AGENCY FOR INTERNATIONAL DEVELOPMENT

Agency Information Collection Activities: Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request

AGENCY: U.S. Agency for International Development.

ACTION: Notice of information collection.

SUMMARY: The U.S. Agency for International Development (USAID), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested concerning whether the proposed or continuing collections of information are necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the burden estimates; ways to enhance the quality, utility, and clarity of the information collected; and ways to minimize the burden of the collection of the information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: All comments should be submitted within 60 calendar days from the date of this publication.

ADDRESSES: Interested persons are invited to submit written comments regarding the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), 725 7th Street NW, Washington, DC 20543. Attention: Desk Officer for USAID.

Submission for OMB Review; Comment Request

March 18, 2021.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by April 22, 2021

will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Survey of SNAP Employment and Training (E&T) Case Management.

OMB Control Number: 0584–NEW.

Summary of Collection: Section 17 of the Food and Nutrition Act of 2008 provides general legislative authority for the planned data collection. It authorizes the Secretary of Agriculture to enter into contracts with private institutions to undertake research that will help improve the administration and effectiveness of the Supplemental Nutrition Assistance Program (SNAP) in delivering nutrition-related benefits. Under SNAP, States are required to operate an Employment and Training (E&T) program to help participants acquire skills, training, and work experience that lead to employment and greater economic self-sufficiency. Section 4005 of the Agricultural Improvement Act of 2018 (2018 Farm Bill) requires States to provide case management in their SNAP E&T programs by October 1, 2019. Case management involves assessing participants’ skills, interests, strengths, and challenges, and using this information to develop an individualized plan to connect E&T participants to programs and activities that best meet their employment needs.

Participants who receive support in their quest to obtain and maintain jobs that pay livable wages may be more likely to engage in program services and progress toward their goals than those who do not receive such support. Studies of case management in Temporary Assistance for Needy Families E&T programs have found that participants who worked with case managers who handled both program eligibility and E&T were more likely to participate in E&T activities, and that

team-based case management with integrated services showed promise in increasing participants’ employment and earnings.

Need and Use of the Information: The primary purpose of this voluntary, one-time data collection is to gather information on how SNAP E&T programs provide case management (including assessments, participant reimbursements, and other supports). The data collection from this study will help identify lessons learned and best practices that FNS can share with States to implement robust SNAP E&T programs and fulfill the new requirement.

Description of Respondents: Individuals/Households (248), Business-not-for-Profit (50), State, Local, or Tribal Government (268).

Number of Respondents: 570.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 555.

Departmental Information Collection Clearance Officer.

Agency Information Collection Activities: Proposed Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Office of the Chief Information Officer, USDA.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Office of the Chief Information Officer has submitted a Generic Information Collection Request (Generic ICR): “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” to OMB for approval under the Paperwork Reduction Act (PRA).

DATES: Comments regarding this information collection received by April 22, 2021 will be considered.

ADDRESSES: Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this

particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.
