SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice that it is granting the renewal of recognition of Southwest Research Institute, Inc. (SWRI) as a NRTL under 29 CFR 1910.7.

OSHA recognition of a NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7). Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational web page for each NRTL that details the scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

OSHA processes applications submitted by an NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. A II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA between nine months and one year before the expiration date of the current recognition. A renewal request includes a request for renewal and any additional information demonstrating their continued compliance with the terms of the recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL headquarters and any key sites within the past 18 to 24 months, it will schedule the necessary on-site assessment prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces the preliminary decision to grant or deny renewal in the **Federal Register** and solicits comments from the public. OSHA then publishes a final **Federal Register** notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

SWRI initially received OSHA recognition as a NRTL on July 13, 1993

(58 FR 37752). SWRI's most recent renewal was granted on July 30, 2014, for a five-year period ending on July 30, 2019. SWRI submitted a timely request for renewal, dated September 14, 2018 (OSHA–2006–0041–0008), and retains their recognition pending OSHA's final decision in this renewal process. The current address of the SWRI facility recognized by OSHA and included as part of the renewal request is: Southwest Research Institute, 6220 Culebra Road, Post Office Drawer 28510, San Antonio, Texas 78238.

OSHA evaluated SWRI's application for renewal and made a preliminary determination that SWRI can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition.

OSHA published the preliminary notice announcing SWRI's renewal application in the **Federal Register** on July 13, 2020 (85 FR 42015). The agency requested comments by July 28, 2020, and received no comments in response to this notice. OSHA is now proceeding with this final notice to renew SWRI NRTL recognition.

To obtain or review copies of all public documents pertaining to the SWRI application, go to www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW, Room N–3655, Washington, DC 20210; telephone (202) 693–2350. II. Final Decision and Order

OSHA hereby gives notice of the renewal of recognition of SWRI as a NRTL. OSHA examined SWRI's renewal application and all pertinent information related to SWRI's request for renewal of NRTL recognition. Based on this review of the renewal request and other pertinent information, OSHA finds that SWRI meets the requirements of 29 CFR 1910.7 for renewal of recognition as a NRTL, subject to the specified limitation and conditions. OSHA limits the renewal of SWRI's recognition to include the terms and conditions of SWRI's recognition found in 58 FR 37752. The NRTL scope of recognition for SWRI is also available on the OSHA website at: <https://www.osha.gov/dts/otpca/nrtl/swri.html>. This renewal extends SWRI's recognition as a NRTL for a period of five years from March 5, 2021.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, SWRI must abide by the following conditions of recognition:

1. SWRI must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in their operations as a NRTL, and provide details of the change(s);
