#### 33 CFR Part 96

#### 46 CFR Parts 71, 115, and 176

[Docket No. USCG-2020-0123]

RIN 1625-AC65

### Safety Management Systems for Domestic Passenger Vessels

**AGENCY:** Coast Guard, DHS.

**ACTION:** Advance notice of proposed rulemaking; extension of comment period.

**SUMMARY:** The Coast Guard is extending the comment period for the advance notice of proposed rulemaking published January 15, 2021, that seeks comments on the potential use of Safety Management Systems to improve safety and reduce marine casualties on board U.S.-flagged passenger vessels. We are extending the comment period an additional 45 days, to June 1, 2021.

**DATES:** The comment period for the advance notice of proposed rulemaking published January 15, 2021, 86 FR 3899, is extended. Comments must be received by the Coast Guard on or before June 1, 2021.

**FOR FURTHER INFORMATION CONTACT:** For information about this document, call or email Lieutenant Kimberly Gates, Vessel and Facility Operating Standards Division (CG-OES-2), U.S. Coast Guard, 2703 Martin Luther King Jr. Avenue SE, Washington, DC 20593; telephone 202-372-1455, email [kimberly.m.gates@uscg.mil](mailto:kimberly.m.gates@uscg.mil).

**SUPPLEMENTARY INFORMATION:** The Coast Guard received a request to extend the comment period for an additional 45 days on its advance notice of proposed rulemaking (ANPRM) entitled "Safety Management Systems for Domestic Passenger Vessels," that was published January 15, 2021 (86 FR 3899). The requester cited ongoing COVID-19 impacts and that vessel owners and operators of the potentially affected population are impacted operationally. In response to this request, we are extending the comment period to June 1, 2021.

The Coast Guard is evaluating the potential use of Safety Management Systems (SMSs) to improve safety and reduce marine casualties on board U.S.-flagged passenger vessels. The ANPRM published January 15, 2021, seeks public input and responses to specific questions on the feasibility, applicability, and nature of Safety Management Systems for potential use on U.S.-flagged passenger vessels. The Coast Guard may use this information to develop a proposed rule.

On March 1, 2021, we published a correction (86 FR 11913) to one of the questions in the ANPRM. The corrected Question 19 now reads: "How would the costs and benefits of expanding other existing regulations, as detailed in question 6, differ from the costs and benefits of requiring SMSs for all passenger vessels?"

We encourage you to submit comments through the Federal eRulemaking Portal at <https://www.regulations.gov>. If you cannot submit your material by using <https://www.regulations.gov>, call or email the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

The ANPRM and public comments in response to it are available in our online docket at <https://www.regulations.gov>, and can be viewed by following that website's instructions. We review all comments received, but we will only post comments that address the topic of the ANPRM. We may choose not to post off-topic, inappropriate, or duplicate comments that we receive. Additionally, if you visit the online docket and sign up for email alerts, you will be notified when comments or additional documents are posted. The Coast Guard will not issue a separate response to the comments received, but will carefully consider each comment and will address them in a proposed rule if one is developed.

We accept anonymous comments. Comments we post to <https://www.regulations.gov> will include any personal information you have provided. For more about privacy and submissions in response to this document, see the Department of Homeland Security's eRulemaking System of Records notice (85 FR 14226, March 11, 2020).

Dated: March 19, 2021.

## DEPARTMENT OF HOMELAND SECURITY

### Coast Guard

#### 33 CFR Part 110

[Docket Number USCG-2020-0620]

### Anchorage Ground; Approaches to New York, Ambrose, Long Beach, NY

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notification of inquiry; request for comments.

**SUMMARY:** We are requesting public comments regarding the potential establishment of an anchorage ground in an area referred to by mariners as the "Ambrose anchorage," which is an offshore area that has been used by ships awaiting inshore anchorages or berths. The area is located in the approaches to New York, approximately 3 nautical miles south of Long Beach, New York, and just north of the Nantucket to Ambrose Traffic Lane. The Coast Guard is considering formally establishing an anchorage ground at this location, possibly with regulations governing its use, if doing so will improve navigation safety and enhance safe and efficient flow of vessel traffic and commerce. We are seeking your comments on the benefits and impacts of establishing a regulated anchorage ground, and if so, what types of requirements we should consider for the Coast Guard oversight of the anchorage ground.

**DATES:** Your comments and related material must reach the Coast Guard on or before June 1, 2021. Commenters should be aware that the electronic Federal Docket Management System will not accept comments after midnight Eastern Daylight Time on the last day of the comment period. Although the Coast Guard prefers and highly encourages all comments and related material be submitted directly to the electronic docket, two virtual public meetings will be held via webinar and teleconference to provide an opportunity for oral comments regarding the possible establishment of an anchorage ground, often informally referred to as the "Ambrose anchorage" on Wednesday, April 21, 2021, beginning at 9 a.m. EST, and on Tuesday, April 27, 2021, beginning at 5 p.m. EST.

**ADDRESSES:** You may submit comments identified by docket number USCG-2020-0620 using the Federal portal at <https://www.regulations.gov>. See the "Public Participation and Request for Comments" portion of the **SUPPLEMENTARY INFORMATION** section for
