Federal Register

Vol. 86, No. 48

Monday, March 15, 2021

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS–2020–0011]

Addition of the Democratic Republic of Timor-Leste to the List of Regions Affected With African Swine Fever

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we have added the Democratic Republic of Timor-Leste to the list of regions that the Animal and Plant Health Inspection Service considers to be affected with African swine fever (ASF). We have taken this action because of confirmation of ASF in the Democratic Republic of Timor-Leste.

DATES: The Democratic Republic of Timor-Leste was added to the APHIS list of regions considered affected with ASF on September 30, 2019.

FOR FURTHER INFORMATION CONTACT: Dr. John Grabau, Regionalization Evaluation Services, Veterinary Services, APHIS, 920 Main Campus Drive, Suite 200, Raleigh, NC 27606; (919) 855–7738; email: AskRegionalization@usda.gov.

SUPPLEMENTARY INFORMATION: The regulations in 9 CFR part 94 (referred to below as the regulations) govern the importation of specified animals and animal products to prevent the introduction into the United States of various animal diseases, including African swine fever (ASF). ASF is a highly contagious disease of wild and domestic swine that can spread rapidly in swine populations with extremely high rates of morbidity and mortality. A list of regions where ASF exists or is reasonably believed to exist is maintained on the Animal and Plant Health Inspection Service (APHIS) website at <https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal->

and-animal-product-import-information/animal-health-status-of-regions/. This list is referenced in § 94.8(a)(2) of the regulations.

Section 94.8(a)(3) of the regulations states that APHIS will add a region to the list referenced in § 94.8(a)(2) upon determining ASF exists in the region, based on reports APHIS receives of outbreaks of the disease from veterinary officials of the exporting country, from the World Organization for Animal Health (OIE), or from other sources the Administrator determines to be reliable, or upon determining that there is reason to believe the disease exists in the region. Section 94.8(a)(1) of the regulations specifies the criteria on which the Administrator bases the reason to believe ASF exists in a region. Section 94.8(b) prohibits the importation of pork and pork products from regions listed in accordance with § 94.8, except if processed and treated in accordance with the provisions specified in that section or consigned to an APHIS-approved establishment for further processing. Section 96.2 restricts the importation of swine casings that originated in or were processed in a region where ASF exists, as listed under § 94.8(a).

On September 27, 2019, the veterinary authorities of the Democratic Republic of Timor-Leste reported to the OIE the occurrence of ASF in that country. Therefore, in response to this outbreak, on September 30, 2019, APHIS added the Democratic Republic of Timor-Leste to the list of regions where ASF exists or is reasonably believed to exist. This notice serves as an official record and public notification of that action.

As a result, pork and pork products from the Democratic Republic of Timor-Leste, including casings, are subject to APHIS import restrictions designed to mitigate the risk of ASF introduction into the United States.

Congressional Review Act

Pursuant to the Congressional Review Act (5 U.S.C. 801 *et seq.*), the Office of Information and Regulatory Affairs designated this action as not a major rule, as defined by 5 U.S.C. 804(2).

Authority: 7 U.S.C. 1633, 7701–7772, 7781–7786, and 8301–8317; 21 U.S.C. 136 and 136a; 31 U.S.C. 9701; 7 CFR 2.22, 2.80, and 371.4.

Done in Washington, DC, this 9th day of March 2021.

Mark Davidson,

Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2020–0063]

Notice of Proposed Revision To Import Requirements for the Importation of Fresh Sand Pears From the Republic of Korea Into the United States

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we have prepared a pest risk analysis relative to the importation into the United States of sand pear (*Pyrus pyrifolia* var. *culta*) fruit from the Republic of Korea. Currently, sand pear fruit may be imported into the United States from the Republic of Korea under an Animal and Plant Health Inspection Service preclearance program or as non-precleared fruit into the port of Honolulu, HI. Based on the findings of our analysis, we are proposing to authorize imports of non-precleared sand pear fruit from the Republic of Korea into all U.S. ports as an alternative to the preclearance program. All sand pear fruit intended for importation into the United States from the Republic of Korea would be subject to a systems approach currently required for precleared fruit. We are making the pest risk analysis available to the public for review and comment.

DATES: We will consider all comments that we receive on or before May 14, 2021.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to www.regulations.gov. Enter APHIS–2020–0063 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS–2020–0063, Regulatory Analysis
