The process includes one or more public meetings, consideration of written public comments, and consultations with interested Federal, state, and local

agencies and members of the public. For the evaluation of the Massachusetts Coastal Management Program, NOAA will consider the extent to which the state has met the national objectives, adhered to the management program approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the Coastal Zone Management Act. When the evaluation is complete, NOAA’s Office for Coastal Management will place a notice in the **Federal Register** announcing the availability of the Final Evaluation Findings.

This reporting is critical for gauging the scope of these activities, for determining the possibility of duplicative operations or of interference with another project, for providing a database for checking atmospheric changes against the reported activities, and for providing a single source of information on the safety and environmental factors used in weather modification activities in the U.S. Two forms are collected under this OMB Control Number: One prior to and one after the activity.
