Extensions of Time Limits

Parties may request an extension of time limits before the expiration of a time limit established under 19 CFR 351.301 or as otherwise specified by Commerce. In general, an extension request will be considered untimely if it is filed after the expiration of the time limit established under 19 CFR 351.301. For submissions that are due from multiple parties simultaneously, an extension request will be considered untimely if it is filed after 10:00 a.m. ET on the due date. Under certain circumstances, we may elect to specify a different time limit by which extension requests will be considered untimely for submissions which are due from multiple parties simultaneously. In such a case, Commerce will inform parties in a letter or memorandum of the deadline (including a specified time) by which extension requests must be filed to be considered timely. An extension request must be made in a separate, stand-alone submission; under limited circumstances we will grant untimely-filed requests for the extension of time limits. Parties should review *Extension of Time Limits; Final Rule*, 78 FR 57790 (September 20, 2013), available at <http://www.gpo.gov/fdsys/pkg/FR-2013-09-20/html/2013-22853.htm>, prior to submitting factual information in this investigation.

### Certification Requirements

Any party submitting factual information in an AD or CVD proceeding must certify to the accuracy and completeness of that information.<sup>44</sup> Parties must use the certification formats provided in 19 CFR 351.303(g).<sup>45</sup> Commerce intends to reject factual submissions if the submitting party does not comply with the applicable certification requirements.

### Notification to Interested Parties

### Scope of the Investigation

The merchandise covered by this investigation is pentafluoroethane (R-125), or its chemical equivalent, regardless of form, type or purity level. R-125 has the Chemical Abstracts Service (CAS) registry number of 354-33-6 and the chemical formula C<sub>2</sub>HF<sub>5</sub>. R-125 is also referred to as Pentafluoroethane, Genetron HFC 125, Khladon 125, Suva 125, Freon 125, and Fc-125. Subject merchandise includes R-125, whether or not incorporated into a blend. When R-125 is blended with other products, only the R-125 component of the mixture is covered by the scope of this investigation. Subject merchandise also includes R-125 and unpurified R-125 that is processed in a third country or otherwise outside the customs territory of the United States, including, but not limited to, purifying, blending, or any other processing that would not otherwise remove the merchandise from the scope of this investigation if performed in the country of manufacture of the in-scope R-125. The scope also includes R-125 that is commingled with R-125 from sources not subject to this investigation. Only the subject component of such commingled products is covered by the scope of this investigation.

Excluded from the current scope is merchandise covered by the scope of the antidumping order on *Hydrofluorocarbon Blends from the People's Republic of China*. See *Hydrofluorocarbon Blends from the People's Republic of China: Antidumping Duty Order*, 81 FR 55436 (August 19, 2016) (the Blends Order).

R-125 is classified under Harmonized Tariff Schedule of the United States (HTSUS) subheading 2903.39.2035. Merchandise subject to the scope may also be entered under HTSUS subheadings 2903.39.2045 and 3824.78.0020. The HTSUS subheadings and CAS registry number are provided for convenience and customs purposes. The

#### Seamless Refined Copper Pipe and Tube From the Socialist Republic of Vietnam: Postponement of Final Determination of Less-Than-Fair-Value Investigation

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (Commerce) is postponing the deadline for issuing the final determination in the less-than-fair-value (LTFV) investigation of imports of seamless refined copper pipe and tube (copper pipe and tube) from the Socialist Republic of Vietnam (Vietnam) until June 16, 2021, and is extending the provisional measures from a four-month period to a period of not more than six months.

**DATES:** Applicable February 8, 2021.

**FOR FURTHER INFORMATION CONTACT:** Ariela Garvett, AD/CVD Operations, Office IV, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3609.

#### SUPPLEMENTARY INFORMATION:

##### Background

On July 20, 2020, Commerce initiated the LTFV investigation of imports of copper pipe and tube from Vietnam.<sup>1</sup> The period of investigation is October 1, 2019, through March 31, 2020. On February 1, 2021, Commerce published its *Preliminary Determination* in this LTFV investigation.<sup>2</sup>

##### Postponement of the Final Determination

Section 735(a)(2) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(b)(2) provide that a final determination may be postponed until not later than 135 days after the date of the publication of the preliminary

determination if, in the event of an affirmative preliminary determination, a request for such postponement is made by the exporters or producers who account for a significant portion of exports of the subject merchandise, or in the event of a negative preliminary determination, a request for such postponement is made by the petitioner. Further, 19 CFR 351.210(e)(2) requires that such postponement requests by exporters be accompanied by a request for extension of provisional measures from a four-month period to a period of not more than six months, in accordance with section 733(d) of the Act.

On January 28, 2021, Hailiang (Vietnam) Copper Manufacturing Company Limited/Hongkong Hailiang Metal Trading Limited (also known as Hong Kong Hailiang Metal Trading Limited) (Hailiang Vietnam/Hongkong Hailiang), the sole mandatory respondent in this investigation, requested that Commerce postpone the deadline for the final determination until no later than 135 days from the publication of the *Preliminary Determination* and extend the application of the provisional measures from a four-month period to a period of not more than six months.<sup>3</sup> Additionally, on January 28, 2021, the American Copper Tube Coalition and its constituent members<sup>4</sup> (the petitioners) requested that Commerce postpone the deadline for the final determination.<sup>5</sup> In accordance with section 735(a)(2)(A) of the Act and 19 CFR 351.210(b)(2)(ii), because: (1) The preliminary determination was affirmative; (2) the request was made by the exporter and producer who accounts for a significant proportion of exports of the subject merchandise; and (3) no compelling reasons for denial exist, Commerce is postponing the final determination until no later than 135 days after the date of the publication of the *Preliminary Determination* and extending the provisional measures from a four-month period to a period of not more than six months. Accordingly, Commerce will
