CMS-10657—The State Flexibility to Stabilize the Market Grant Program

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor.

The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

**Information Collection**

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* The State Flexibility to Stabilize the Market Cycle Grant Program; *Use:* Section 1003 of the Affordable Care Act (ACA) adds a new section 2794 to the Public Health Service Act (PHS Act) entitled, "Ensuring That Consumers Get Value for Their Dollars." Specifically, section 2794(a) requires the Secretary of the Department of Health and Human Services (the Secretary) (HHS), in conjunction with the States, to establish a process for the annual review of health insurance premiums to protect consumers from unreasonable rate increases. Section 2794(c) directs the Secretary to carry out a program to award grants to States. Section 2794(c)(2)(B) specifies that any appropriated Rate Review Grant funds that are not fully obligated by the end of FY 2014 shall remain available to the Secretary for grants to States for planning and implementing the insurance market reforms and consumer protections under Part A of title XXVII of the (PHS Act). States that are awarded funds under this funding opportunity are required to provide CMS with four quarterly reports and one annual report (except for the last year of the grant) until the end of the grant period detailing the state's progression towards planning and/or implementing the pre-selected market reforms under Part A of Title XXVII of the PHS Act. A final report is due at the end of the grant period. *Form Number:* CMS-10657 (OMB control number: 0938-1366); *Frequency:* Annually and Quarterly; *Affected Public:* State, Local or Tribal Governments; *Number of Respondents:* 40; *Total Annual Responses:* 200; *Total Annual Hours:* 2,720. **SUPPLEMENTARY INFORMATION:** The Privacy Act of 1974, as amended (5 U.S.C. 552a) provides certain protections for individuals applying for and receiving federal benefits. The law governs the use of computer matching by federal agencies when records in a system of records (meaning, federal agency records about individuals retrieved by name or other personal identifier) are matched with records of other federal or non-federal agencies. The Privacy Act requires agencies involved in a matching program to:

1. Enter into a written agreement, which must be prepared in accordance with the Privacy Act, approved by the Data Integrity Board of each source and recipient federal agency, provided to Congress and the Office of Management and Budget (OMB), and made available to the public, as required by 5 U.S.C. 552a(o), (u)(3)(A), and (u)(4).
  2. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 U.S.C. 552a(o)(1)(D).
  3. Verify match findings before suspending, terminating, reducing, or making a final denial of an individual's benefits or payments or taking other adverse action against the individual, as required by 5 U.S.C. 552a(p).
  4. Report the matching program to Congress and the OMB, in advance and annually, as required by 5 U.S.C. 552a(o) (2)(A)(i), (r), and (u)(3)(D).
  5. Publish advance notice of the matching program in the **Federal Register** as required by 5 U.S.C. 552a(e)(12).
- This matching program meets these requirements.

**Barbara Demopolos,**

*Privacy Advisor, Division of Security, Privacy Policy and Governance, Office of Information Technology, Centers for Medicare & Medicaid Services.*

**Participating Agencies**

The Department of Health and Human Services (HHS), Centers for Medicare & Medicaid Services (CMS) is the

recipient agency, and the Peace Corps is the source agency.

**Authority for Conducting the Matching Program**

The principal statutory authority for the matching program is 42 U.S.C. 18001, *et seq.*

**Purpose(s)**

The purpose of the matching program is to assist CMS in determining individuals' eligibility for financial assistance in paying for private health insurance coverage. In this matching program, the Peace Corps provides CMS with data identifying all Peace Corps volunteers, which CMS makes available to state administering entities (AEs) through a data services hub, under a separate matching agreement. CMS and AEs use the Peace Corps data to verify whether an individual who is applying for or is enrolled in private health insurance coverage under a qualified health plan through a federally-facilitated or state-based health insurance exchange is eligible for coverage under a Peace Corps health benefit plan, for the purpose of determining the individual's eligibility for financial assistance (including an advance tax credit and cost sharing reduction, which are types of insurance affordability programs) in paying for private health insurance coverage. Peace Corps health benefit plans provide minimum essential coverage, and eligibility for such plans precludes eligibility for financial assistance in paying for private coverage. The data provided by the Peace Corps under this matching program will be used by CMS and AEs to authenticate identity, determine eligibility for financial assistance, and determine the amount of any financial assistance.

**Categories of Individuals**

The categories of individuals whose information is involved in the matching program are:

- Active and recently separated Peace Corps volunteers, identified in data CMS receives from the Peace Corps; and
- Consumers who apply for or are enrolled in private insurance coverage under a qualified health plan through a federally-facilitated health insurance exchange (and other relevant individuals, such as applicants' and enrollees' household members), whose records are matched against the data CMS receives from the Peace Corps.

**Categories of Records**

The categories of records which will be provided by the Peace Corps to CMS in this matching program are identity

records and minimum essential coverage period records, consisting of these data elements: Last name, middle initial, first name, and date of birth. CMS will not send any data about individual applicants/enrollees to the Peace Corps in order to receive this data about Peace Corps volunteers.
