SUMMARY: The Environmental Protection Agency (EPA) is planning to submit an information collection request (ICR), "Exchange Network Grants Progress Reports (Renewal)" (EPA ICR No. 2207.08, OMB Control No. 2025-0006) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. Before doing so, EPA is soliciting public comments on specific aspects of the proposed information collection as described below. This is a proposed extension of the ICR, which is currently approved through September 30, 2021. An Agency may not conduct

or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Comments must be submitted on or before April 26, 2021.

Pursuant to section 3506(c)(2)(A) of the PRA, EPA is soliciting comments and information to enable it to: (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (iii) enhance the quality, utility, and clarity of the information to be collected; and (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated

electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval. At that time, EPA will issue another **Federal Register** notice to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB.

Abstract: Under the U.S. EPA National Environmental Information Exchange Network (NEIEN) Grant Program, EPA collects information from the NEIEN grantees on assistance agreements that EPA has awarded. Specifically, for each project, EPA proposes to have grantees submit semi-annual reports on the progress and current status of each goal and output, completion dates for outputs, and any problems encountered. This information will help EPA ensure projects are on schedule to meet their goals and produce high quality environmental results. New award recipients will complete one Quality Assurance Reporting Form for each award. This form provides a simple means for grant recipients to describe how quality will be addressed throughout their projects. Additionally, the Quality Assurance Reporting Form is derived from guidelines provided in the NEIEN 2020 Grant Solicitation Notice.

Form Numbers: EPA Form 5300-26 (Semi-Annual Progress Report Form) and EPA Form 5300-27 (Quality Assurance Reporting Form).

Respondents/affected entities: State, tribal, and territorial environmental government offices.

Respondent's obligation to respond: Required to obtain or retain benefits (2 CFR part 200 and 2 CFR part 1500).

Estimated number of respondents: 149 total per year.

Frequency of response: Twice per year for the Semi-Annual Progress Report Form; one time per grant for the Quality Assurance Reporting Form.

Total estimated burden: 258.5 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$15,765.91 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 21.5 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This slight decrease in the burden is due to a reduction in the open Exchange Network Grants (from 172 to 149) that are expected to be active per year during the period of this ICR. The

reduction in the numbers of open grants explains the small reduction (of \$421) in total annual respondent costs despite inflation in labor rates.

Dated: January 27, 2021.

Director, Office of Information Management.

SUPPLEMENTARY INFORMATION: OLS is a data management system that serves the EPA National Library Network. OLS is comprised of the National Library Catalog database and four operations modules: Serials Management, to track library subscriptions; Dispersals Management, to track the removal of library materials from their collections; Catalog Maintenance, which allows libraries to manage their specific library holdings records; and Circulation Management, which allows authorized library staff to register individuals who wish to borrow materials held in the library and track borrowed materials. The National Library Catalog database allows individuals to search for materials available in the collections of the 24 libraries within the EPA National Library Network. While the library holdings records in the National Library Catalog are accessible by the public, the operations and records management tools of the four modules are solely maintained by authorized library staff. The Circulation Management module is the only module of OLS that collects and uses PII that is also Privacy Act information.
