

through Chapters 62–204, 62–210, and 62–212. EPA has made the preliminary determination that Florida's SIP and practices are adequate for interstate transport for PSD permitting of major sources and major modifications related to GHGs for the 2008 8-hour ozone and the 1997 annual and 2006 24-hour PM_{2.5} NAAQS for section 110(a)(2)(D)(i)(II) (prong 3).

C. 110(a)(2)(J) Consultation With Government Officials, Public Notification, and PSD and Visibility Protection

This element consists of four sub-elements: Consultation requirements of section 121, the public notification requirements of section 127, PSD, and visibility protection. This action pertains to the PSD element of section 110(a)(2)(J) for GHGs for the 2008 and 1997 8-hour ozone NAAQS.

With regard to the PSD element of section 110(a)(2)(J), this requirement is met when a state demonstrates in an infrastructure SIP submission that its PSD program meets all the current requirements of part C of title I of the CAA. As explained in the discussion of section 110(a)(2)(C), Florida's SIP contains provisions in Chapters 62–210 and 62–212 for the State's PSD program that reflect the relevant SIP revisions to satisfy the requirement of the PSD element of section 110(a)(2)(J). EPA has made the preliminary determination that Florida's SIP is adequate for PSD permitting of major sources and major modifications related to GHGs for the 2008 and 1997 8-hour ozone NAAQS for section 110(a)(2)(J).

III. Proposed Action

EPA is proposing to approve revisions to the Florida SIP, submitted on August 26, 2020, related to sections 110(a)(2)(C), (D)(i) (prong 3), and (J) as they relate to new major sources and major modifications in areas of the State designated attainment or unclassifiable. EPA has made the preliminary determination that Florida's SIP and practices are adequate for GHG PSD permitting of major sources and major modifications related to the 2008 8-hour ozone NAAQS for sections 110(a)(2)(C), (D)(i) (prong 3), and (J); the 1997 8-hour ozone NAAQS for sections 110(a)(2)(C) and (J); and the 1997 annual and 2006 24-hour PM_{2.5} NAAQS for section 110(a)(2)(D)(i)(ii) prong 3. Consequently, EPA is proposing to convert the previous disapprovals of Florida's infrastructure SIPs related to the CAA GHG PSD permitting requirements for the 2008 and 1997 8-hour ozone and the 1997 annual and 2006 24-hour PM_{2.5} NAAQS to full approvals.

IV. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. This action merely proposes to approve state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9,

2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

The provisions will be subject to EPA's inspection and enforcement authorities under sections 9005 and 9006 of RCRA Subtitle I and other applicable statutory and regulatory provisions. In the "Rules and Regulations" section of this issue of the **Federal Register**, EPA is approving this action by a direct final rule. If no significant negative comment is received, EPA will not take further action on this proposed rulemaking, and the direct final rule will be effective 60 days from the date of publication in this
