SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of a currently approved information collection.

The National Oceanic and Atmospheric Administration's (NOAA) National Ocean Service's Office of National Marine Sanctuaries (ONMS)/Papahānaumokuākea Marine National Monument (PMNM) is sponsoring this collection.

On June 15, 2006, President George W. Bush established the Papahānaumokuākea Marine National Monument (PMNM) by Presidential Proclamation 8031 under the authority of the American Antiquities Act, 16 CFR 431, to ensure the comprehensive, strong, and lasting protection of the coral reef ecosystems and related resources of the Northwestern Hawaiian Islands (NWHI). At a time when ocean resources around the world are in major decline, the designation of PMNM enabled nearly 140,000 square miles of U.S. land and waters of the region to receive the highest form of environmental protection in the country and created one of the largest marine conservation areas in the world.

As part of PMNM's mission to characterize its natural resources, PMNM conducts annual coral reef monitoring expeditions to the NWHI. Additionally, as part of PMNM's education mission, PMNM is committed to providing educational opportunities for students and educators. In order to accomplish these two missions, PMNM has partnered with the University of Hawaii to offer research internships. Each year, a limited number of research internships will be awarded to outstanding undergraduate students in the marine sciences at the University of Hawaii. These internships consist of training students in SCUBA surveys of coral reef fauna, a research expedition to PMNM aboard a NOAA or contract ship, and the development of an independent research project with data from the expedition. Due to the fact that space is very limited for these internships, only a small number of internships can be offered each year. This request collects information from internship applicants in order to allow PMNM staff to select candidates which are best suited for its research internships.

The collection of information will consist of an electronic application package, which will be solicited annually from undergraduate students applying for the internship. The application package will include (1) an application form with information on academic background and professional experiences, (2) reference forms by two educational or professional references, and (3) a support letter from one academic professor or advisor.

All gathered information would be used only by staff of PMNM for the purpose of selecting interns, and will not be shared with any other party. None of the information collected will be disseminated to the public.

II. Method of Collection

The proposed collection of new information will consist of electronic forms which will be submitted via email.
