

assistance and other related logistics support including ordnance handling equipment; and other related elements of logistics and program support.

(iv) *Military Department: Navy (CI-P-AFR)*

(v) *Prior Related Cases, if any: None*

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid: None*

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold: See Attached Annex*

(viii) *Date Report Delivered to Congress: February 5, 2021*

* As defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Chile—Standard Missile-2 (SM-2) Block IIIA Missiles

The Government of Chile has requested to buy up to sixteen (16) Standard Missile-2 (SM-2) Block IIIA missiles (rail launched) (including two (2) missiles with manufacturer installed telemeter); two (2) MK 89 Mod 0 Guidance Sections; and one (1) Target Detection Device Kit (including shroud), MK 45 Mod 14. Intermediate Level Maintenance Facility; spare parts and associated containers; personnel training and training equipment; publications and technical data; U.S. Government and contractor technical assistance and other related logistics support including ordnance handling equipment; and other related elements of logistics and program support. The total estimated program cost is \$85.0 million.

This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security of a strategic partner in South America.

This proposed sale would support Chile's anti-air warfare capabilities for the two recently transferred former Adelaide-class frigates to the Chilean Navy. Chile will have no difficulty absorbing the equipment and services into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractor will be Raytheon Missiles and Defense, Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Chile.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 21-08

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The SM-2 missile targets threats closer to the water's surface, defending against anti-ship missiles and aircraft out to 90 nautical miles. The SM-2 IIIA variant provides enhanced area defense capabilities and includes radar seeker technologies in continuous wave and interrupted continuous wave guidance modes, tail controls and solid rocket motor propulsion to engage high-speed maneuvering threats and updated radar targeting and directional warheads.

2. The highest level of classification of information included in this potential sale is SECRET.

3. If a technologically-advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Chile can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to Chile.

BILLING CODE 5001-06-C

DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID: USN-2020-HQ-0010]

Submission for OMB Review; Comment Request

AGENCY: United States Marine Corps, Department of the Navy, Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: The Department of Defense has submitted to OMB for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by March 31, 2021.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT:

Angela James, 571-372-7574, or whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Navy Access Control Management System (NACMS) and the U.S. Marine Corps Biometric and Automated Access Control System (BAACS); the associated Form is SECNAV 5512/1 Department of the Navy Local Population ID Card/Base Access Pass Registration Form; OMB Control Number 0703-006.

Type of Request: Revision.

Number of Respondents: 4,900,000.

Responses per Respondent: 1.

Annual Responses: 4,900,000.

Average Burden per Response: 10 minutes.

Annual Burden Hours: 816,667.

Needs and Uses: The information collection is required to control physical access to DOD, DON or U.S. Marine Corps installations/units controlled information, installations, facilities, or areas over which the DOD, DON or U.S. Marine Corps has security responsibilities by identifying or verifying an individual through the use of biometric databases and associated data processing/information services for designated populations for purposes of protecting U.S./Coalition/allied government/national security areas of responsibility and information; to issue badges, replace lost badges and retrieve passes upon separation; to maintain visitor statistics; collect information to adjudicate access to facility; and track the entry/exit of personnel.

Affected Public: Individuals or households.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Sehra.

You may also submit comments and recommendations, identified by Docket ID number and title, by the following method:

• *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

Instructions: All submissions received must include the agency name, Docket ID number, and title for this **Federal**

Register document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

DOD Clearance Officer: Ms. Angela James.

Requests for copies of the information collection proposal should be sent to Ms. James at whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

Dated: February 18, 2021.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-P

DEPARTMENT OF ENERGY

Environmental Management Advisory Board

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of open virtual meeting.

SUMMARY: This notice announces an online virtual meeting of the Environmental Management Advisory Board (EMAB). The Federal Advisory Committee Act requires that public notice of this conference call be announced in the **Federal Register**.

DATES: Wednesday, March 24, 2021; 2:00 p.m.–5:30 p.m. ET.

ADDRESSES: This meeting will be held virtually via Zoom. To attend, please contact Alyssa Harris by email, Alyssa.Harris@em.doe.gov, no later than 5:00 p.m. EDT on Wednesday, March 17, 2021.

To submit public comment: Public comments will be accepted via email prior to and after the meeting. Comments received no later than 5:00 p.m. EDT on Wednesday, March 17, 2021 will be read aloud during the virtual meeting. Comments will also be accepted after the meeting by no later than 5:00 p.m. EDT on Friday, March 26, 2021. Please send comments to Alyssa Harris at Alyssa.Harris@em.doe.gov.

FOR FURTHER INFORMATION CONTACT: Alyssa Harris, EMAB Federal Coordinator, U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585. Phone (202) 430-9624 or Email: Alyssa.Harris@em.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of EMAB is to provide the Assistant Secretary for Environmental Management (EM) with independent advice and recommendations on corporate issues confronting the EM program. EMAB's membership reflects a diversity of views, demographics, expertise, and professional and academic experience. Individuals are appointed by the Secretary of Energy to serve as either special Government employees or representatives of specific interests and/or entities.

Tentative Agenda:

- Remarks from EM leadership
- Vote on 2020 Regulatory Reform Recommendation
- Reading of Public Comment
- EM Waste Disposition Update
- EM Budget Update
- Board Business

Public Participation: The online virtual meeting is open to the public. Written statements may be filed with the Board either before or after the meeting by sending them to Alyssa Harris at the aforementioned email address. The Designated Federal Officer is empowered to conduct the conference call in a fashion that will facilitate the orderly conduct of business. Individuals wishing to make public comments should email them as directed above.

Minutes: Minutes will be available by writing or calling Alyssa Harris at the address or phone number listed above. Minutes will also be available at the following website: <https://www.energy.gov/em/listings/emab-meetings>.

Signed in Washington, DC, on February 23, 2021.

LaTanya Butler,

Deputy Committee Management Officer.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[OE Docket No. PP-481-1]

Application To Amend Presidential Permit; CHPE LLC

AGENCY: Office of Electricity, Department of Energy.

ACTION: Notice of application.

SUMMARY: CHPE LLC (Applicant or CHPE) has filed a supplement to its application to amend Presidential Permit No. PP-481. CHPE LLC seeks to further amend its permit application to allow for certain modifications to the previously permitted project.

DATES: Comments, protests, or motions to intervene must be submitted on or before March 31, 2021.

ADDRESSES: Comments or motions to intervene should be addressed to Christopher Lawrence, Christopher.Lawrence@hq.doe.gov.

FOR FURTHER INFORMATION CONTACT: Christopher Lawrence (Program Office) at 202-586-5260 or by email to Christopher.Lawrence@hq.doe.gov, or Christopher Drake (Attorney-Adviser) at 202-586-2919 or by email to Christopher.Drake@hq.doe.gov.

SUPPLEMENTARY INFORMATION: The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (E.O.) 10485, as amended by E.O. 12038.

On September 25, 2020, CHPE filed an application with the Office of Electricity of the Department of Energy (DOE), as required by regulations at 10 CFR 205.320 *et seq.*, requesting that DOE amend Presidential Permit No. PP-481 to allow for changes in the route previously permitted (Amendment Application). Notice of that application was published in the **Federal Register** on October 5, 2020 (85 FR 62,721).

On January 15, 2021, CHPE filed a supplement to its Amendment Application asking DOE to amend Presidential Permit No. PP-481 to increase the capacity of the proposed Project from 1,000 megawatts (MW) to 1,250 MW. Since the filing of the Amendment Application last September, the New York Independent System Operator (NYISO) completed a System Reliability Impact Study (SRIS) that assessed the potential impact of increasing the Project's transmission capacity from 1,000 MW to 1,250 MW. The SRIS determined that the Project can interconnect and operate at 1,250 MW without adversely affecting the reliability of the interstate transmission grid. In addition to the completed SRIS, an expert retained by CHPE completed an analysis of the potential impacts of operating a 1,250 MW transmission line. This analysis, which addressed magnetic fields, compass deviations, and thermal cable losses, determined that there would be no material change in impacts beyond those identified for the permitted 1,000 MW project.

Procedural Matters: Any person may comment on this application by filing such comment at the address provided above. Any person seeking to become a party to this proceeding must file a motion to intervene at the address provided above in accordance with Rule 214 of the Federal Energy Regulatory
