

deployment system (LRDS) installed per Supplemental Type Certificate (STC) SR09211RC. The NPRM was prompted by an incident that occurred where the handle bent prior to the life raft deploying, and this prohibited the crew from successfully deploying and using the life raft. It was determined that the handle in this incident was not manufactured to the approved Type Design. The NPRM would have required removing and replacing the pilot or co-pilot life raft deployment handle (handle) located on the left side of the “broom closet” of the helicopter. Since issuance of the NPRM, the FAA determined that, based on a review of the design approval holder’s records, all of the handles have been replaced. Accordingly, the NPRM is withdrawn.

DATES: The FAA is withdrawing the proposed rule published March 1, 2011 (76 FR 11174), as of February 22, 2021.

ADDRESSES:

Examining the AD Docket

You may examine the AD docket on the internet at <https://www.regulations.gov> by searching for and locating Docket No. FAA–2011–0099; or in person at Docket Operations between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this AD action, any comments received, and other information. The street address for Docket Operations is U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590.

FOR FURTHER INFORMATION CONTACT: Jonas Perez, Aviation Safety Engineer, Fort Worth ACO Branch, FAA, 10101 Hillwood Pkwy., Fort Worth, TX 76177; telephone 817–222–5145; email Jonas.Perez@faa.gov.

SUPPLEMENTARY INFORMATION:

Discussion

The FAA has issued an NPRM that proposed to amend 14 CFR part 39 by adding an AD that would apply to the specified products. The NPRM was published in the **Federal Register** on March 1, 2011 (76 FR 11174). The NPRM was prompted by an incident that occurred where the handle bent prior to the life raft deploying, and this prohibited the crew from successfully deploying and using the life raft. It was determined that the handle in this incident was not manufactured to the approved Type Design.

The NPRM proposed to require removing and replacing the pilot or co-pilot handle located on the left side of the “broom closet” of the helicopter.

The proposed actions were intended to address bending of the handle, which could result in failure of the life raft to deploy. This failure could lead to loss of access to the life raft after an emergency ditching on water.

Actions Since the NPRM Was Issued

Since issuance of the NPRM, the FAA determined that, based on a review of the design approval holder’s records, all of the handles have been replaced, which addresses the identified unsafe condition. Therefore, the FAA determined that AD action is not appropriate.

Withdrawal of the NPRM constitutes only such action and does not preclude the FAA from further rulemaking on this issue, nor does it commit the FAA to any course of action in the future.

Comments

The FAA gave the public the opportunity to comment on the NPRM. The FAA received no comments on the NPRM or on the determination of the cost to the public.

FAA’s Conclusions

Upon further consideration, the FAA determined that the NPRM is unnecessary. Accordingly, the NPRM is withdrawn.

Regulatory Findings

Since this action only withdraws an NPRM, it is neither a proposed nor a final rule. This action therefore is not covered under Executive Order 12866, the Regulatory Flexibility Act, or DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979).

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Withdrawal

■ Accordingly, the notice of proposed rulemaking, Docket No. FAA–2011–0099, which was published in the **Federal Register** on March 1, 2011 (76 FR 11174), is withdrawn.

Issued on January 20, 2021.

Gaetano A. Sciortino,

Deputy Director for Strategic Initiatives, Compliance & Airworthiness Division, Aircraft Certification Service.

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA–2020–1208; Airspace Docket No. 20–AAL–46]

RIN 2120–AA66

Proposed Establishment of Class E Airspace; Port Alsworth, AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish Class E airspace extending upward from 700 feet above the surface of the earth at Wilder/Natwick LLC Airport, Port Alsworth, AK. This action would accommodate new area navigation (RNAV) procedures and ensure the safety and management of instrument flight rule (IFR) operations within the National Airspace System.

DATES: Comments must be received on or before April 8, 2021.

ADDRESSES: Send comments on this proposal to the U.S. Department of Transportation, Docket Operations, 1200 New Jersey Avenue SE, West Building Ground Floor, Room W12–140, Washington, DC 20590; telephone: 1–800–647–5527, or (202) 366–9826. You must identify FAA Docket No. FAA–2020–1208; Airspace Docket No. 20–AAL–46, at the beginning of your comments. You may also submit comments through the internet at <https://www.regulations.gov>.

FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov/air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267–8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For information on the availability of FAA Order 7400.11E at NARA, email: fedreg.legal@nara.gov, or go to <https://www.archives.gov/federal-register/cfr/ibr-locations.html>.

FOR FURTHER INFORMATION CONTACT: Richard Roberts, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198; telephone (206) 231–2245.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would establish Class E airspace extending upward from 700 feet above the surface of the earth to support IFR operations at Wilder/Natwick LLC Airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Persons wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2020-1208; Airspace Docket No. 20-AAL-46". The postcard will be date/time stamped and returned to the commenter.

All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in light of the comments received. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRMs

An electronic copy of this document may be downloaded through the internet at <https://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's web page at <https://>

www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Northwest Mountain Regional Office of the Federal Aviation Administration, Air Traffic Organization, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to 14 CFR part 71 by establishing Class E airspace extending upward from 700 feet above the surface of the earth at Wilder/Natwick LLC Airport, Port Alsworth, AK.

The Class E airspace would be established within a 2.5 mile radius of the airport beginning at the point the 308° bearing from the airport intersects the 2.5-mile radius clockwise to the point the 79° bearing from the airport intersects the 2.5-mile radius. This area will accommodate circling north of runway 6/24. In addition, this area would include that airspace within a 7.3 mile radius of the airport beginning at the point the 230° bearing from the airport intersects the 7.3-mile radius clockwise to the point the 271° bearing from the airport intersects the 7.3-mile radius. This area would protect aircraft using the RNAV approach to runway 6 and departures until reaching 1,200 feet AGL.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is

published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

■ 1. The authority citation for 14 CFR Part 71 continues to read as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959-1963 Comp., p. 389.

§ 71.1 [Amended]

■ 2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth

* * * * *

AAL AK E5 Port Alsworth, AK [NEW]

Wilder/Natwick LLC Airport, AK
(Lat. 60°11'55 "N, long. 154°19'23 "W)

That airspace extending upward from 700 feet above the surface within 7.3 mile radius of Wilder/Natwick LLC Airport beginning at the point the 230° bearing from the airport intersects the 7.3-mile radius clockwise along the 7.3-mile radius to the point the 271° bearing intersects the 7.3-mile radius, thence east to the point the 308° bearing from the airport intersects an arc within a 2.5 mile radius of the airport, thence clockwise along the 2.5-mile arc to the point the 79° bearing intersects the 2.5-mile arc thence southwest to the point of beginning.

Issued in Seattle, Washington, on January 20, 2021.

Byron Chew,

Acting Group Manager, Operations Support Group, Western Service Center.

BILLING CODE 4910-13-P

POSTAL SERVICE**39 CFR Part 111****Addressing Standards**

AGENCY: Postal Service™.

ACTION: Proposed rule; revision; additional comment period.

SUMMARY: The Postal Service is revising its pending proposal to amend *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM®)* in various sections of *Addressing*, to update addressing standards.

DATES: Submit comments on or before March 24, 2021.

ADDRESSES: Mail or deliver written comments to the manager, Product Classification, U.S. Postal Service, 475 L'Enfant Plaza SW, Room 4446, Washington, DC 20260-5015. If sending comments by email, include the name and address of the commenter and send to PCFederalRegister@usps.gov, with a subject line of "Addressing Standards". Faxed comments are not accepted.

Confidentiality

All submitted comments and attachments are part of the public record and subject to disclosure. Do not enclose any material in your comments that you consider to be confidential or inappropriate for public disclosure.

You may inspect and photocopy all written comments, by appointment only, at USPS® Headquarters Library, 475 L'Enfant Plaza SW, 11th Floor North, Washington, DC 20260. These records are available for review on Monday through Friday, 9 a.m.–4 p.m., by calling 202-268-2906.

FOR FURTHER INFORMATION CONTACT:

James Wilson at (901) 681-4600, Kai Fisher at (901) 681-4634, or Garry Rodriguez at (202) 268-7281.

SUPPLEMENTARY INFORMATION: On September 22, 2020, the Postal Service published a notice of proposed rulemaking (85 FR 59484-59486) to update addressing standards. In response to that proposed rule, the mailing industry provided many valuable comments, which has prompted the Postal Service to issue a revised proposed rule with an additional comment period. The revised proposed rule will clarify our proposal to respond to mailer comments by clearly outlining the ways in which the proposal has changed.

Comments

Thirty-five formal responses were received. Several responses expressed concern that the change would create cost increases for lower volume mailers that currently process their lists quarterly and would be required to process more frequently, increasing the cost paid to mail service providers for address matching services. Several responses suggested the 60-day requirement should be increased to 95 days, which coincides with Move Update Standards. Other comments questioned the 60-day requirement from address matching to the mailing date with a product release that is still valid for use beyond that time frame. The remaining comments requested an extension of the comment period.

Background

Currently, DMM section 602.6.0, *ZIP Code Accuracy Standards*, provides that a ZIP Code™ may be used on a mail piece within 12 months after verified using a Postal Service approved method. Once a ZIP Code is used on a mailpiece, the address associated with that ZIP Code is considered to meet Postal Service addressing standards for an additional 12 months from the date first used in the mail.

DMM sections 602.7.0, *Carrier Route Accuracy Standard*, and 9.0, *Coding Accuracy Support System (CASS)*, provide that Address Matching and Coding Update standards require coding to be performed within 90 days before the mailing date for carrier route mailings and 180 days for all non-carrier route mailings using the most current USPS database. The current product release schedule allows for use of a database that is valid for 105 days and may be used for an additional 6 months beyond that timeframe. As such, an address added or modified in the Postal Service database may not be updated on

a mailer's mailing list for nearly 1 year after the change was made.

In 2012, the Postal Service implemented address management product fulfillment via an electronic product fulfillment method designed to provide subscription products to customers more efficiently. The database product updates are posted each month to a secure site where customers can log in to simply download the product files. A recent survey of licensed Address Management data products indicates that CASS and Multiline Accuracy Support System (MASS) Certified software and service providers are retrieving and using the monthly updates during the address matching and coding processes.

Proposal

The Postal Service proposed implementing a database product cycle that aligns with the release of other mailing products. This will provide consistency across all mailing products and the method by which the data files are available and distributed.

The suggestion to increase the 60-day requirement to coincide with the 95 days required for Move Update Standards is not within the scope of this proposal.

The updated proposed release schedule allows for 120 days of use and an overlap in dates for product use. Mailers that currently process their lists quarterly would still be compliant as long as they do not mail beyond the "last permissible mailing date" for the "product date" as shown in the USPS Product Cycle in Exhibit 9.3.1. Mailers will be expected to update their systems with the latest data files as soon as practicable and should not wait until the "last permissible use" date.

The Postal Service is proposing to implement this change effective July 1, 2021. However, mailers may opt to use the new monthly update cycles for both carrier route and non-carrier route mailings immediately.

We believe this proposed revision will provide customers with a more efficient process and will reduce the risk of using address information that is not current.

Although exempt from the notice and comment requirements of the Administrative Procedure Act (5 U.S.C. 553(b), (c)) regarding proposed rulemaking by 39 U.S.C. 410(a), the Postal Service invites public comment on the following proposed revisions to *Mailing Standards of the United States Postal Service, Domestic Mail Manual (DMM)*, incorporated by reference in the Code of Federal Regulations. See 39 CFR 111.1.
