**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The data collected in the Manufacturers' Unfilled Orders (M3UFO) Survey will be used to benchmark the new and unfilled orders information published in the monthly Manufacturers' Shipments, Inventories, and Orders (M3) Survey. The M3 Survey collects monthly data on the value of shipments, inventories, and new and unfilled orders from manufacturing companies. The orders, as well as the shipments and inventory data, are valuable tools for analysts of business cycle conditions. The data are used by the Bureau of Economic Analysis, the Council of Economic Advisers, the Federal Reserve Board, the Conference Board, as well as businesses, trade associations, and the media.

The monthly M3 Survey estimates are based on a panel of approximately 5,000 reporting units that represent approximately 3,100 companies and provide an indication of month-to-month change for the Manufacturing Sector. These reporting units may be divisions of diversified large companies, large homogenous companies, or single-unit manufacturers. The M3 estimates are periodically benchmarked to comprehensive data on the manufacturing sector from the Annual Survey of Manufacturers (ASM), the Economic Census (shipments and inventories) and the M3UFO Survey, which is the subject of this notice. To obtain more accurate M3 estimates of unfilled orders, which are also used in deriving M3 estimates of new orders, we conduct the M3UFO Survey annually to be used as the source for benchmarking M3 unfilled orders data.

Additionally, the M3UFO data are used to determine which North American Industry Classification System (NAICS) industries continue to maintain unfilled orders; this is done in order to minimize burden on businesses by only requesting unfilled orders as part of the monthly M3 Survey for industries that still maintain unfilled orders.

Unfilled orders data are not currently collected in the ASM or the Economic

Census. Research is currently being conducted on the feasibility of adding M3UFO questions to the ASM for Survey Year 2021 at the establishment levels. A combination of phone and in-person cognitive interviews with up to 40 respondents, over two rounds will begin in October 2020 and will likely conclude by March 2021.

There are no changes to the MA-3000 form, which is used to conduct the M3UFO survey.

**II. Method of Collection**

The Census Bureau will collect information by internet and telephone follow-up. All respondents receive an initial letter with their authentication code for registration and submission by internet. Companies are asked to respond to the survey within 30 days of receipt. Letters encouraging participation are mailed to companies that have not responded by the designated time. Telephone follow-up and email reminders are conducted to obtain response from delinquent companies.

#### Certain Aluminum Foil From the Republic of Armenia, Brazil, the Sultanate of Oman, the Russian Federation, and the Republic of Turkey: Postponement of Preliminary Determinations in the Less-Than-Fair- Value Investigations

**AGENCY:** Enforcement and Compliance, International Trade Administration, Department of Commerce.

**DATES:** Applicable February 17, 2021.

#### SUPPLEMENTARY INFORMATION:

##### Background

On October 19, 2020, the Department of Commerce (Commerce) initiated less-than-fair-value (LTFV) investigations of imports of certain aluminum foil from Armenia, Brazil, Oman, Russia, and Turkey.<sup>1</sup> Currently, the preliminary determinations are due no later than March 8, 2021.

##### Postponement of Preliminary Determinations

Section 733(b)(1)(A) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in an LTFV investigation within 140 days of the date on which Commerce initiated the investigation. However, section 733(c)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 190 days after the date on which Commerce initiated the investigation if: (A) the petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily

complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On February 4, 2021, the Aluminum Association Trade Enforcement Working Group<sup>2</sup> (the petitioners) submitted a timely request that Commerce postpone the preliminary determinations in these LTFV investigations.<sup>3</sup> The petitioners stated that they request postponement due to concerns that Commerce will need more time to issue supplemental questionnaires to address deficiencies in the respondents' initial questionnaire responses. Under the current timeline, the petitioners believe that Commerce will not have complete responses and sufficient information to issue these preliminary determinations.<sup>4</sup>

For the reasons stated above, and because there are no compelling reasons to deny the request, Commerce, in accordance with section 733(c)(1)(A) of the Act and 19 CFR 351.205(e), is postponing the deadline for these preliminary determinations by 50 days (*i.e.*, 190 days after the date on which these investigations were initiated). As a result, Commerce will issue its preliminary determinations no later than April 27, 2021. In accordance with section 735(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determinations in these investigations will continue to be 75 days after the date of the preliminary determinations, unless postponed at a later date.
