

will provide moderated exercises where participants will walk through the process identified in the framework document, with two selected Federal 5G use cases. The workshop will be held virtually on April 27–28, 2021 from 10 a.m. (ET) to 1:30 p.m. (ET) each day.

Objectives

- Provide an overview of the process (“How to use the framework to build a test capability”) as well as the testing framework modules or elements in the 5G testing framework whitepaper, needed to conduct 5G testing for different use cases.

- Learn about federal 5G use cases and requirements from key stakeholders.

- Hear from the testbed vendor and research community about the requirements, resources, approaches of building or operating a 5G infrastructure testbed (with discussion of the capabilities and main modules in Radio Access Networks (RAN) and core), specifically for two innovative 5G use cases: Smart Warehouse and Unmanned Aerial Vehicle (UAV)/Drone.

- Learn more about the real-world methodologies of developing 5G testing cases with key performance indicators or testing metrics as well as of conducting 5G testing and experimentation with the 5G infrastructure testbed from the testbed vendors’ and researchers’ viewpoint. What are the challenges encountered?

- Collaborate with 5G testbed vendor and researcher community to understand how the 5G testbed framework whitepaper would add value. What aspects of the whitepaper do the testbed vendors and researchers find most useful in helping to build a 5G testbed, develop 5G testing cases, and conduct 5G testing? What are the lessons learned or gaps when applying the 5G testbed framework to real-world 5G testing and experimentation?

Intended Outcome

The intended outcomes of this workshop are to build awareness of the critical need for evolving 5G best-in-class test practices, and to connect 5G labs or testbeds with Federal agencies and 5G component vendors.

Submitted by the National Science Foundation in support of the Networking and Information Technology Research and Development

(NITRD) National Coordination Office (NCO) on April 7, 2021.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0236]

Information Collection: Licenses and Radiation Safety Requirements for Irradiators

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of submission to the Office of Management and Budget; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently submitted a request for renewal of an existing collection of information to the Office of Management and Budget (OMB) for review. The information collection is entitled, “Licenses and Radiation Safety Requirements for Irradiators.”

DATES: Submit comments by May 12, 2021. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—Open for Public Comments” or by using the search function.

FOR FURTHER INFORMATION CONTACT: David Cullison, NRC Clearance Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: Infocollects.Resource@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2020–0236 when contacting the NRC about the availability of information for this action. You may obtain publicly available information related to this action by any of the following methods; however, the NRC encourages electronic

comment submission through the Federal Rulemaking website:

- *Federal Rulemaking Website:* Go to <https://www.regulations.gov/> and search for Docket ID NRC–2020–0236. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2020–0236 on this website.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The supporting statement is available in ADAMS under Accession No. ML21054A043.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

- *NRC’s Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC’s Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC–2020–0236, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment

submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “10 CFR Part 36, Licenses and Radiation Safety Requirements for Irradiators.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on December 10, 2020, 85 FR 79531.

1. *The title of the information collection:* 10 CFR part 36, “Licenses and Radiation Safety Requirements for Irradiators.”

2. *OMB approval number:* 3150–0158.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* N/A.

5. *How often the collection is required or requested:* Applications for new licenses and amendment may be submitted at any time (on occasion). Applications for renewal are submitted every 15 years. Reports are submitted as events occur.

6. *Who will be required or asked to respond:* Applicants for and holders of specific licenses authorizing the use of licensed material for irradiators.

7. *The estimated number of annual responses:* 2,396.

8. *The estimated number of annual respondents:* 70.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 39,836.

10. *Abstract:* Part 36 of title 10 of the *Code of Federal Regulations*, establishes radiation safety requirements for the use of radioactive material for irradiators. The information in the applications, reports, and records is used by the NRC staff to ensure that the health and safety of the public is protected and that the licensee possession and use of source or byproduct material is in compliance with license and regulatory requirements.

Dated: April 7, 2021.

For the Nuclear Regulatory Commission.

David C. Cullison,

NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2021–0073]

Environmental Assessments and Findings of No Significant Impact of Independent Spent Fuel Storage Facilities Decommissioning Funding Plans

AGENCY: Nuclear Regulatory Commission.

ACTION: Environmental assessment and finding of no significant impact; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is publishing this notice regarding the issuance of a final Environmental Assessment (EA) and a Finding of No Significant Impact (FONSI) for its review and approval of the initial decommissioning funding plans (DFPs) submitted by independent spent fuel storage installation (ISFSI) licensees for the ISFSIs listed in the “Discussion” section of this document.

DATES: The EA and FONSI referenced in this document are available on April 12, 2021.

ADDRESSES: Please refer to Docket ID NRC–2021–0073 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2021–0073. Address questions about Docket IDs in *Regulations.gov* to Stacy Schumann: 301–415–0624; email:

Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC’s Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to *pdr.resource@nrc.gov*. The ADAMS accession number

for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- *Attention:* The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at *pdr.resource@nrc.gov* or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Yen-Ju Chen, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–1018, email: *Yen-Ju.Chen@nrc.gov*.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is considering the approval of the initial DFP submitted by ISFSI licensees. The NRC staff has prepared a final EA and FONSI determination for each of the initial ISFSI DFPs in accordance with the NRC regulations in part 51 of title 10 of the *Code of Federal Regulations* (10 CFR), “Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions,” which implement the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*).

The NRC requires its licensees to plan for the eventual decommissioning of their licensed facilities prior to license termination. On June 17, 2011, the NRC published a final rule in the **Federal Register** amending its decommissioning planning regulations (76 FR 35512). The final rule amended the NRC regulation, 10 CFR 72.30, which concerns financial assurance and decommissioning for ISFSIs. This regulation requires each holder of, or applicant for, a license under 10 CFR part 72 to submit a DFP for the NRC’s review and approval. The DFP is to demonstrate the licensee’s financial assurance, *i.e.*, that funds will be available to decommission the ISFSI. The NRC staff will later publish its financial analyses of the DFP submittals which will be available for public inspection in ADAMS.

II. Discussion

The following table includes the plant name, docket number, licensee, and ADAMS Accession Number for the final EA and FONSI determination for each of the individual ISFSIs. The table also includes the ADAMS Accession Numbers for other relevant documents, including the initial and updated DFP submittals. For further details with
