

or functionality and seeks to obtain in-depth feedback from users on the common registration form, additional application requirements, and data reports available.

**Estimate of Burden:** At present, most education and training opportunities funded by NSF use applications that are submitted directly to each Site, if such applications are required as is the case with the REU Sites program. Sites might run competitive and noncompetitive applications to select their program participants. We estimate that individuals applying for noncompetitive Sites will spend 3.25 hours submitting information through the ETAP system; for competitive Sites, this estimate is 7 hours. We estimate that individuals writing letters of reference for students will spend 0.5 hours drafting a letter in support of a student's application to a competitive Site. We estimate that PIs (or their designated users) will spend 4.7 hours using the system to track and manage applications to their Site.

**Respondents:** Individuals.

**Estimated Number of Respondents:** 66,499.

**Estimated Total Annual Burden on Respondents:** 146,710 hours.

**Frequency of Responses:** Three rounds of data collection.

Dated: March 26, 2021.

## NATIONAL SCIENCE FOUNDATION

### Sunshine Act Meeting

The National Science Board's ad hoc Committee on Nominating the NSB Class of 2022-2028, hereby gives notice of the scheduling of a teleconference for the transaction of National Science Board business, as follows:

**TIME AND DATE:** Monday, April 5, 2021, from 3:30-5:00 p.m. EDT.

**PLACE:** This meeting will be held by teleconference through the National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314.

**STATUS:** Closed.

**MATTERS TO BE CONSIDERED:** The agenda of the teleconference is: Chair's welcome and remarks; presentation of the Committee charge; discussion of timeline; discussion and approval of NSB C/O 2022-2028 nominee attributes; questions; and action item review.

**CONTACT PERSON FOR MORE INFORMATION:** Point of contact for this meeting is: Chris Blair, [cblair@nsf.gov](mailto:cblair@nsf.gov), 703/292-

7000. Meeting information and updates may be found at <http://www.nsf.gov/nsb/meetings/notices.jsp#sunshine>. Please refer to the National Science Board website [www.nsf.gov/nsb](http://www.nsf.gov/nsb) for general information.

**Chris Blair,**

*Executive Assistant to the National Science Board Office.*

## NUCLEAR REGULATORY COMMISSION

[NRC-2021-0059]

### Environmental Assessments and Findings of No Significant Impact of Independent Spent Fuel Storage Facilities Decommissioning Funding Plans

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Environmental assessment and finding of no significant impact; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is publishing this notice regarding the issuance of a Final Environmental Assessment (EA) and a Finding of No Significant Impact (FONSI) for its review and approval of the initial and updated decommissioning funding plans (DFPs) submitted by independent spent fuel storage installation (ISFSI) licensees for the ISFSIs listed in the "Discussion" section of this document.

**DATES:** The EA and FONSI referenced in this document are available on April 1, 2021.

**ADDRESSES:** Please refer to Docket ID NRC-2021-0059 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC-2021-0059. Address questions about Docket IDs in [Regulations.gov](https://www.regulations.gov) to Stacy Schumann; telephone: 301-415-0624; email: [Stacy.Schumann@nrc.gov](mailto:Stacy.Schumann@nrc.gov). For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/>

*adams.html*. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov). The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at [pdr.resource@nrc.gov](mailto:pdr.resource@nrc.gov) or call 1-800-397-4209 or 301-415-4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

#### FOR FURTHER INFORMATION CONTACT:

Christian Jacobs, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-6825, email: [Christian.Jacobs@nrc.gov](mailto:Christian.Jacobs@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

#### I. Introduction

The NRC is considering the approval of the initial and updated DFPs submitted by ISFSI licensees. The NRC staff has prepared a Final EA and FONSI determination for each of the initial and updated ISFSI DFPs in accordance with the NRC regulations in Part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions," which implement the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

The NRC requires its licensees to plan for the eventual decommissioning of their licensed facilities prior to license termination. On June 17, 2011, the NRC published a final rule in the **Federal Register** amending its decommissioning planning regulations (76 FR 35512). The final rule amended the NRC regulation, 10 CFR 72.30, which concerns financial assurance and decommissioning for ISFSIs. This regulation requires each holder of, or applicant for, a license under 10 CFR part 72 to submit a DFP for the NRC's review and approval. The DFP is to demonstrate the licensee's financial assurance, *i.e.*, that funds will be available to decommission the ISFSI. The NRC staff will later publish its financial analyses of the DFP submittals which will be available for public inspection in ADAMS.

#### II. Discussion

The following table includes the plant name, docket number, licensee, and

ADAMS Accession Number for the Final EA and FONSI determination for each of the individual ISFSIs. The table also includes the ADAMS Accession Numbers for other relevant documents, including the initial and updated DFP

submittals. For further details with respect to these actions, see the NRC staff's Final EA and FONSI determinations which are available for public inspection in ADAMS and at <https://www.regulations.gov> under

Docket ID NRC-2021-0059. For additional direction on accessing information related to this document, see the **ADDRESSES** section of this document.

FINDING OF NO SIGNIFICANT IMPACT

<p>Facility .....                  Docket No. ....                  Licensee .....                  Proposed Action .....</p>	<p>Monticello Nuclear Generating Plant.                  72-58.                  Northern States Power Company, a Minnesota corporation, doing business as Xcel Energy (Xcel).                  The NRC's review and approval of Xcel's initial and updated DFPs submitted in accordance with 10 CFR 72.30(b) and (c).                  The NRC staff has determined that the proposed action, the review and approval of Xcel's initial and updated DFPs, submitted in accordance with 10 CFR 72.30(b) and (c), will not authorize changes to licensed operations or maintenance activities, or result in changes in the types, characteristics, or quantities of radiological or non-radiological effluents released into the environment from the ISFSI, or result in the creation of solid waste. Moreover, the approval of the initial and updated DFPs will not authorize any construction activity, facility modification, or other land-disturbing activity. The NRC staff has concluded that the proposed action is a procedural and administrative action that will not have a significant impact on the environment.                  The proposed action does not require changes to the ISFSI's licensed routine operations, maintenance activities, or monitoring programs, nor does it require new construction or land-disturbing activities. The scope of the proposed action concerns only the NRC's review and approval of Xcel's initial and updated DFPs. The scope of the proposed action does not include, and will not result in, the review and approval of decontamination or decommissioning activities or license termination for the ISFSI or for other parts of Monticello Nuclear Generating Plant. Therefore, the NRC staff determined that approval of the initial and updated DFPs for the Monticello Nuclear Generating Plant ISFSI will not significantly affect the quality of the human environment, and accordingly, the staff has concluded that a FONSI is appropriate. The NRC staff further finds that preparation of an environmental impact statement (EIS) is not required.                  Xcel Energy, 2012. ISFSI Decommissioning Planning, dated December 14, 2012. ADAMS Accession No. ML12353A292.                  Xcel Energy, 2015. ISFSI DFPs, dated December 11, 2015. ADAMS Accession No. ML15348A143.                  U.S. Nuclear Regulatory Commission. EA for Final Rule-Decommissioning Planning, dated February 1, 2009. ADAMS Accession No. ML090500648.                  U.S. Nuclear Regulatory Commission. Note to File, Re: ESA Section 7 No Effect Determination for ISFSI DFP Reviews, dated May 15, 2017. ADAMS Accession No. ML17135A062.                  U.S. Nuclear Regulatory Commission. Review of the Draft EA and FONSI for the Monticello Nuclear Generating Plant ISFSI DFP, dated September 26, 2016. ADAMS Accession No. ML16270A075.                  U.S. Nuclear Regulatory Commission. Final EA and FONSI for the Northern States Power Company's Initial and Updated DFPs Submitted in Accordance with 10 CFR 72.30(b) and (c) for Monticello Nuclear Generating Plant ISFSI, dated March 25, 2021. ADAMS Accession Package No. ML21055A733.</p>
<p>Environmental Impact of Proposed Action.</p>	<p>The NRC staff has determined that the proposed action, the review and approval of Xcel's initial and updated DFPs, submitted in accordance with 10 CFR 72.30(b) and (c), will not authorize changes to licensed operations or maintenance activities, or result in changes in the types, characteristics, or quantities of radiological or non-radiological effluents released into the environment from the ISFSI, or result in the creation of solid waste. Moreover, the approval of the initial and updated DFPs will not authorize any construction activity, facility modification, or other land-disturbing activity. The NRC staff has concluded that the proposed action is a procedural and administrative action that will not have a significant impact on the environment.</p>
<p>Finding of No Significant Impact .....</p>	<p>The proposed action does not require changes to the ISFSI's licensed routine operations, maintenance activities, or monitoring programs, nor does it require new construction or land-disturbing activities. The scope of the proposed action concerns only the NRC's review and approval of Xcel's initial and updated DFPs. The scope of the proposed action does not include, and will not result in, the review and approval of decontamination or decommissioning activities or license termination for the ISFSI or for other parts of Prairie Island Nuclear Generating Plant, Units 1 and 2. Therefore, the NRC staff determined that approval of the initial and updated DFPs for the Prairie Island Nuclear Generating Plant, Units 1 and 2, ISFSI will not significantly affect the quality of the human environment, and accordingly, the staff has concluded that a FONSI is appropriate. The NRC staff further finds that preparation of an environmental impact statement (EIS) is not required.</p>

**BILLING CODE 7590-01-P**

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-423; NRC-2021-0085]

**Dominion Energy Nuclear Connecticut, Inc.; Millstone Power Station, Unit 3**

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** License amendment application; opportunity to comment, request a

hearing, and petition for leave to intervene; order.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Renewed Facility Operating License No. NPF-49, issued to Dominion Energy Nuclear Connecticut, Inc., for operation of the Millstone Power Station, Unit 3 (MPS3). The proposed amendment would revise the renewed facility operating license and technical specifications (TSs) to support a measurement uncertainty recapture power uprate from 3,650 megawatts thermal (MWt) to 3,709 MWt. For this amendment request, the NRC proposes to determine that it involves no significant hazards consideration. Because this amendment request contains sensitive unclassified non-safeguards information (SUNSI), an

order imposes procedures to obtain access to SUNSI for contention preparation. The proposed amendment was previously noticed on January 26, 2021 (86 FR 7115), and is being re-noticed to include the instructions for requesting access to SUNSI.

**DATES:** Submit comments by May 3, 2021. A request for a hearing or petitions for leave to intervene must be filed by June 1, 2021. Any potential party as defined in section 2.4 of title 10 of the *Code of Federal Regulations* (10 CFR) who believes access to SUNSI is necessary to respond to this notice must request document access by April 12, 2021.

**ADDRESSES:** You may submit comments by any of the following methods; however, the NRC encourages electronic
