Methodology and Preliminary Results

Commerce is conducting this review in accordance with section 751(a)(1)(C) of the Act, which specifies that Commerce shall "review the current status of, and compliance with, any agreement by reason of which an investigation was suspended." In this case, Commerce and Ukrainian producers/exporters Azovstal, Ilyich, and Alchevsk signed the Agreement on September 29, 2008 under section 734(b) of the Act. Section 734(b) provides that Commerce may suspend an investigation if the exporters of the subject merchandise who account for substantially all of the imports of that merchandise agree to revise their prices to eliminate completely any amount by which the normal value (NV) of the merchandise which is the subject of the agreement exceeds the export price (or the constructed export price) of that merchandise. In addition, section 734(d) of the Act requires that Commerce be satisfied that suspension of the investigation is in the public interest and that effective monitoring of the agreement is practicable.

Under sections C and D of the Agreement, a signatory producer/exporter requesting NVs pursuant to the Agreement agrees not to sell its subject merchandise to any unaffiliated purchaser in the United States at prices that are less than the NV of the merchandise, as determined by Commerce based on the company's submitted sales and cost information. Azovstal and Ilyich are the only signatory producers/exporters that requested, and for which Commerce calculated, NVs during the POR. Alchevsk made no such request for NVs during the POR. Therefore, for purposes of this administrative review, Commerce determined to individually examine, and issue a questionnaire to, Azovstal and Ilyich. Commerce discusses additional business proprietary details regarding Alchevsk in a separate

proprietary memorandum.⁵ After reviewing the information submitted in its initial and supplemental questionnaire responses, we preliminarily find Azovstal and Ilyich, collectively participating as Metinvest, to be in compliance with the terms of the Agreement during the POR. A review of the information submitted demonstrates that, pursuant to sections D(1) and D(2) of the Agreement, Metinvest reported to Commerce the sales and data required by the Agreement for calculation of the NVs. Therefore, Commerce preliminarily finds Metinvest to be in compliance with the monitoring sections D(1) and D(2) of the Agreement and that the Agreement continues to meet the statutory requirement, pursuant to section 734(d)(2) of the Act of being able to be effectively monitored.

Metinvest, in its initial questionnaire response, describes how it ensures compliance with the Agreement's pricing terms and the relevant NV period in making sales directly to unaffiliated U.S. customers and in arranging shipment to the United States.⁶ A review of the information in the initial and supplemental questionnaire responses finds no evidence of non-compliance by Metinvest with respect to ensuring that subject merchandise is sold in the United States at prices that are at or above the applicable NV determined by Commerce. Therefore, Commerce preliminarily finds that the Agreement is continuing to meet the statutory requirements section of section 734(b) of the Act.

With regard to the requirements of 734(d) of the Act, Commerce preliminarily finds that the Agreement continues to be in the public interest and that effective monitoring of the Agreement continues to be practicable. As Commerce preliminarily finds no evidence during the POR that Metinvest made sales of subject merchandise below the applicable NV, Commerce preliminarily finds that the Agreement continues to benefit U.S. producers by ensuring that imports of the subject merchandise are fairly traded and are not, therefore, negatively impacting the competitiveness of the domestic industry. Moreover, as Commerce preliminarily finds no evidence of non-

compliance by Metinvest with the Agreement's extensive information reporting requirements, Commerce preliminarily finds that effective monitoring of the Agreement continues to be practicable. In addition, in the context of this administrative review, no party has alleged that the Agreement is no longer in the public interest or that the Agreement can no longer be effectively monitored. Accordingly, and in light of our preliminary finding that the respondents are in compliance with the statutory requirements of the Agreement, we preliminarily find that the Agreement continues to meet the criteria of sections 734(b) and (d) of the Act.
