**B. Term of Approval**

Based on our review and observations described in sections III and V of this final notice, we approve TJC as a national accreditation organization for hospices that request participation in the Medicare program. The decision announced in this final notice is effective June 18, 2021 through June 18, 2025 (4 years). Due to travel restrictions and the reprioritization of survey activities brought on by the 2019 Novel Coronavirus Disease (COVID-19) Public Health Emergency (PHE), CMS was unable to observe a hospice survey completed by TJC surveyors as part of the application review process, which is one component of the comparability evaluation. Therefore, we are providing TJC with a shorter period of approval. Based on our discussions with TJC and the information provided in its application, we are confident that TJC will continue to ensure that its accredited hospices will continue to meet or exceed Medicare standards. While TJC has taken actions based on the findings annotated in section V.A. of this final notice, (Differences Between TJC’s Standards and Requirements for Accreditation and Medicare Conditions and Survey Requirements) as authorized under § 488.8, we will continue ongoing review of TJC’s hospice survey processes and will conduct a survey observation once the COVID-19 PHE has expired.

**Proposed Information Collection Activity; Request for Assistance for Child Victims of Human Trafficking**

**ACTION:** Request for public comment.

**SUMMARY:** The Administration for Children and Families (ACF), Office on Trafficking in Persons (OTIP) is requesting a three-year extension of the form: Request for Assistance (RFA) for Child Victims of Human Trafficking (OMB #0970–0362, expiration 07/31/2021). Minor revisions have been made to the form, including the addition of a few fields that will enable the OTIP Child Protection Specialist team to better understand the child’s specific needs, connect the child to appropriate services, and help ensure the safety of the child.

**DATES:** *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects

of the information collection described above.

**ADDRESSES:** Copies of the proposed collection of information can be obtained and comments may be forwarded by emailing *infocollection@acf.hhs.gov*. Alternatively, copies can also be obtained by writing to the Administration for Children and Families, Office of Planning, Research, and Evaluation (OPRE), 330 C Street SW, Washington, DC 20201, Attn: ACF Reports Clearance Officer. All requests, emailed or written, should be identified by the title of the information collection.

**SUPPLEMENTARY INFORMATION:**

*Description:* The Trafficking Victims Protection Act (TVPA) of 2000, as amended directs the Secretary of the U.S. Department of Health and Human Services (HHS), upon receipt of credible information that a foreign national minor may have been subjected to a severe form of trafficking in persons and is seeking assistance available to victims of trafficking, to promptly determine if the child is eligible for benefits and services to the same extent as refugees. HHS delegated this authority to the Office on Trafficking in Persons (OTIP).

OTIP developed a form for case managers, attorneys, law enforcement officers, child welfare workers, and other representatives to report these trafficking concerns to HHS in accordance with the TVPA of 2000, as amended, and allow for OTIP to review the concerns and determine eligibility for benefits.

Specifically, the form asks the requester for their identifying information, identifying information for the child, and information describing the potential trafficking concerns. The form takes into consideration the need to compile information regarding a

child’s experiences in a trauma-informed and child-centered manner and assists the requester in assessing whether the child may have been subjected to a severe form of trafficking in persons.

The information provided through the completion of a Request for Assistance (RFA) for Child Victims of Human Trafficking form enables OTIP to make prompt determinations regarding a foreign national minor’s eligibility for assistance, facilitate the required consultation process should the minor receive interim assistance, and enable OTIP to assess and address potential child protection issues. OTIP also uses the information provided to respond to congressional inquiries, fulfill federal reporting requirements, and inform policy and program development that is responsive to the needs of victims.

In 2019, OTIP launched Shepherd, an online case management system, to process requests for assistance and certification on behalf of foreign national minor and adult victims of trafficking. If a requester encounters issues submitting a request through Shepherd, they may submit the RFA form to OTIP as a password protected PDF to *childtrafficking@acf.hhs.gov*.

*Respondents:* Representatives of governmental entities, members of the community, and nongovernmental entities providing social, legal, or protective services to foreign national minors in the United States who may have been subjected to severe forms of trafficking in persons. Furthermore, representatives within the community with a concern that a foreign national minor may have been subjected to severe forms of trafficking in persons may also use the RFA form.

**ANNUAL BURDEN ESTIMATES**

Instrument	Total number of respondents	Total number of responses per respondent	Average burden hours per response	Total burden hours	Annual burden hours
Request for Assistance for Child Victims of Human Trafficking .....	1,200	1	1	1,200	400

*Estimated Total Annual Burden Hours:* 400.

*Comments:* The Department specifically requests comments on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden of the proposed collection

of information; (c) the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted within 60 days of this publication.
