Administrative Protective Order

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: March 16, 2021.

Christian Marsh.

Acting Assistant Secretary for Enforcement and Compliance.

Appendix

List of Topics Discussed in the IDM

I. Summary

II. Background

III. Margin Calculations

IV. Discussion of the Issues

Comment 1: Which Control Number (CONNUMs) to Use for Downstream Home Market Sales Made by Kohan Shoji Co., Ltd. (Kohan Shoji)

Comment 2: Ministerial Error in the Preliminary Results

V. Recommendation

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The New England Fishery Management Council (Council) is scheduling a public meeting of its Scallop Survey Working Group via webinar to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

Recommendations from this group will be brought to the full Council for formal consideration and action, if appropriate. **DATES:** This meeting will be held on Friday, April 9, 2021 at 9 a.m. via webinar.

ADDRESSES: All meeting participants and interested parties can register to join the webinar at https://attendee.gotowebinar.com/register/4346896544231280400. Call In information: +1 (415) 655–0052; Access Code: 552–423–569.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT:

Thomas A. Nies, Executive Director, New England Fishery Management Council; telephone: (978) 465–0492.

SUPPLEMENTARY INFORMATION:

Agenda

The Scallop Survey Working Group (SSWG) will meet to discuss expectations for the (newly created) working group, including the Statement of Organization, Practices, and Procedures. They will also talk about the Terms of Reference (TORs): Review the draft terms of reference and initial input from working group members. Develop recommendations for final TORs for approval. Identify methods and analyses needed to address TORs, including timelines for completion, and SSWG sub-groups to complete the work. Other business may be discussed, as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at 978–465–0492, at least 5 days prior to the meeting date. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Authority: 16 U.S.C. 1801 et seq.

Dated: March 16, 2021.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service. [FR Doc. 2021–05746 Filed 3–22–21; 8:45 am]

Marine Mammals; File No. 25520

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the BBC Natural History and Factual Productions Ltd, Broadcasting House, Whiteladies Road, Bristol, BS8 2LR, United Kingdom (Responsible Party: Daniel Rasmussen), has applied in due form for a permit to conduct commercial or educational photography on marine mammals.

DATES: Written, telefaxed, or email comments must be received on or before April 22, 2021.

ADDRESSES: These documents are available upon written request via email to *NMFS.Pr1Comments@noaa.gov*.

Written comments on this application should be submitted via email to *NMFS.Pr1Comments@noaa.gov*. Please include File No. 25520 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to *NMFS.Pr1Comments@* noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Jordan Rutland or Shasta McClenahan, Ph.D., (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant proposes to film bottlenose dolphins (*Tursiops truncatus*) to obtain footage for an episode of a wildlife series on mammals. Up to 400 animals may be filmed annually from a helicopter and up to 360 animals may be filmed annually from a vessel, a remotely operated vehicle, or unmanned aircraft

system. The permit would expire on August 31, 2022.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: March 17, 2021.

Amy Sloan,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permit

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit application submitted by the Northeast Fisheries Science Center in support of the 2021 Study Fleet Program contains all of the required information and warrants further consideration. This Exempted Fishing Permit would exempt participating vessels from minimum fish sizes and possession limits for species of interest, for sampling purposes only. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notice to provide interested parties the opportunity to comment on Exempted Fishing Permit applications. **DATES:** Comments must be received on or before April 7, 2021.

ADDRESSES: You may submit written comments by the following method:

• Email: nmfs.gar.efp@noaa.gov. Include in the subject line "NEFSC STUDY FLEET EFP."

FOR FURTHER INFORMATION CONTACT: Maria Fenton, Fishery Management Specialist, 978–281–9196.

SUPPLEMENTARY INFORMATION: The Northeast Fisheries Science Center (Center) submitted a complete application for an Exempted Fishing Permit (EFP) in support of the 2021 Study Fleet Program. This EFP would exempt 20 commercial fishing vessels from minimum fish sizes and possession limits for species of interest.

The Center established the Study Fleet Program in 2002 to more fully characterize commercial fishing operations and provide sampling opportunities to augment NMFS's data collection programs. As part of the program, the Center contracts commercial fishing vessels to collect biological data and fish specimens for the Center to use in research relevant to stock assessments and fish biology. The Center's Study Fleet Program trains participating captains and crew to conduct at-sea sampling consistent with Center sampling protocols for survey and observer programs. During EFP trips, crew would sort, weigh, measure, and collect biological data from fish prior to discarding. During sampling, some discarded fish would remain on deck slightly longer than they would under normal sorting procedures. Exemptions from minimum fish sizes and possession restrictions would allow vessels to temporarily retain catch for at-sea sampling.

Table 1 lists the regulations from which participating vessels would be exempt for at-sea sampling or when retaining and landing fish for research purposes. The exemptions listed in Table 1 are necessary for contracted vessels to acquire the biological samples needed to meet Center research objectives.

TABLE 1—LIST OF VESSEL EXEMPTIONS FOR RETAINING AND LANDING FISH

2021 Study Fleet Program EF						
Number of vessels	20					
Exempted regulations in 50 CFR part 648	Minimum fish sizes: § 648.83 Northeast multispecies minimum fish sizes for haddock, yellowtail flounder, winter flounder, and American plaice. Possession restrictions: § 648.86(a) Haddock. § 648.86(d) Small-mesh multispecies. § 648.86(g) Yellowtail flounder. § 648.86(o) Possession limits implemented by the Regional Administrator.					

When directed by the Center, participating vessels would be authorized to retain and land specific amounts of fish exceeding possession limits and/or below minimum fish sizes, for research purposes only. The captain

or crew would deliver these fish to Center staff or local Port Agents upon landing. In these limited circumstances, the Study Fleet Program would give participating vessels a formal biological sampling request prior to landing. This would ensure that the landed fish do not exceed any collection needs of the Study Fleet Program, as detailed in Table 2.

TABLE 2—2021 STUDY FLEET PROGRAM BIOLOGICAL SAMPLE COLLECTION NEEDS

Species	Stock area*	Gear types#	Collection frequency	Individual fish per collection period	Maximum weight allowed per trip	Maximum allowance
Haddock	GOM, GB	OTF, DRS	Monthly (Dec-	80 per week (40 from	300 lb (136 kg)	4,800 lb (2,177 kg)
