

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: National Defense University Student Profile; OMB Control Number 0704–XXXX.

Type of Request: Existing collection in use without an OMB Control Number.

Number of Respondents: 150.

Responses per Respondent: 1.

Annual Responses: 150.

Average Burden per Response: 20 minutes.

Annual Burden Hours: 50 hours.

Needs and Uses: This information collection is required to complete the official student record, which is stored in the University Student Management System (USMS), a component of the National Defense University (NDU) Enterprise Information System. Through this information collection, students provide profile information such as demographics, educational background, military service or professional background, and emergency contact information. The information is critical to university operations as it is used to fulfill mandatory reporting requirements and ensure the safety of students. The information is collected from students electronically, via a web-based form that contains a combination of selected-response (radio buttons, drop-down menus) and open-response items. The National Defense University Student Profile (NSP) is completed by all students, but for the purposes of the Paperwork Reduction Act, this information collection request only covers NDU's relatively small student population of members of the public (foreign nationals and non-government employee U.S. civilians). The collection is administered using a Drupal-based survey platform provided by USA Learning. The data are downloaded, processed, and transferred to the USMS by NDU's Office of Institutional Research. The end result is a set of complete student records for each academic year in the official repository for such record. The data are used for various institutional purposes such as mandatory reporting and notifying students of emergencies or closures.
