

Please include with your comments any supporting data or literature citations to help inform NMFS' final decision on the request for MMPA authorization.

On a case-by-case basis, NMFS may issue a one-time, 1-year IHA renewal with an expedited public comment period (15 days) when: (1) Another year of identical or nearly identical activities as described in the Specified Activities section is planned or (2) the activities would not be completed by the time the IHA expires and a second IHA would allow for completion of the activities beyond that described in the *Dates and Duration* section, provided all of the following conditions are met:

- A request for renewal is received no later than 60 days prior to expiration of the current IHA;
- The request for renewal must include the following:

(1) An explanation that the activities to be conducted under the proposed renewal are identical to the activities analyzed under the initial IHA, are a subset of the activities, or include changes so minor (e.g., reduction in pile size) that the changes do not affect the previous analyses, mitigation and monitoring requirements, or take estimates (with the exception of reducing the type or amount of take because only a subset of the initially analyzed activities remain to be completed under the renewal); and

(2) A preliminary monitoring report showing the results of the required impacts of a scale or nature not previously analyzed or authorized;

- Upon review of the request for renewal, the status of the affected species or stocks, and any other pertinent information, NMFS determines that there are no more than minor changes in the activities, the mitigation and monitoring measures will remain the same and appropriate, and the findings in the initial IHA remain valid.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XA995]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice, extension of comment period.

SUMMARY: NMFS is extending the public comment period for the Notice of Intent (NoI) to prepare the Western Oregon State Forests Habitat Conservation Plan (WOSF HCP) Environmental Impact Statement (EIS). We, NMFS, intend to prepare an EIS, in accordance with the requirements of the National Environmental Policy Act (NEPA), to analyze the potential impacts on the human (biological, physical, social, and economic) environment caused by the WOSF HCP and a range of reasonable alternatives. The primary purpose of the comment period is to engage Federal, Tribal, State, and local governments and the public in the identification of issues and concerns, potential impacts, and reasonable alternatives to the proposed action that meet the purpose and need for consideration in the draft EIS.

DATES: The original NoI issued on March 8, 2021 (86 FR 13337), provided for a comment period to end on Wednesday, April 7, 2021. The comment period is now extended 14 days and will close Wednesday, April 21, 2021. Comments must be received at the appropriate address (see **ADDRESSES**) no later than 11:59 p.m. Eastern time on April 21, 2021. Comments received after this date may not be accepted. Comments submitted prior to this announcement do not need to be resubmitted as a result of the extension of the comment period.

ADDRESSES: You may submit comments on this document, identified by NOAA-NMFS-2021-0019, by Electronic Submission: Submit all electronic public comments via the Federal e-Rulemaking Portal. Go to <https://www.regulations.gov> and enter NOAA-NMFS-2021-0019 in the Search box. Click on the "Comment" icon, complete the required fields, and enter or attach your comments.

Instructions: Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered by NMFS. All comments received are a part of the public record and will generally be posted for public viewing on www.regulations.gov without change. All personal identifying information (e.g., name, address, etc.), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter "N/

A" in the required fields if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Michelle McMullin, NMFS, 541-957-3378, Michelle.McMullin@noaa.gov. Additional information can be found on the project website: <https://www.fisheries.noaa.gov/action/notice-intent-prepare-environmental-impact-statement-western-oregon-state-forest-habitat>. In addition to this **Federal Register** notice, NMFS will post a notice of the extension on its website and will send an email to interested parties.

SUPPLEMENTARY INFORMATION: The WOSF HCP is being prepared in support of a request for Endangered Species Act (ESA) incidental take permits (ITPs) authorizing incidental take of covered species by covered activities. The applicant for the ITPs is the Oregon Department of Forestry (ODF). Under the proposed action, NMFS and USFWS would approve the WOSF HCP and issue ITPs with 70-year permit terms to the ODF for incidental take of covered species from covered activities in the plan area.

The primary purpose of the scoping process is for the public to assist NMFS in developing the EIS. NMFS requests that the comments be specific. In particular, we request information regarding: Any science that is relevant and not yet incorporated, any interpretation of science that is different than what is presented; significant issues; identification of impacts that are not fully off-set; review and input regarding monitoring; possible alternatives that meet the purpose and need; effects or impacts to the human environment from the proposed action or alternatives; and potential terms and conditions that may minimize adverse effects, including time or area restrictions or both to reduce environmental impacts.

We are using this process to seek alternatives, which may include, but are not limited to variation in the length of the permit term; adding or removing some of the covered species; the level of take allowed; the level, location, or type of minimization, mitigation, or monitoring provided under the HCP; the scope of covered activities; the location, amount or type of conservation, or similar aspects of the permit conditions. Further information is contained in the NoI (86 FR 13337).

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for personnel preparation in special education, early intervention, related services, and regular education to work with children, including infants and toddlers, with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically based research and experience, to be successful in serving those children.

Priorities: This competition includes two absolute priorities and two competitive preference priorities. In accordance with 34 CFR 75.105(b)(2)(v), the absolute priorities and competitive preference priorities are from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA); 20 U.S.C. 1462 and 1481).

Absolute Priorities: For FY 2021 and any subsequent year in which we make awards from the list of unfunded applications from this competition, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), we consider only applications that meet either Absolute Priority 1 or Absolute Priority 2. Applicants may apply under both absolute priorities but must submit separate applications if they do so.

These priorities are:

Absolute Priority 1—Preparation of Special Education, Early Intervention, and Related Services Faculty.

Background:

The purpose of this priority is to support existing doctoral degree programs that prepare special education, early intervention, and related services personnel who are well-qualified for, and can act effectively in, leadership positions as researchers and preparers of special education, early intervention, and related services personnel in institutions of higher education (IHEs). There is a well-documented need for leadership personnel to fill faculty positions within IHEs in special education, early intervention, and related services (Castillo et al., 2014; Montrosse & Young, 2012; Robb et al., 2012; Smith et al., 2011; Smith et al., 2010; Woods & Snyder, 2009). These leaders conduct

Record of Decision for the United States Air Force Special Use Airspace Optimization at Holloman Air Force Base Environmental Impact Statement

AGENCY: Department of the Air Force, DoD.

ACTION: Notice of availability of record of decision.

SUMMARY: On March 29, 2021, the Department of the Air Force (DAF) signed the Record of Decision (ROD) for the Special Use Airspace Optimization at Holloman Air Force Base Environmental Impact Statement.

ADDRESSES: Ms. Robin Divine, AFCEC/CZN, 2261 Hughes Avenue, Suite 155, JBASA—Lackland Air Force Base, Texas 78236-9853, (210) 925-2730; robin.divine@us.af.mil.

SUPPLEMENTARY INFORMATION: The Department of the Air Force has decided to expand the lateral and vertical boundaries of the existing Talon Military Operations Area (MOA) and associated Air Traffic Control Assigned Airspace (ATCAA) in eastern New Mexico. The expanded MOA/ATCAA will support training for pilots stationed at Holloman Air Force Base.

The DAF decision documented in the ROD was based on matters discussed in the Final Environmental Impact Statement, inputs from the cooperating agencies, Native American Tribes, members of the public, and regulatory agencies, and other relevant factors. The Final Environmental Impact Statement was made available to the public on February 5, 2021 through a Notice of Availability in the **Federal Register** (Volume 86, Number 23, page 8356) with a waiting period that ended on March 8, 2021.

Authority: This Notice of Availability is published pursuant to the regulations (40 CFR part 1506.6) implementing the provisions of the National Environmental Policy Act (42 U.S.C. 4321, *et seq.*) and the Air Force's Environmental Impact Analysis
