

ND Grants (<https://portal.fema.gov>), FEMA will obtain more efficient and effective operations that better serve the needs of both internal and external stakeholders.

With the Non-Disaster (ND) Grants System, FEMA implements a single, integrated, web-based, grants data collection and management system, combining all existing grant management functions of both grants systems, manual processes, and incorporate any additional functionality required by the Department of Homeland Security. This will result in the capability to manage all activities associated with non-disaster grants processes within a single full lifecycle grants management system. This system will ease the burden on grantees, providing them the functionality to manage their organization, more easily submit their applications online, and report on their performance toward completing their objectives. The new system will interface with *Grants.gov* and applicants will be notified via email to enter the system and review their applications. Grantees will then attach the detailed budget worksheet and the investment justifications.

With ND Grants, FEMA seeks to meet the intent of the E-Government initiative, authorized by Public Law 106–107 passed on November 20, 1999, that requires that all government agencies both streamline grant application processes and provide a mechanism to electronically create, review, and submit a grant application via the internet. The E-Government initiative is further governed by the E-Government Act of 2002, Public Law 107–347.

Collection of Information

Title: Non-Disaster (ND) Grants System.

Type of Information Collection: Reinstatement, with change, of a previously approved information collection.

OMB Number: 1660–0025.

FEMA Forms: Non-Disaster (ND) Grants System.

Abstract: ND Grants is a web-based grants management system that fulfills FEMA's strategic initiative to consolidate the entire non-disaster grants management lifecycle into a single system. Currently, ND Grants has functionality that supports the grantee application process, award acceptance, amendments, and performance reporting.

Affected Public: State, Tribal, or local government; non-profits; institutions of higher education; hospitals; and for-profit entities.

Number of Respondents: 2,380.
Number of Responses: 52,598.
Estimated Total Annual Burden Hours: 26,299 hours.
Estimated Total Annual Respondent Cost: \$1,422,776.
Estimated Respondents' Operation and Maintenance Costs: \$0.
Estimated Respondents' Capital and Start-Up Costs: \$0.
Estimated Total Annual Cost to the Federal Government: \$24,588,479.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Millicent L. Brown,

Senior Manager, Records Management Branch, Office of the Chief Administrative Officer, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.
