I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for personnel preparation in special education, early intervention, related services, and regular education to work with children, including infants and toddlers, with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research and experience, to be successful in serving those children.

Priorities: This competition includes two absolute priorities and two competitive preference priorities. In accordance with 34 CFR 75.105(b)(2)(v), the absolute priorities and competitive preference priorities are from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA); 20 U.S.C. 1462 and 1481).

Absolute Priorities: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), we consider only applications that meet either Absolute Priority 1 or Absolute Priority 2. Applicants may apply under both absolute priorities but must submit separate applications if they do so.

These priorities are:

Absolute Priority 1—Preparation of Special Education, Early Intervention, and Related Services Faculty.

Background:

The purpose of this priority is to support existing doctoral degree programs that prepare special education, early intervention, and related services personnel who are well-qualified for, and can act effectively in, leadership positions as researchers and preparers of special education, early intervention, and related services personnel in institutions of higher education (IHEs). There is a well-documented need for leadership personnel to fill faculty positions within IHEs in special education, early intervention, and related services (Castillo et al., 2014; Montrosse & Young, 2012; Robb et al., 2012; Smith et al., 2011; Smith et al., 2010; Woods & Snyder, 2009).
