Background

On January 27, 2021, Daikin America, Inc., Orangeburg, New York, filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized and LTFV imports of granular polytetrafluoroethylene resin from India and Russia. Accordingly, effective January 27, 2021, the Commission instituted countervailing duty investigation Nos. 701–TA–663–664 and antidumping duty investigation Nos. 731–TA–1555–1556 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International

Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of February 2, 2021 (86 FR 7876). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its conference through written testimony and video conference on February 17, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on March 15, 2021. The views of the Commission are contained in USITC Publication 5174 (March 2021), entitled *Granular Polytetrafluoroethylene Resin from India and Russia: Investigation Nos. 701–TA–663–664 and 731–TA–1555–1556 (Preliminary)*.

By order of the Commission.
Issued: March 15, 2021.

Lisa Barton,

Secretary to the Commission.
