

- An estimate of total take based on proportion of the monitoring zone that was observed; and

- Other human activity in the area.

If no comments are received from NMFS within 30 days, that phase's draft final report will constitute the final report. If comments are received, a final report for the given phase addressing NMFS comments must be submitted within 30 days after receipt of comments.

In the event that personnel involved in the construction activities discover an injured or dead marine mammal, ADOT&PF shall report the incident to the Office of Protected Resources, NMFS and to the Alaska Regional Stranding Coordinator as soon as feasible. The report must include the following information:

- Time, date, and location (latitude/longitude) of the first discovery (and updated location information if known and applicable);
- Species identification (if known) or description of the animal(s) involved;
- Condition of the animal(s) (including carcass condition if the animal is dead);
- Observed behaviors of the animal(s), if alive;
- If available, photographs or video footage of the animal(s); and
- General circumstances under which the animal was discovered.

Preliminary Determinations

NMFS has preliminarily concluded that there is no new information suggesting that our analysis or findings should change from those reached for the initial IHA. This includes consideration of the minor changes discussed above, as well as stock abundance information. The estimated abundance of the West Coast Transient and Northern Resident Killer whale stocks and Steller sea lion Eastern U.S. stock have increased slightly, whereas, the harbor seal, Clarence Strait stock decreased slightly. Based on the information and analysis contained here and in the referenced documents, NMFS has determined the following: (1) The required mitigation measures will affect the least practicable impact on marine mammal species or stocks and their habitat; (2) the authorized takes will have a negligible impact on the affected marine mammal species or stocks; (3) the authorized takes represent small numbers of marine mammals relative to the affected stock abundances; (4) ADOT&PF's activities will not have an unmitigable adverse impact on taking for subsistence purposes as no relevant subsistence uses of marine mammals are implicated by this action, and; (5)

appropriate monitoring and reporting requirements are included.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species, in this case with the NMFS' Alaska Regional Office.

NMFS' Alaska Region issued a revised Biological Opinion to NMFS' Office of Protected Resources on December 19, 2019 which concluded that issuance of IHAs to ADOT&PF is not likely to jeopardize the continued existence of Mexico DPS humpback whales. Finally, the regional office determined that the renewal request (*i.e.*, the minor changes to the maximum number of piles per day) will not alter take or require re-initiation of the consultation.

COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

Procurement List; Additions and Deletions

AGENCY: Committee for Purchase From People Who Are Blind or Severely Disabled.

ACTION: Additions to and deletions from the procurement list.

SUPPLEMENTARY INFORMATION:

Additions

On 12/4/2020, the Committee for Purchase From People Who Are Blind or Severely Disabled published notice of proposed additions to the Procurement List. This notice is published pursuant to 41 U.S.C. 8503 (a)(2) and 41 CFR 51-2.3.

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the service(s) and impact of the additions on the current or most recent contractors, the Committee has determined that the service(s) listed below are suitable for procurement by the Federal Government under 41 U.S.C. 8501-8506 and 41 CFR 51-2.4.

Regulatory Flexibility Act Certification

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

1. The action will not result in any additional reporting, recordkeeping or

other compliance requirements for small entities other than the small organizations that will furnish the service(s) to the Government.

2. The action will result in authorizing small entities to furnish the service(s) to the Government.

3. There are no known regulatory alternatives which would accomplish the objectives of the Javits-Wagner-O'Day Act (41 U.S.C. 8501-8506) in connection with the service(s) proposed for addition to the Procurement List.

End of Certification

Accordingly, the following service(s) are added to the Procurement List:

Service(s)

Service Type: Facility Support Services

Mandatory for: National Park Service, National Capital Area, Multiple Locations, Washington, DC

Designated Source of Supply: Portco, Inc., Portsmouth, VA

Contracting Activity: National Park Service, NCR Regional Contracting (30000)

The Committee finds good cause to dispense with the 30-day delay in the effective date normally required by the Administrative Procedure Act. See U.S.C. 553(d)(3). This addition to the Committee's Procurement List is effectuated because of the expiration of the National Park Service's Facility Support Services contract for the National Capital Area, Washington, DC. The federal customer contacted, and has worked diligently with the AbilityOne Program to fulfill this Service need under the AbilityOne Program. To avoid performance disruption, and the possibility that the National Park Service will refer its business elsewhere, this addition must be effective on March 21, 2021, ensuring timely execution for a start date while still allowing 17 days for comment. Pursuant to its own regulation, 41 CFR 51-2.4, the Committee determined that no exists on the current contractor. The Committee also published a notice of proposed Procurement List addition in the **Federal Register** on December 4, 2021, and did not receive any comments from any interested persons, including from the incumbent contractor. The addition will not create a public hardship and has limited effect on the public at large, but rather, will create new jobs for other affected parties—people with significant disabilities in the AbilityOne Program who otherwise face challenges locating employment. Moreover, this addition will enable Federal customer operations to continue without interruption.

Deletions
