Abstract: Section 4 of the Archeological Resources Protection Act of 1979 (16 U.S.C 470cc), and Section 3 of the Antiquities Act of 1906 (54 U.S.C. 320302), authorize any individual or institution to apply to Federal land managing agencies to scientifically excavate or remove archeological resources from public or Indian lands. A permit is required for any archeological investigation by non-NPS personnel occurring on parklands, regardless of whether or not these investigations are linked to regulatory compliance. Archeological investigations that require permits include excavation, shovel-testing, coring, pedestrian survey (with and without removal of artifacts), underwater archeology, photogrammetry, and rock art documentation. Individuals, academic and scientific institutions, museums, and businesses that propose to conduct archeological field investigations on parklands must first obtain a permit before the project may begin. To apply for a permit, applicants submit Form DI-1926 "Application for Permit for Archeological Investigations." Applicants are required to submit the following information: (1) Statement of work, (2) Statement of applicant's capabilities, (3) Statement of applicant's past performance, (4) Curriculum vitae for principal investigator(s) and project director(s), (5) Written consent by State or tribal authorities to undertake the activity on State or tribal lands that are managed by the NPS, if required by the State or tribe, (6) Curation authorization, and (7) Detailed schedule of all project activities.
