DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

National Institute of Arthritis and Musculoskeletal and Skin Diseases; Notice of Meeting

Pursuant to section 10(d) of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the National Arthritis and Musculoskeletal and Skin Diseases Advisory Council.

The meeting will be open to the public as indicated below, with attendance limited to space available. Individuals who plan to attend and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting.

The meeting will be closed to the public in accordance with the provisions set forth in sections 552b(c)(4) and 552b(c)(6), Title 5 U.S.C., as amended. The grant applications and the discussions could disclose confidential trade secrets or commercial property such as patentable material, and personal information concerning individuals associated with the grant applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Name of Committee: National Arthritis and Musculoskeletal and Skin Diseases Advisory Council.

Date: May 18, 2021.

Open: 9:30 a.m. to 12:30 p.m.

Agenda: Discussion of Program Policies and Issues.

Place: National Institute of Arthritis and Musculoskeletal and Skin Diseases, 6701 Democracy Blvd., Democracy I, Suite 800, Bethesda, MD 20892-4872, <http://videocast.nih.gov> (Virtual Meeting).

Virtual Access: The meeting will be videocast and can be accessed from the NIH Videocast <http://videocast.nih.gov>. Please

note, the link to the videocast meeting will be posted within a week of the meeting date. Any member of the public may submit written comments no later than 15 days after the meeting.

Closed: 2:00 p.m. to 3:10 p.m.

Agenda: To review and evaluate grant applications.

Place: National Institute of Arthritis and Musculoskeletal and Skin Diseases, 6701 Democracy Blvd., Democracy I, Suite 800, Bethesda, MD 20892-4872 (Virtual Meeting).

Contact Person: Melinda Nelson, Director, Office of Extramural Operations, 6701 Democracy Blvd., Democracy I, Suite 800, Bethesda, MD 20892-4872, (301) 435-5278, nelsonnm@mail.nih.gov.

Any interested person may file written comments with the committee by forwarding the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

(Catalogue of Federal Domestic Assistance Program Nos. 93.846, Arthritis, Musculoskeletal and Skin Diseases Research, National Institutes of Health, HHS)

Dated: April 8, 2021.

Miguelina Perez,

Program Analyst, Office of Federal Advisory Committee Policy.

BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID: FEMA-2021-0012]

Assistance to Firefighters Grant Program

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security (DHS).

ACTION: Notice.

SUMMARY: Pursuant to the Federal Fire Prevention and Control Act of 1974, as amended, the Administrator of FEMA is publishing this notice describing the fiscal year (FY) 2020 Assistance to Firefighters Grant (AFG) Program application process, deadlines, and award selection criteria. This notice explains the differences, if any, between these guidelines and those recommended by representatives of the national fire service leadership during the annual meeting of the Criteria Development Panel, which was held December 11, 2019. The application period for the FY 2020 AFG Program was January 4, 2021 through February 12, 2021, and was announced on the AFG website at: <https://www.fema.gov/>

grants/preparedness/firefighters, as well as at www.grants.gov.

DATES: Grant applications for the FY 2020 AFG Program were accepted electronically at <https://go.fema.gov>, from January 4, 2021, through February 12, 2021, at 5:00 p.m. Eastern Standard Time.

ADDRESSES: Assistance to Firefighters Grant Branch, DHS/FEMA, 400 C Street SW, 3N, Washington, DC 20472-3635.

FOR FURTHER INFORMATION CONTACT: Catherine Patterson, Branch Chief, Assistance to Firefighters Grant Branch, 1-866-274-0960.

SUPPLEMENTARY INFORMATION: The AFG Program awards grants directly to fire departments, non-affiliated emergency medical services (EMS) organizations, and State Fire Training Academies (SFTAs) for the purpose of enhancing the health and safety of first responders and improving their abilities to protect the public from fire and fire-related hazards.

Applications for the FY 2020 AFG Program were submitted and processed online at <https://go.fema.gov>. Before the application period started, the FY 2020 AFG Program Notice of Funding Opportunity (NOFO) was published on FEMA's AFG Program website. The AFG Program website provides additional information and materials useful for FY 2020 AFG Program applicants including Frequently Asked Questions, Application Checklist, Get Ready Guide Narrative, Self-Evaluation Sheets for Vehicle Acquisition and Operations Safety, and a Cost Share Calculator. Based on past AFG Program application periods, FEMA anticipates receiving 10,000 to 15,000 applications for the FY 2020 AFG Program, and the ability to award approximately 2,000 grants.

Congressional Appropriations

For the FY 2020 AFG Program, Congress appropriated \$355 million (Consolidated Appropriations Act, 2020, Pub. L. 116-93). From this amount, \$319.5 million will be made available for FY 2020 AFG Program awards. In addition, Section 33 of the Federal Fire Prevention and Control Act of 1974, as amended (15 U.S.C. 2229), requires that a minimum of 10 percent of available funds be expended for Fire Prevention and Safety (FP&S) Program grants. FP&S Program awards will be made directly to local fire departments and to local, regional, State, or national entities recognized for their expertise in the fields of fire prevention and firefighter safety research and development. Funds appropriated for FY 2020 will be available for obligation and award until September 30, 2021.

The Federal Fire Prevention and Control Act of 1974 further directs FEMA to administer these appropriations according to the following requirements:

- *Career fire departments:* Not less than 25 percent of available grant funds.
- *Volunteer fire departments:* Not less than 25 percent of available grant funds.
- *Combination fire departments and departments using paid-on-call firefighting personnel:* Not less than 25 percent of available grant funds.
- *Open competition (career, volunteer, and/or combination fire departments and departments using paid-on-call firefighting personnel):* Not less than 10 percent of available grant funds awarded.
- *EMS providers including fire departments and nonaffiliated EMS organizations:* Not less than 3.5 percent of available grant funds awarded, with nonaffiliated EMS providers receiving no more than 2 percent of the total available grant funds.
- *SFTAs:* Not more than 3 percent of available grant funds shall be collectively awarded to SFTA applicants, with a maximum of \$1 million per applicant.
- *Vehicles:* Not more than 25 percent of available grant funds may be used for the purchase of vehicles; 10 percent of those vehicle funds will be dedicated to the funding of ambulances. Vehicle funds will be distributed as equally as possible among urban, suburban, and rural community applicants.
- *Micro grants:* This is a voluntary funding limitation choice made by the applicant for requests submitted within the operations and safety activity; it is not an additional funding opportunity. Micro grants are awards that have a Federal participation (share) that does not exceed \$50,000. Only fire departments and nonaffiliated EMS organizations are eligible to choose micro grants, and the only eligible micro grants requests are for training, equipment, personal protective equipment (PPE), and wellness and fitness activities. Applicants that select micro grants as a funding opportunity may receive additional consideration for award. If an applicant selects micro grants in their application, they will be limited in the total amount of funding their organization can be awarded; if they are requesting funding in excess of \$50,000 Federal participation, they should not select micro grants.

Background of the AFG Program

Since 2001, the AFG Program has helped firefighters and other first responders obtain critically needed equipment, protective gear, emergency

vehicles, training, and other resources needed to protect emergency personnel and the public from fire and related hazards. FEMA awards grants on a competitive basis to the applicants that best address the AFG Program's priorities and provide the most compelling justification. Applications that best address AFG Program priorities, as identified in the Application Evaluation Criteria, will be reviewed by a peer review panel composed of fire service personnel.

The AFG Program has three program activities:

- Operations and Safety
- Vehicle Acquisition
- Regional Projects

The priorities for each activity are fully outlined in the NOFO.

Application Evaluation Criteria

Prior to making a grant award, FEMA is required by 31 U.S.C. 3354, as amended by the Payment Integrity Information Act of 2019, Public Law 116-117 (2020), 41 U.S.C. 2313, and 2 CFR 200.206 to review information available through any Office of Management and Budget (OMB) designated repositories of government-wide eligibility qualification or financial integrity information. Therefore, application evaluation criteria may include the following risk-based considerations of the applicant: (1) Financial stability; (2) quality of management systems and ability to meet management standards; (3) history of performance in managing Federal awards; (4) reports and findings from audits; and (5) ability to effectively implement statutory, regulatory, or other requirements.

FEMA will rank all complete and submitted applications based on how well they match program priorities for the type of jurisdiction(s) served. Answers to activity specific questions provide information used to determine each application's ranking relative to the stated program priorities.

Funding priorities and criteria for evaluating AFG Program applications are established by FEMA based on the recommendations from the Criteria Development Panel (CDP). CDP is comprised of fire service professionals who make recommendations to FEMA regarding the creation of new, or the modification of previously established, funding priorities, as well as developing criteria for awarding grants. The content of the NOFO reflects implementation of CDP's recommendations with respect to the priorities and evaluation criteria for awards.

The nine major fire service organizations represented on the CDP are:

- International Association of Fire Chiefs
- International Association of Fire Fighters
- National Volunteer Fire Council
- National Fire Protection Association
- National Association of State Fire Marshals
- International Association of Arson Investigators
- International Society of Fire Service Instructors
- North American Fire Training Directors
- Congressional Fire Service Institute

Review and Selection Process

AFG Program applications are reviewed through a multi-phase process. All applications are electronically pre-scored and ranked based on how well they align with the funding priorities outlined in this notice. Applications with the highest pre-score rankings are then scored competitively by (no less than three) members of a Peer Review Panel. Applications will also be evaluated through a series of internal FEMA review processes for completeness, adherence to programmatic guidelines, technical feasibility, and anticipated effectiveness of the proposed project(s). Below is the process by which applications will be reviewed:

i. Pre-Scoring Process

The application undergoes an electronic pre-scoring process based on established program priorities listed within the NOFO and answers to activity specific questions within the online application. Application narratives are not reviewed during pre-scoring. Request details and budget information should comply with program guidance and statutory funding limitations. The pre-score is 50 percent of the total application score.

ii. Peer Review Panel Process

Applications with the highest pre-score will undergo peer review. The peer review is comprised of fire service representatives recommended by the organizations represented on the CDP. The panelists assess the merits of each application based on the narrative section of the application, including the evaluation elements listed in the Narrative Evaluation Criteria below. Panelists independently score each project within the application, discuss the merits and/or shortcomings of the application with their peers, and document the findings. A consensus is

not required. The panel score is 50 percent of the total application score.

iii. Technical Evaluation Process

The highest ranked applications are considered within the fundable range. Applications that are in the fundable range undergo both a technical review by a subject matter expert, as well as a FEMA AFG Branch review prior to being recommended for an award. The FEMA AFG Branch will assess the request with respect to costs, quantities, feasibility, eligibility, and recipient responsibility prior to recommending an application for award. Once the technical evaluation process is complete, the cumulative score for each application will be determined and FEMA will generate a final ranking of applications. FEMA will award grants based on this final ranking and the statutorily required funding limitations listed in this notice and the NOFO.

Narrative Evaluation Criteria

1. Financial Need (25 Percent)

Applicants should describe their financial need and how consistent it is with the intent of the AFG Program. This statement should include details describing the applicant's financial distress, summarized budget constraints, unsuccessful attempts to secure other funding, and proof that their financial distress is out of their control.

2. Project Description and Budget (25 Percent)

This statement should clearly explain the applicant's project objectives and the relationship between those objectives and the applicant's budget and risk analysis. The applicant should describe the activities, including program priorities or facility modifications, ensuring consistency with project objectives, the applicant's mission, and any national, State, and/or local requirements. Applicants should link the proposed expenses to operations and safety, as well as the completion of the project goals.

3. Cost Benefit (25 Percent)

Applicants should describe how they plan to address the operations and personal safety needs of their organization, including cost effectiveness and sharing assets. This statement should also include details about gaining the maximum benefits from grant funding by citing reasonable or required costs, such as specific overhead and administrative costs. The applicant's request should also be consistent with their mission and

identify how funding will benefit their organization and personnel.

4. Statement of Effect on Daily Operations (25 Percent)

This statement should explain how these funds will enhance the applicant's overall effectiveness. It should address how an award will improve daily operations and reduce the applicant's risks. Applicants should include how frequently the requested items will be used, and in what capacity. Applicants should also indicate how the requested items will help the community and increase the organization's ability to save additional lives or property. Jurisdictions that demonstrate their commitment and proactive posture to reducing fire risk, by explaining their code enforcement (to include Wildland Urban Interface code enforcement) and mitigation strategies (including whether or not the jurisdiction has a FEMA-approved mitigation strategy) may receive stronger consideration under this criterion.

Eligible Applicants

Fire Departments: Fire departments operating in any of the 50 States, as well as fire departments in the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico, or any federally-recognized Indian Tribe or Tribal organization.

A fire department is an agency or organization having a formally recognized arrangement with a State, territory, local, or Tribal authority (city, county, parish, fire district, township, town, or other governing body) to provide fire suppression to a population within a geographically fixed primary first due response area.

Nonaffiliated EMS organizations: Nonaffiliated EMS organizations operating in any of the 50 States, as well as the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Puerto Rico, or any federally-recognized Indian Tribe or Tribal organization.

A nonaffiliated EMS organization is an agency or organization that is a public or private nonprofit emergency medical services entity providing medical transport that is not affiliated with a hospital and does not serve a geographic area in which emergency medical services are adequately provided by a fire department.

FEMA considers the following as hospitals under the AFG Program:

- Clinics
- Medical centers

- Medical colleges or universities
- Infirmaries
- Surgery centers
- Any other institutions, associations, or foundations providing medical, surgical, or psychiatric care and/or treatment for the sick or injured.

State Fire Training Academies: SFTAs operating in any of the 50 States, as well as the District of Columbia, the Commonwealth of the Northern Mariana Islands, the U.S. Virgin Islands, Guam, American Samoa, or the Commonwealth of Puerto Rico. Applicants must be designated either by legislation or by a Governor's declaration as the sole fire service training agency within a State, territory, or the District of Columbia. The designated SFTA shall be the only agency/bureau/division, or entity within that State, territory, or the District of Columbia.

Ineligibility

- To avoid a duplication of benefits, FEMA reserves the right to review all program activities or grant applications where two or more organizations share a single facility. To be eligible as a separate organization, two or more fire departments or nonaffiliated EMS organizations will have different funding streams, personnel rosters, or Employer Identification Numbers (EINs). If two or more organizations share facilities and each submits an application in the same program area (e.g., Equipment, Modify Facilities, PPE, Training, and/or Wellness and Fitness Programs) FEMA will carefully review each program for eligibility.

- Fire-based EMS organizations are not eligible to apply as nonaffiliated EMS organizations. Fire-based EMS training and equipment must be requested by a fire department under the AFG Program component program of Operations and Safety.

- Eligible applicants may submit only one application for each activity (e.g., Operations and Safety, Regional, etc.), but may submit for multiple projects within each activity. Under the Vehicle Activity, applicants may submit one application for vehicles for their department and one separate application to host a Regional vehicle. Duplicate applications (more than one application in the same activity) may be disqualified.

- An Operations and Safety applicant may submit one application for an eligible project (ie.g., turn out gear); it may not submit a Regional application for the same project.

Statutory Limits to Funding

- Congress has enacted statutory limits to the amount of funding that a

grant recipient may receive from the AFG Program in any single fiscal year based on the population served (15 U.S.C. 2229(c)(2)). Awards will be limited based on the size of the population protected by the applicant, as indicated below. Notwithstanding the annual limits stated below, the Administrator of FEMA may not award a grant in an amount that exceeds one percent of the available grant funds in such fiscal year, except where it is determined that such recipient has an extraordinary need for a grant in an amount that exceeds the one percent aggregate limit.

- In the case of a recipient that serves a jurisdiction with 100,000 people or fewer, the amount of available grant funds awarded to such recipient shall not exceed \$1 million in any fiscal year.

- In the case of a recipient that serves a jurisdiction with more than 100,000 people, but not more than 500,000 people, the amount of available grant funds awarded to such recipient shall not exceed \$2 million in any fiscal year.

- In the case of a recipient that serves a jurisdiction with more than 500,000, but not more than 1 million people, the amount of available grant funds awarded to such recipient shall not exceed \$3 million in any fiscal year.

- In the case of a recipient that serves a jurisdiction with more than 1 million people but not more than 2.5 million people, the amount of available grant funds awarded to such recipient is subject to the one percent aggregate cap of \$3.55 million for FY 2020, but FEMA may waive this aggregate cap in individual cases where FEMA determines that a recipient has an extraordinary need for a grant that exceeds the aggregate cap; if FEMA waives the aggregate cap, the amount of grant funds awarded to such recipient shall not exceed \$6 million for any fiscal year.

- In the case of a recipient that serves a jurisdiction with more than 2.5 million people, the amount of available grant funds awarded to such recipient is subject to the one percent aggregate cap of \$3.55 million for FY 2020, but FEMA may waive this aggregate cap in individual cases where FEMA determines that a recipient has an extraordinary need for a grant that exceeds the aggregate cap; if FEMA waives the aggregate cap, the amount of grant funds awarded to such recipient shall not exceed \$9 million for any fiscal year.

- FEMA may not waive the population-based limits on the amount of grant funds awarded as set by 15 U.S.C. 2229(c)(2)(A).

The cumulative total of the Federal share of awards in Operations and Safety, Regional, and Vehicle Acquisition activities will be considered when assessing award amounts and any limitations thereto. Applicants may request funding up to the statutory limit on each of their applications.

For example, an applicant that serves a jurisdiction with more than 100,000 people, but not more than 500,000 people, may request up to \$2 million on their Operations and Safety Application, and up to \$2 million on their Vehicle Acquisition request. However, should both grants be awarded, the applicant would have to choose which award to accept if the cumulative value of both applications exceeds the statutory limits.

Cost Sharing and Maintenance of Effort

Grant recipients must share in the costs of the projects funded under this grant program as required by 15 U.S.C. 2229(k)(1) and in accordance with applicable Federal regulations at 2 CFR part 200, but they are not required to have the cost-share at the time of application nor at the time of award. However, before a grant is awarded, FEMA validates that the grant recipient has provided sufficient evidence that the cost-share requirement will be fulfilled during the period of the grant award.

In general, an eligible applicant seeking a grant shall agree to make available non-Federal funds equal to not less than 15 percent of the grant awarded. However, the cost share will vary as follows based on the size of the population served by the organization, with exceptions to this general requirement for entities serving smaller communities:

- Applicants that serve populations of 20,000 or less shall agree to make available non-Federal funds in an amount equal to not less than 5 percent of the grant awarded.

- Applicants serving areas with populations above 20,000, but not more than 1 million, shall agree to make available non-Federal funds in an amount equal to not less than 10 percent of the grant awarded.

- Applicants serving areas with populations above 1 million shall agree to make available non-Federal funds in an amount equal to not less than 15 percent of the grant awarded.

The cost share for SFTAs will apply the requirements above based on the total population of the State.

The cost share for a regional application will apply the requirements above based on the aggregate population of the primary first due response areas

of the host and participating partner organizations that execute a Memorandum of Understanding as described in Appendix B, Section J, Regional projects, of the FY 2020 AFG Program NOFO.

On a case-by-case basis, FEMA may allow a grant recipient that may already own assets (equipment or vehicles), acquired with non-Federal cash, to use the trade-in allowance/credit value of those assets as “cash” for the purpose of meeting the cost-share obligation of their AFG Program award. In-kind, cost-share matches are not allowed.

Grant recipients under this grant program must also agree to a maintenance of effort requirement as required by 15 U.S.C. 2229(k)(3) (referred to as a “maintenance of expenditure” requirement in that statute). A grant recipient shall agree to maintain during the term of the grant the applicant’s aggregate expenditures relating to the activities allowable under the NOFO at not less than 80 percent of the average amount of such expenditures in the two fiscal years preceding the fiscal year in which the grant amounts are received.

In cases of demonstrated economic hardship, and at the request of the grant recipient, the Administrator of FEMA may waive or reduce a grant recipient’s cost share requirement or maintenance of expenditure requirement. AFG Program applicants for FY 2020 must indicate at the time of application whether they are requesting a waiver and whether the waiver is for the cost share requirement, for the maintenance of effort requirement, or both. As required by statute, the Administrator of FEMA is required to establish guidelines for determining what constitutes economic hardship. FEMA has published these guidelines at FEMA’s website: https://www.fema.gov/sites/default/files/2020-04/Eco_Hardship_Waiver_FPS_SAFER_AFG_IB_FINAL.pdf.

Prior to the start of the FY 2020 AFG Program application period, FEMA conducted applicant internet webinars to inform potential applicants about the AFG Program. In addition, FEMA provided applicants with information at the AFG Program website: <https://www.fema.gov/grants/preparedness/firefighters> to help them prepare quality grant applications. The AFG Program Help Desk is staffed throughout the application period to assist applicants with the automated application process as well as assistance with any questions.

Applicants can reach the AFG Program Help Desk through a toll-free telephone number during normal

business hours (1–866–274–0960) or electronic mail firegrants@fema.dhs.gov.

Application Process

Organizations may submit one application per application period in each of the three AFG Program activities (e.g., one application for Operations and Safety, one for Vehicle Acquisition, and/or a separate application to be a Joint/Regional Project host). If an organization submits more than one application for any single AFG Program activity (e.g., two applications for Operations and Safety, two for Vehicles, etc.), either intentionally or unintentionally, both applications may be disqualified.

Applicants accessed the grant application electronically at <https://go.fema.gov>. The application is also accessible from the U.S. Fire Administration’s website <http://www.usfa.fema.gov> and <http://www.grants.gov>. New applicants must register and establish a user name and password for secure access to the grant application. Previous AFG Program applicants must use their previously established user name and passwords.

Applicants are expected to answer questions about their grant request that reflect the AFG Program funding priorities, described below. In addition, each applicant must complete four separate narratives for each project or grant activity requested. Grant applicants will also provide relevant information about their organization’s characteristics, call volume, and existing organizational capabilities.

System for Award Management (SAM)

Per 2 CFR 25.200, all Federal grant applicants and recipients must register at <https://SAM.gov>. SAM is the Federal Government’s System for Awards Management, and registration is free of charge. Applicants must maintain current information in SAM that is consistent with the data provided in their AFG Program grant application and in the Dun & Bradstreet (DUNS) database. FEMA may not accept any application, process any awards, or consider any payment or amendment requests, unless the applicant or grant recipient has complied with the requirements to provide a valid DUNS number and an active SAM registration. The grant applicant’s banking information, EIN, organization/entity name, address, and DUNS number must match the same information provided in SAM.

Criteria Development Panel Recommendations

If there are any differences between the published AFG Program guidelines and the recommendations made by the CDP, FEMA must explain them and publish the information in the **Federal Register** prior to awarding any grant under the AFG Program. For FY 2020, FEMA accepted, and will implement, all but two of the CDP’s recommendations for the prioritization of eligible activities.

Adopted Recommendations for FY 2020

The FY 2020 AFG Program NOFO contains some changes to definitions, descriptions, and priority categories. Changes to the FY 2020 AFG Program NOFO include:

- Under Sections D—Application and Submission Information, E—Application Review Information, F—Federal Award Administration Information, G—DHS Awarding Agency Contact and Resource. Information, and H—Additional Information:
 - Various grants management changes due to the recent OMB revision to 2 CFR. In particular, changes regarding SAM registration, performance measures, procurement, closeout, and termination are included.
- Under Federal Award Information:
 - Period of performance for AFG Program awards is 24 months.
- Under Supporting Definitions:
 - Paid on-call/Stipend departments are added to the definition for Combination Fire Department.
- Under Application Tips:
 - Explanation of AFG Program-approved seated riding positions was added.
 - Under Training Activity:
 - Rental of Audio/Visual equipment was added as eligible activity.
 - Under Operations and Safety Activity:
 - Radio over internet Protocol (RoIP) communication equipment was added as a Medium Priority.
 - Integrated thermal imaging cameras were added to the ineligible list under the PPE category.
 - Under Modifications to Facility Activity:
 - Intruder alerting systems and deployment notification systems were added as ineligible.
 - Under Regional Applications:
 - Guidance requiring purchases from same vendor added.
 - Under Environmental Planning and Historic Preservation (EHP):
 - Updated process for EHP added.
- Under Award Administration Information (Appendix C):

- Updated process for Economic Hardship Waiver added.
- Excess Funds Restrictions specifies High Priority items as eligible under this option.
- Updated instruction on supporting documentation is added for advance and reimbursement payment request.

Recommendations Not Adopted for FY 2020

- The CDP recommended that fire departments implement a requirement where National Fire Protection Association (NFPA) standards listed as 1582 physicals become a requirement for all awards. FEMA recommends evaluating the impact of this requirement prior to implementation. Data on fire departments' abilities to meet this standard was collected in the FY 2020 application. It will not be considered during the application review.
- The CDP recommended that FEMA adopt new definitions for career and combination departments to align with NFPA changes in the 1710 and 1720 standards. FEMA is unable to adopt this recommendation as it conflicts with statutory definitions.

Authority: 15 U.S.C. 2229.

Robert Fenton,

Senior Official Performing the Duties of the FEMA Administrator, Federal Emergency Management Agency.

Application for an Incidental Take Permit; Renewable (Wind and Solar) Energy, Power Line, and Communication Tower Habitat Conservation Plan for the Lesser Prairie-Chicken; Colorado, Kansas, New Mexico, Oklahoma and Texas

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comments.

SUMMARY: This notice advises the public that LPC Conservation LLC (applicant) has applied to the U.S. Fish and Wildlife Service (Service) for an incidental take permit (ITP) supported by the *Renewable (Wind and Solar) Energy, Power Line, and Communication Tower Habitat Conservation Plan for the Lesser Prairie-*

chicken; Colorado, Kansas, New Mexico, Oklahoma and Texas (HCP). The applicant has applied to the Service for the ITP pursuant to the Endangered Species Act. The requested ITP, if approved, would authorize incidental take of the lesser prairie-chicken resulting from activities covered by the HCP (e.g., wind, solar, transmission lines, and communication towers) and incidental take resulting from conservation actions taken to avoid, minimize, and mitigate impacts of the incidental take of the LEPC that result from covered activities. If approved, the requested ITP would become effective should the LEPC become federally listed during the life of the ITP and HCP. With this notice we also announce the availability of a draft environmental assessment (EA) that has been prepared to evaluate the ITP application in accordance with the requirements of the National Environmental Policy Act. We are making the ITP application package, including the HCP and draft EA, available for public review and comment.

DATES: *Submission of comments:* We will accept comments received or postmarked on or before May 14, 2021.

ADDRESSES: *Obtaining documents:* You may obtain copies of the ITP application, HCP, draft EA, or other related documents on the internet at <https://www.fws.gov/southwest/es/ArlingtonTexas>.

Submitting comments: You may submit written comments by email to arles@fws.gov. Please note that your comment is in reference to the above-referenced HCP. For more information, see Public Availability of Comments.

FOR FURTHER INFORMATION CONTACT: Debra Bills, Field Supervisor, U.S. Fish and Wildlife Service, Arlington, Texas, Ecological Services Office; telephone 817-277-1100. Hearing or speech impaired individuals may call the Federal Relay Service at 800-877-8339 for TTY service.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), make available the *Renewable (Wind and Solar) Energy, Power Line, and Communication Tower Habitat Conservation Plan for the Lesser Prairie-chicken; Colorado, Kansas, New Mexico, Oklahoma and Texas* (HCP). The LPC Conservation LLC (applicant) has applied for an incidental take permit (ITP). If approved, the requested ITP would become effective and authorize incidental take of the lesser prairie-chicken (*Tympanuchus pallidicinctus*; LEPC) should the LEPC become federally listed during the life of the ITP and HCP under the Endangered Species

Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*).

We are considering issuing a section 10(a)(1)(B) ITP for the LEPC, a species that is not currently listed under the ESA, in response to the applicant's application and supporting HCP. While our 2016 revised HCP handbook (Handbook) provides guidance that an ITP and supporting HCP include at least one ESA-listed animal species, the issuance of this ITP could provide for LEPC conservation in several ways. First, the proposed HCP may meet the Service's conservation recommendation for the LEPC because it emphasizes avoidance and minimization, and focuses mitigation in areas that can serve as conservation strongholds for this species. Depending on enrollment, this mitigation strategy could help to preclude the need to list the LEPC or could help to recover the LEPC, if listing is warranted in the future. Second, the proposed HCP would provide taxpayer and industry savings in the use of one conservation planning strategy. In contrast, developing a CCAA prior to a future listing and developing an HCP, or multiple HCPs, after a potential future listing is inefficient for both the Federal agencies and industry participants. The proposed HCP would be more efficient because potential participants could enroll on a project-by-project basis either pre- or post a future listing. This allows for greater, more consistent, and more predictable conservation efforts to be undertaken. Third, with this proposed HCP, the Service would issue a permit that does not go into effect until a future listing, if it occurs. This is the same as our practice for permits associated with CCAAs and ITPs associated with multi-species HCPs that include unlisted species. Finally, the proposed HCP also supports States' management ability of the unlisted species similar to CCAAs in that the proposed ITP does not become effective until such time that the covered species may be listed. Prelisting participation is voluntary for participants and provides the affected States continued regulatory authority regarding wildlife species.

We believe considering a HCP without a currently listed species, in this instance, is supported by the Conference Report to the 1982 Amendments that created HCPs (Conference Report) which expressly considered both listed and unlisted species, H.R. Rep No. 97-835, at 30 (1982). The Conference Report states that "although the conservation plan is keyed to the permit provisions of the Act which only apply to listed species, the committee intends that conservation plans may address both listed and
