SUPPLEMENTARY INFORMATION: The WRP is a recruitment and referral program that connects students with disabilities to an opportunity for employment. Through participating colleges and universities, WRP creates a database for Federal and select private-sector employers nationwide to find highly motivated college students and recent graduates with disabilities who are eager to demonstrate their abilities in the workplace through summer or permanent jobs. Candidates represent all majors, and range from college freshmen to graduate students and law students. Information from these candidates is compiled in a searchable database that is available through this website to Federal Human Resources Specialists, Equal Employment Opportunity Specialists, and other Federal employees and hiring officials in Federal agencies.

Every year, WRP staff approach more than 300 colleges and universities to participate in the WRP recruitment process for the year. WRP School Coordinators at these schools conduct outreach to their eligible students and encourage them to apply to participate in the WRP. School Coordinators must be college staff and are usually from the career or disability services office. Candidates that are approved by the School Coordinators and completed the application by the deadline are given the opportunity to have an elective informational interview with a trained volunteer WRP Recruiter from a Federal agency.

To be eligible to register, candidates must be current, full-time, degree-seeking undergraduate or graduate students with a disability, or have graduated within two and a half years of the release of the database each December. Candidates must be U.S. citizens, must be attending or have graduated from a U.S. accredited college or university, and be eligible under the Schedule A Hiring Authority for persons with disabilities. Candidates must also be approved by a WRP School Coordinator to apply to WRP and participate in an interview.

Candidates are not interviewing for specific positions at specific agencies. They have the opportunity to have an elective informational interview with a Federal recruiter to learn about Federal service and discuss their career path. Candidates are not placed into jobs; they are simply applying to be part of a database of postsecondary students and recent graduates with disabilities that is made available to Federal employers
