Federal Energy Regulatory Commission

[Docket No. AD21-10-000]

Modernizing Electricity Market Design; Notice Inviting Post-Technical Conference Comments

On March 23, 2021, the Federal Energy Regulation Commission (Commission) convened a Commissioner-led technical conference to discuss the role of the capacity market constructs in PJM Interconnection, L.L.C. (PJM), ISO New England Inc., and New York Independent System Operator, Inc. in an environment where state policies increasingly affect resource entry and exit. The technical conference included the discussion on the implications of retaining the expanded minimum offer price rule (Expanded MOPR) in the PJM capacity market, as well as prospective alternative approaches that could replace PJM's Expanded MOPR.

All interested persons are invited to file initial and reply post-technical conference comments on the topics in Parts I and II below. Commenters may reference material previously filed in this docket, including the technical conference transcript, but are encouraged to avoid repetition or replication of previous material. Commenters need not answer all of the questions, but commenters are encouraged to organize responses using the numbering and order in the below questions. Commenters are encouraged to limit their responses to the questions identified below and not provide significant background or other material. Initial comments must be submitted on or before April 26, 2021. Reply comments must be submitted on or before May 10, 2021. Initial comments should not exceed 25 pages and reply comments should not exceed 15 pages. PJM's initial and reply comments are not subject to these page limitations.

I. Comments on Supplemental Notice

We are seeking comments on the topics discussed during the technical conference, including responses to the questions listed in the Supplemental Notice issued in this proceeding on
