Abstract: Enrollment data is an important source of information which allows the Indian Affairs and other Federal agencies to equitably distribute resources because it is a quantifiable representation of a Tribe's population. Different population sizes generally require different levels of services and resources. BIA must collect this information immediately to ensure effective, accurate, and timely distribution of assistance to respond to the coronavirus pandemic in Indian Country, as provided in the American Rescue Plan which was recently signed into law. Specifically, enrollment data will be a primary data source to inform Indian Affairs' allocation of \$900 million in assistance to Tribal nations, as well as \$19 billion to be distributed by the Department of the Treasury. Timely collection is especially critical as Treasury must allocate their funding within 60 days of enactment of the American Rescue Plan.

BIA must collect this information immediately to ensure effective, accurate, and timely distribution of assistance to respond to the coronavirus pandemic in Indian Country, as provided in the American Rescue Plan.

An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq*).
