5. *Safety and Well-Being Call (Form R-6)*: This instrument is used by care provider facilities to document the outcome of calls made to UAC and their sponsors after release to ensure the child is safe and refer the sponsor to

additional resources as needed. Currently, case managers document responses from the sponsor and UAC interview questions (required per ORR procedures) in their case management notes. ORR expanded this instrument to include the information currently captured in case management notes, in addition to the information captured in the current version of the Safety and Well-Being Follow-Up Call Report. The average burden minutes per response was increased from 30 to 45 minutes.

Respondents: ORR grantee and contractor staff; and released children and sponsors.
