Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on February 16, 2021, the Walkersville Southern Railroad (WSRR) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 215, Freight Car Safety Standards, and part 224, Reflectorization. FRA assigned the petition Docket Number FRA-2021-0028

Specifically, WSRR seeks a special approval pursuant to 49 CFR 215.203, *Restricted cars*, for one class N5 caboose, #477532, built in 1927. WSRR states it will maintain, service, and operate this caboose in excursion service in Walkersville, Maryland, on other-than-main track, at speeds not exceeding 10 miles per hour.

### Federal Railroad Administration

[Docket Number FRA-2021-0008]

#### Petition for Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on January 1, 2021, The Everett Railroad Company (EV) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 230, Steam Locomotive Inspection and Maintenance Standards. FRA assigned the petition Docket Number FRA-2021-0008.

Specifically, EV requests relief from 49 CFR 230.16(a), *Annual inspection*, to extend the annual inspection interval on

locomotive EV 11 until March 2022, and 49 CFR 230.17(a), *One thousand four hundred seventy-two (1472) service day inspection*, to extend the 1472-day inspection to a 16-year interval. EV states that the COVID-19 public health emergency has caused EV to halt excursion service, which resulted in EV 11 only accumulating one service day since its 2020 annual inspection. EV anticipates operating EV 11 for about 40 service days in 2021.

EV 11 is currently stored inside a shop building, and EV does not anticipate operating the locomotive until May 2021 or later.
