**Abstract:** Enrollment data is an  
important source of information which  
allows the Indian Affairs and other  
Federal agencies to equitably distribute  
resources because it is a quantifiable  
representation of a Tribe's population.  
Different population sizes generally  
require different levels of services and  
resources. BIA must collect this  
information immediately to ensure  
effective, accurate, and timely  
distribution of assistance to respond to  
the coronavirus pandemic in Indian  
Country, as provided in the American  
Rescue Plan which was recently signed  
into law. Specifically, enrollment data  
will be a primary data source to inform  
Indian Affairs' allocation of \$900  
million in assistance to Tribal nations,  
as well as \$19 billion to be distributed  
by the Department of the Treasury.  
Timely collection is especially critical  
as Treasury must allocate their funding  
within 60 days of enactment of the  
American Rescue Plan.
