discretionary grant competition, the Secretary may consider, under 34 CFR 75.217(d)(3), the past performance of the applicant in carrying out a previous award, such as the applicant’s use of funds, achievement of project objectives, and compliance with grant conditions. The Secretary may also consider whether the applicant failed to submit a timely performance report or submitted a report of unacceptable quality.

In addition, in making a competitive grant award, the Secretary requires various assurances, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

For this competition, the Department has waived the peer review process for this program. Department staff will review eligible applications using the absolute priority criteria provided in this notice.

V. Risk Assessment and Specific Conditions: Consistent with 2 CFR 200.206, before awarding grants under this competition the Department conducts a review of the risks posed by applicants. Under 2 CFR 200.208, the Secretary may impose specific conditions and, under 2 CFR 3474.10, in appropriate circumstances, high-risk conditions on a grant if the applicant or grantee is not financially stable; has a history of unsatisfactory performance; has a financial or other management system that does not meet the standards in 2 CFR part 200, subpart D; has not fulfilled the conditions of a prior grant; or is otherwise not responsible.

6. Integrity and Performance System: If you are selected under this competition to receive an award that over the course of the project period may exceed the simplified acquisition threshold (currently $250,000), under 2 CFR 200.206(a)(2) we must make a judgment about your integrity, business ethics, and record of performance under Federal awards—that is, the risk posed by you as an applicant—before we make an award. In doing so, we must consider any information about you that is in the integrity and performance system (currently referred to as the Federal Award Recipient Performance and Integrity Information System (FAPIS)), accessible through the System for Award Management. You may review and comment on any information about yourself that a Federal agency previously entered and that is currently in FAPIS.

Please note that, if the total value of your currently active grants, cooperative agreements, and procurement contracts from the Federal Government exceeds $10,000,000, the reporting requirements in 2 CFR part 200, Appendix XII, require you to report certain integrity information to FAPIS semiannually. Please review the requirements in 2 CFR part 200, Appendix XII, if this grant plus all the other Federal funds you receive exceed $10,000,000.

VI. Award Administration Information

1. Award Notices: If your application is successful, the individuals listed as the Authorizing Representative and Director will receive a Grant Award Notification (GAN); or we may send you an email containing a link to access an electronic version of your GAN.

If your application is not evaluated or not selected for funding, we will notify you.

2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. Reporting: Reporting requirements are specified in each program’s Certification and Agreement or Supplemental Agreement.

(b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multiyear award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c).

VI. Other Information

Accessible Format: On request to the program contact person listed under FOR FURTHER INFORMATION CONTACT, individuals with disabilities can obtain this document and a copy of the application package in an accessible format. The Department will provide the requester with an accessible format that may include Rich Text Format (RTF) or text format (txt), a thumb drive, an MP3 file, braille, large print, audiotape, or compact disc, or other accessible format. Electronic copies of this Document: The official version of this document is the document published in the Federal Register. You may access the official edition of the Federal Register and the Code of Federal Regulations at www.govinfo.gov. At this site you can view this document, as well as all other documents of this Department published in the Federal Register, in text or Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at the site.

You may also access documents of the Department published in the Federal Register by using the article search feature at: www.federalregister.gov. Specifically, through the advanced search feature at this site, you can limit your search to documents published by the Department.

Michelle Asha Cooper,
Acting Assistant Secretary for Postsecondary Education.

DEPARTMENT OF EDUCATION
[Docket No. ED–2021–SCC–0002]

Agency Information Collection Activities: Submission to the Office of Management and Budget for Review and Approval; Comment Request; Migrant Student Information Exchange User Application Form

AGENCY: Office of Elementary and Secondary Education (OESE), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is proposing an extension without change of a currently approved collection.

DATES: Interested persons are invited to submit comments on or before April 28, 2021.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this information collection request by selecting “Department of Education” under “Currently Under Review,” then check “Only Show ICR for Public Comment” checkbox. Comments may also be sent to ICDocketmgr@ed.gov.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Benjamin Starr, (202) 245–8116.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in
Notice of Request for Information (RFI) on Risks in the High-Capacity Batteries, Including Electric Vehicle Batteries Supply Chain

DEPARTMENT OF ENERGY

ACTION: Request for information (RFI).

SUMMARY: On February 24, 2021, President Biden issued an Executive order directing several Federal agency actions to secure and strengthen America’s supply chains. One of these directions is for the Secretary of Energy to submit, within 100 days, a report to the President identifying risks in the high-capacity batteries, including electric-vehicle batteries, supply chain and policy recommendations to address these risks. The U.S. Department of Energy (DOE or Department) invites public comment on its Request for Information (RFI) number DE–F0A–0002502 regarding the Risks in the High-Capacity Batteries, including Electric Vehicle Batteries Supply Chain.

DATES: Responses to the RFI must be received by April 14, 2021.

FOR FURTHER INFORMATION CONTACT: Questions may be addressed to VTO@ee.doe.gov or to Samuel Gillard at 202–287–5849.

SUPPLEMENTARY INFORMATION:

Background

On February 24, 2021, President Biden issued Executive Order 14017, “America’s Supply Chains” (86 FR 11849). E.O. 14017 focuses on the need for resilient, diverse, and secure supply chains to ensure U.S. economic prosperity and national security. Such supply chains are needed to address conditions that can reduce critical manufacturing capacity and the availability and integrity of critical goods, products, and services. In relevant part, E.O. 14017 directs that within 100 days, the Secretary shall submit a report to the President, through the Assistant to the President for National Security Affairs (APNNSA) and the Assistant to the President for Economic Policy (APEP), identifying the risks in the supply chain for high-capacity batteries, including electric vehicle batteries, and policy recommendations to address these risks.

Written Comments

The Department is particularly interested in information directed to the policy objectives listed in E.O. 14017 as they affect the supply chain for high-capacity batteries, including electric vehicle batteries, including but not limited to the following elements:

(i) Critical materials including battery grade nickel, cobalt and lithium, underlying the supply chain for high-capacity batteries, including electric vehicle batteries;

(ii) Manufacturing and other capabilities necessary to produce high-capacity batteries, including extraction of raw materials, refining, production of advanced cathode and anode powders, separators, electrolytes, current collectors and advanced recycling technologies for high-capacity batteries;

(iii) The availability of the key skill sets and personnel necessary to sustain a competitive U.S. high-capacity batteries ecosystem, including the domestic education and manufacturing workforce skills needed for high-capacity battery manufacturing; the skills gaps therein, and any opportunities to meet future workforce needs;

(iv) Risks or contingencies that may disrupt the high-capacity batteries supply chain (including defense, intelligence, cyber, homeland security, health, climate, environmental, natural, market, economic, geopolitical, human-rights or forced labor risks):

(a) Risks resulting from lack of or failure to develop domestic manufacturing capabilities, including emerging capabilities;

(v) The resilience and capacity of the high-capacity battery supply chain to support national and economic security and emergency preparedness, including:

(a) Manufacturing, recycling, or other needed capacities (including ability to modernize to meet future needs); and

(b) Gaps in manufacturing capabilities leading to nonexistent, threatened, or single-point-of-failure capabilities, or single or dual suppliers;
